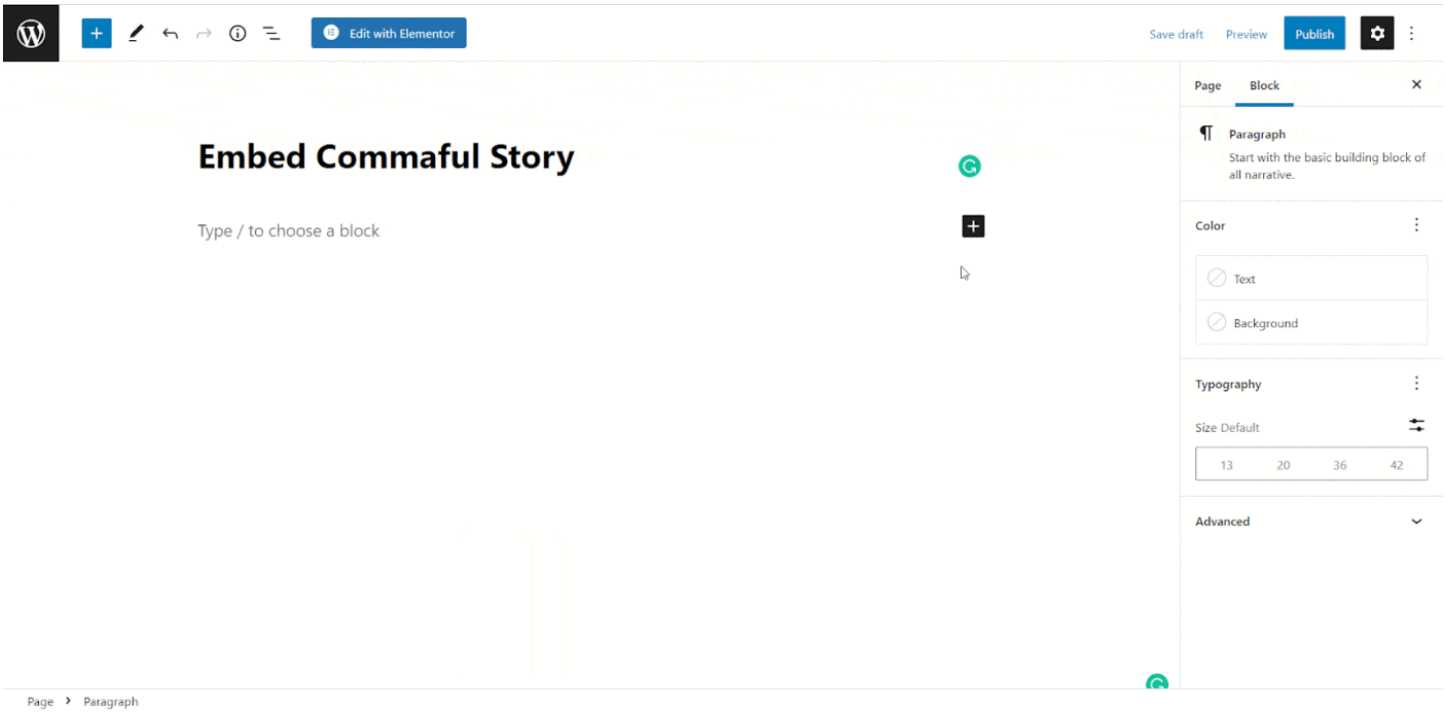
How To Embed Commaful Story In Gutenberg

EmbedPress comes with its own block for embedding any type of content using **Gutenberg**. To embed your Commaful story using Gutenberg, follow the steps below.

