With EmbedPress, you can add Animoto videos to WordPress, using just a URL.

Animoto video embeds are possible without EmbedPress, but they're not easy. EmbedPress is different. With EmbedPress, you don't have to mess around with embed code. All you need is the Animoto video URL.

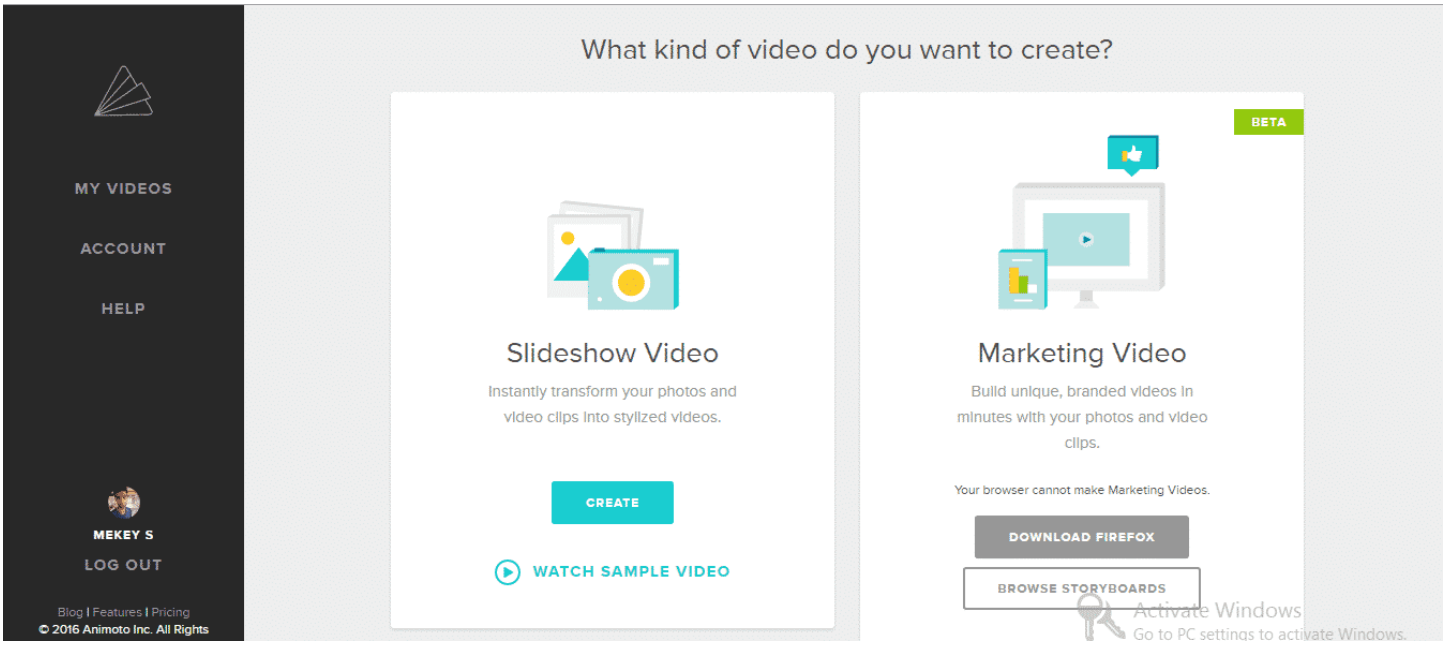

Here's how to embed any Animoto video into your WordPress site, using the EmbedPress plugin.

Step #1. Install the EmbedPress plugin