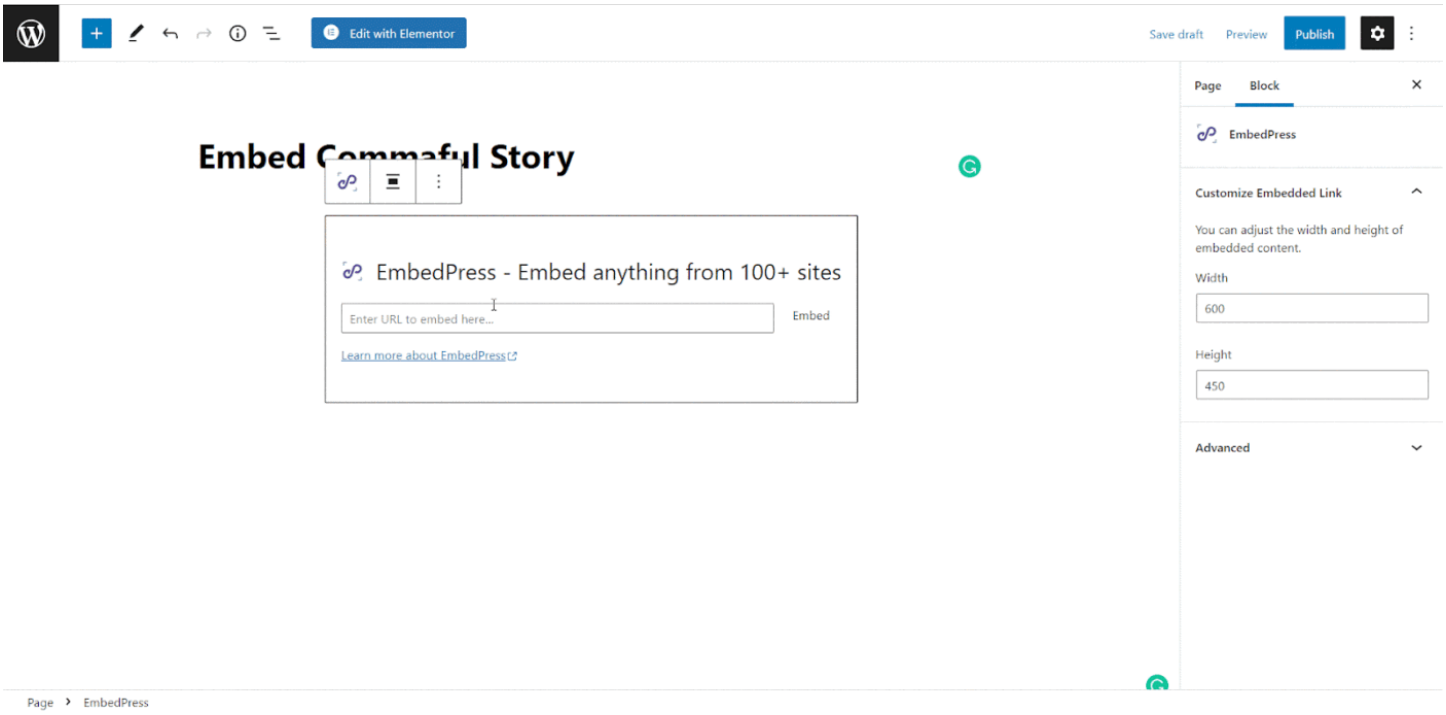
Step 1: Search For The EmbedPress Block

Open the page where you wish to embed a Commaful story from your dashboard. Now Click on the **‘+’** icon to add blocks and search for **‘EmbedPress’**. Then insert the **EmbedPress block** on the page.



Step 2: Enter the URL Into The Block

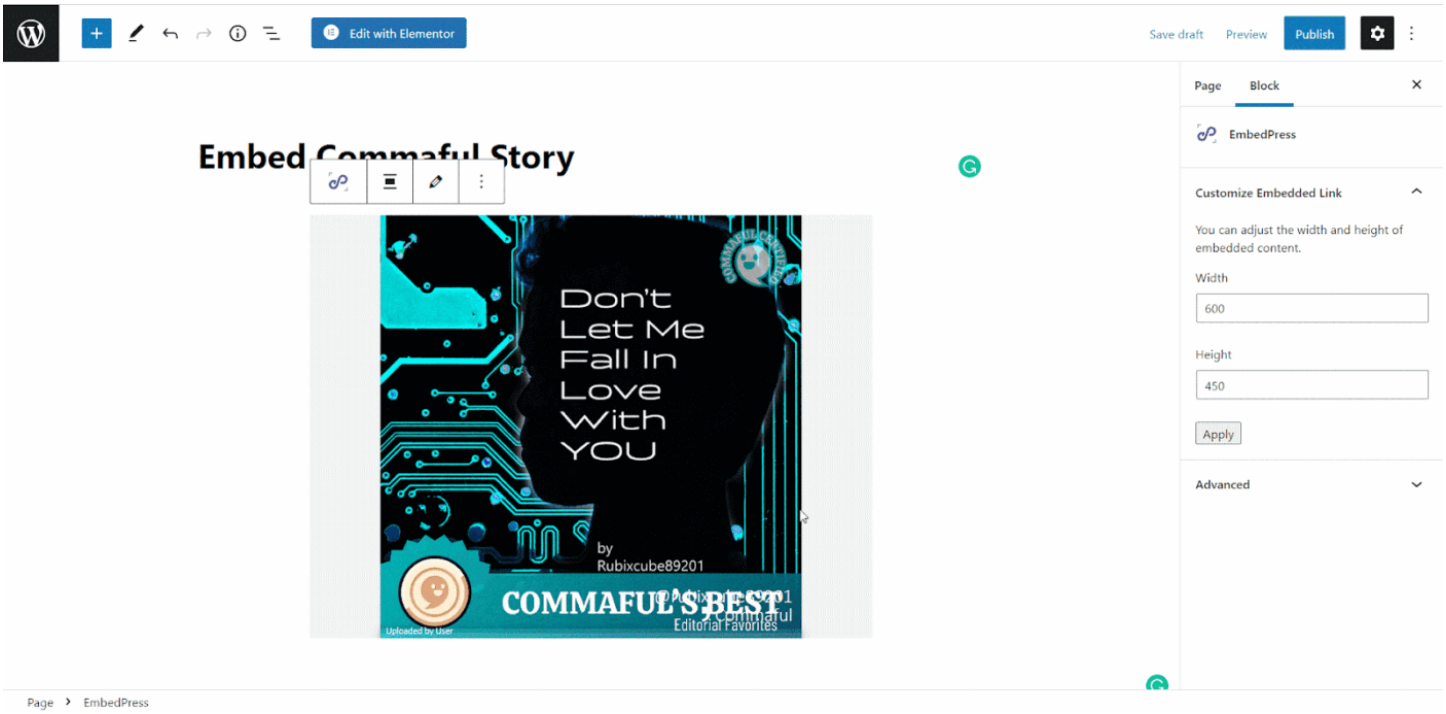
Now paste the collected Commaful story URL on the input field and click on the **‘Embed’** button beside the URL field. Your Content will be successfully then embedded in Gutenberg.



Afterward, **Publish** your WordPress content, and the Commaful story will be embedded automatically on your published page or post for users to see.

Step 3: Edit Your Commaful Embed

To **edit the Commaful embed** on the Gutenberg editor, click on the **EmbedPress 'Block'** on your Gutenberg editor.



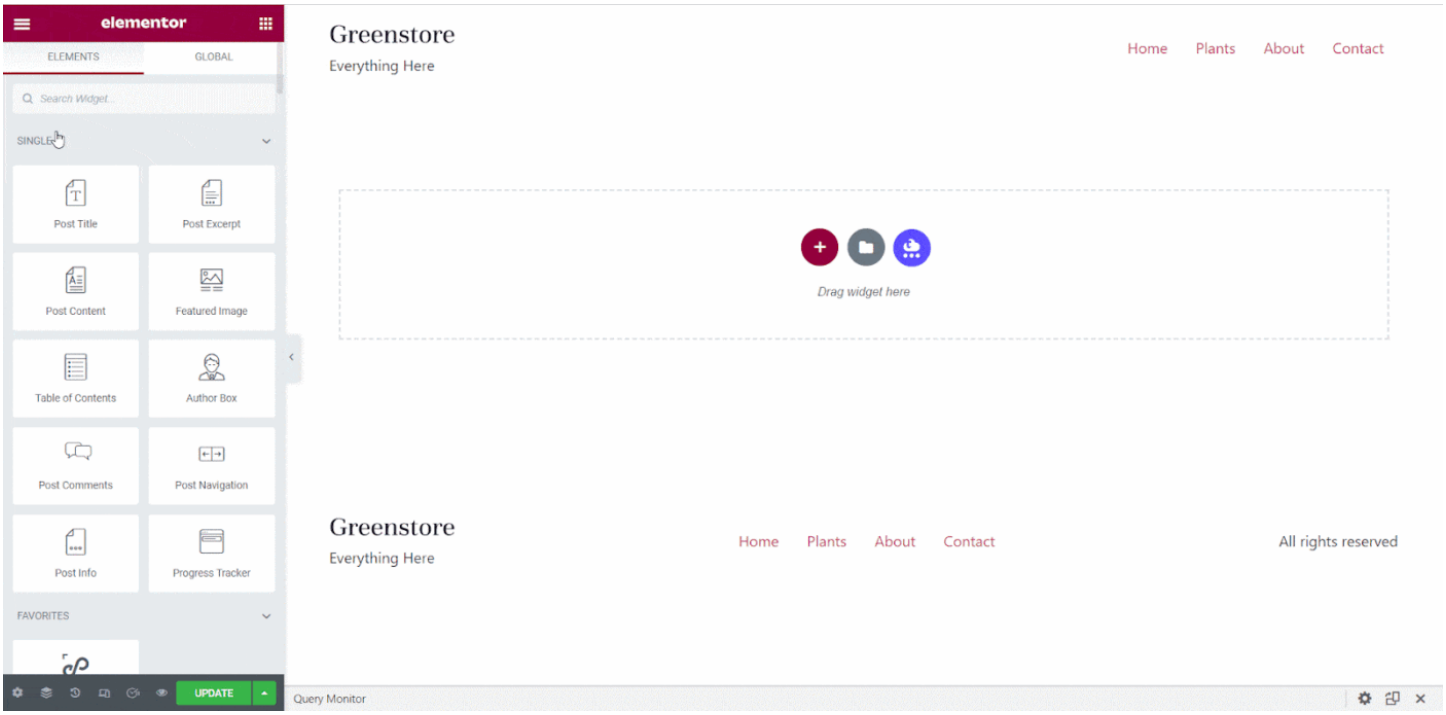
You can change the **dimensions of your embedded story** and modify it the way you need with absolute ease on the block customizer. That appears on the side panel of the Gutenberg Editor.

How To Embed Commaful In Elementor?

After you have collected your Commaful story URL, open your WordPress dashboard and select the page where you'd like Commaful story links to be embedded. Then follow the instructions given below.

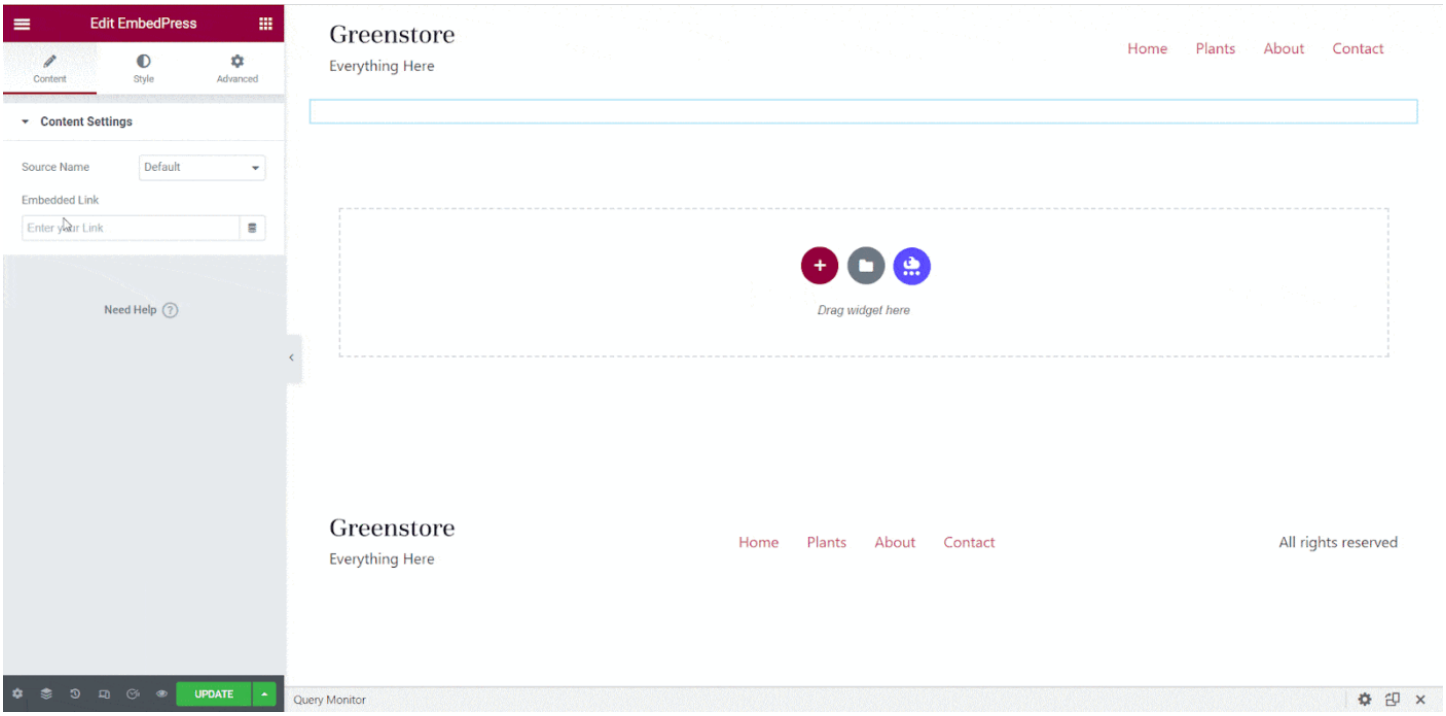
Step 1: Search The EmbedPress Element

First, click on **'Edit with Elementor'** at the top of your page. It will take you to the Elementor editing panel. Search for the '**EmbedPress'** element there on the widget panel and then drag and drop the element on your page.



Step 2: Paste The URL In 'Content Settings'

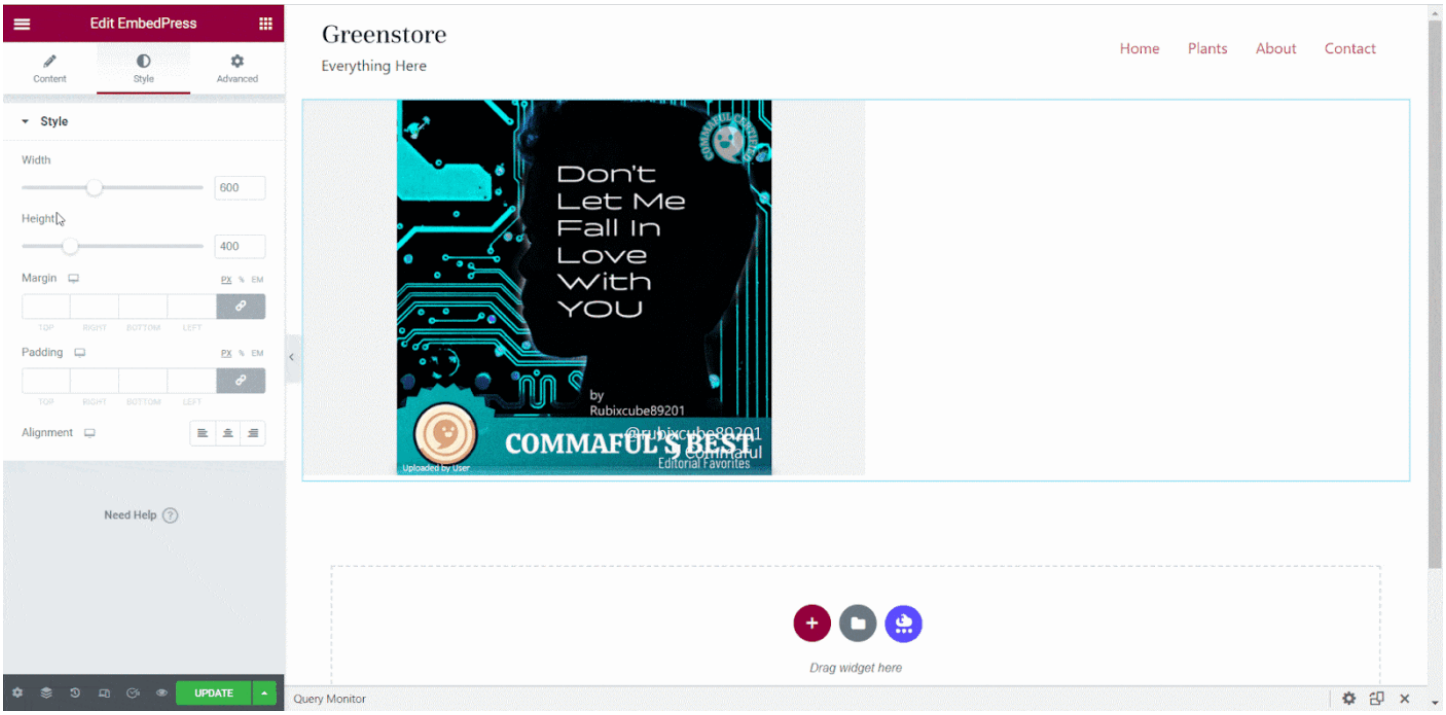
Next, paste the Commaful story URL you have copied before into the **'Content Settings'** input field. You will be able to preview your Commaful story link here.



Publish your post or page, and your website users will be able to see the embedded content.

Step 3: Style Your Embedded Content

You can edit the embedded story on the Elementor editor with a few easy steps. First, go to the ‘ **Style**’ tab on the Elementor side panel.



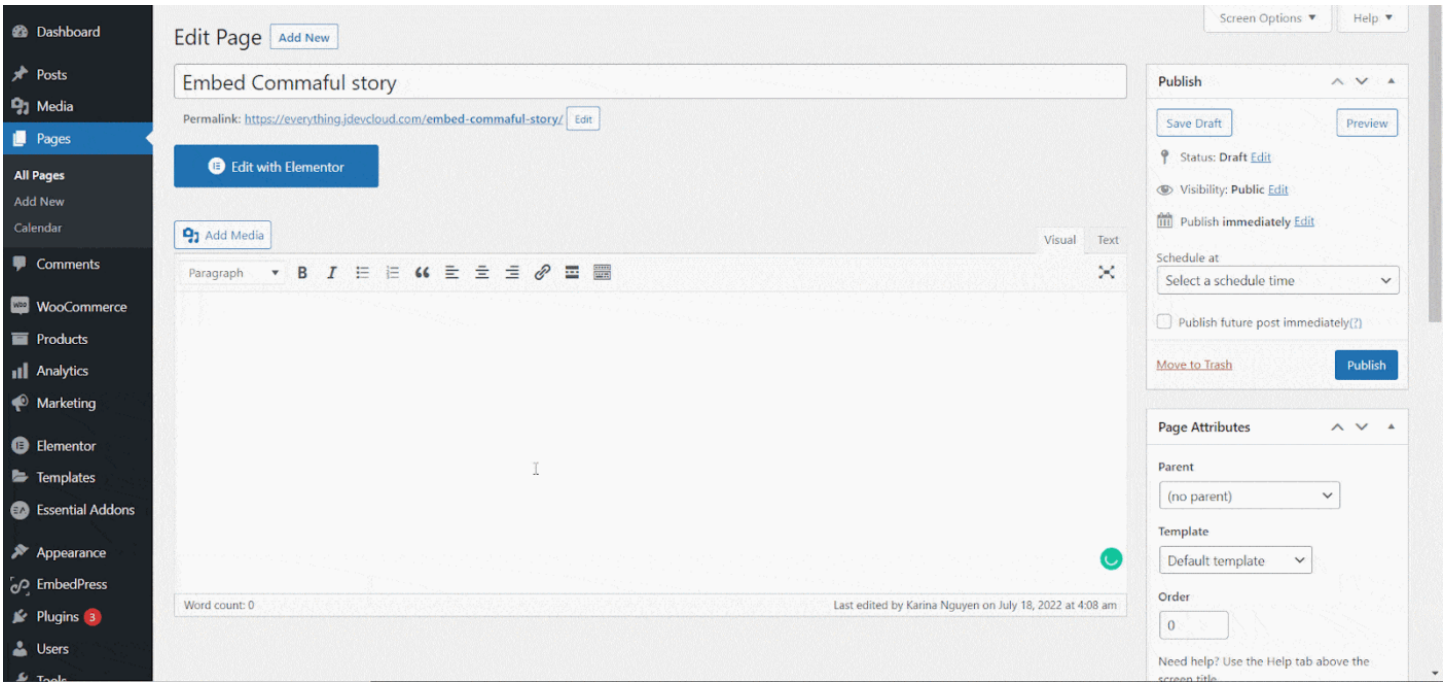
Here, you can change the **dimensions, margin, padding, and alignment** of the Commaful story content as necessary.

How To Embed Commaful Story In Classic Editor?

You can effortlessly **embed a Commaful story** onto your **Classic editor** with just a few clicks.

Step 1: Paste The Link On Classic Editor

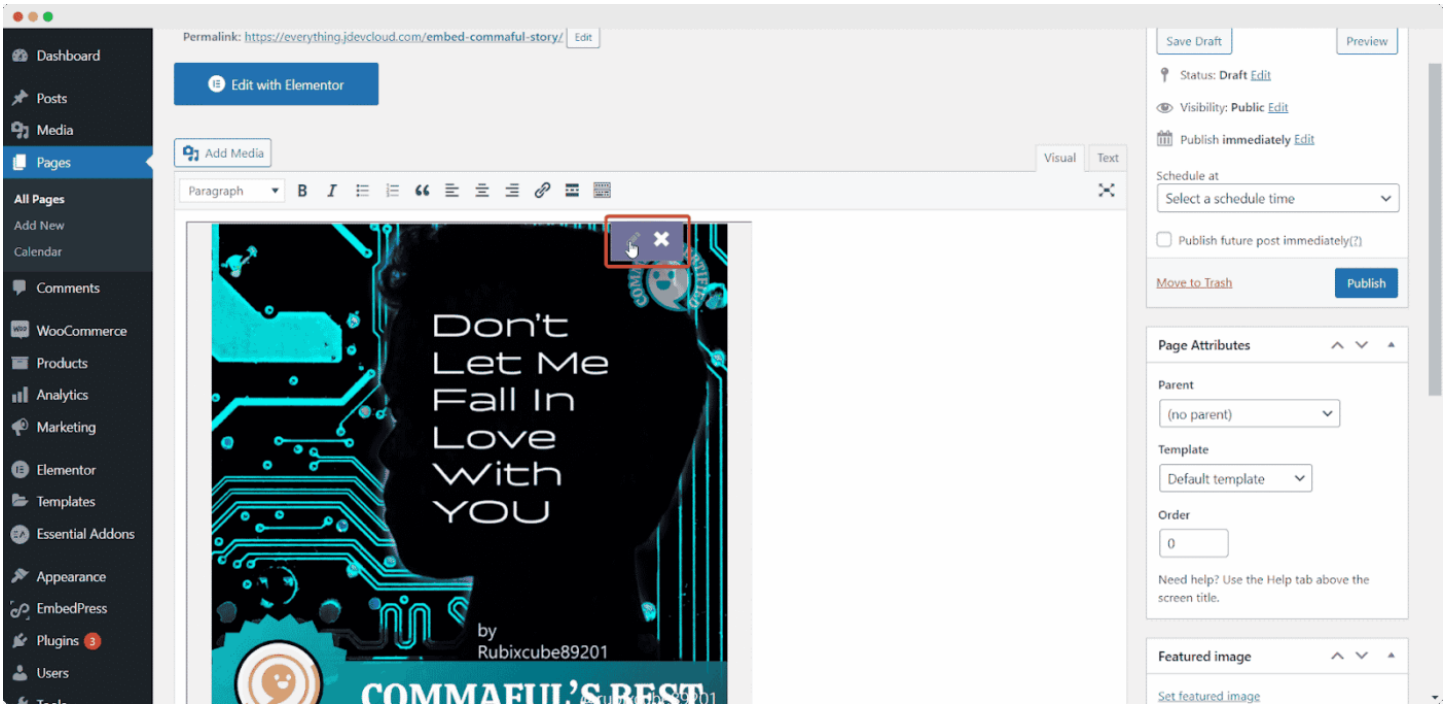
Now, open the page where you want to **embed Commaful story** with the Classic editor. Paste the URL directly onto the '**content area**' of your Classic editor interface. Purple background with a " **Loading your embed...**" message will appear in the content area for a few seconds.



The URL will be automatically converted into an embed of your Commaful story. Publish and preview the post or page, and your users will be able to view your Commaful story.

Step 2: Edit The Embedded Audio File

If you want to edit your embedded Commaful story on Classic Editor, move the mouse pointer over the Commaful story embed. A purple button will show up at the top. Just click the pencil icon, and a pop-up window will be visible with more options. There you can make the changes and customize the look.



With these simple steps, you can **embed Commaful story** instantly into your WordPress website with **EmbedPress** using any of Gutenberg Editor, Classic Editor, or Elementor Editor.
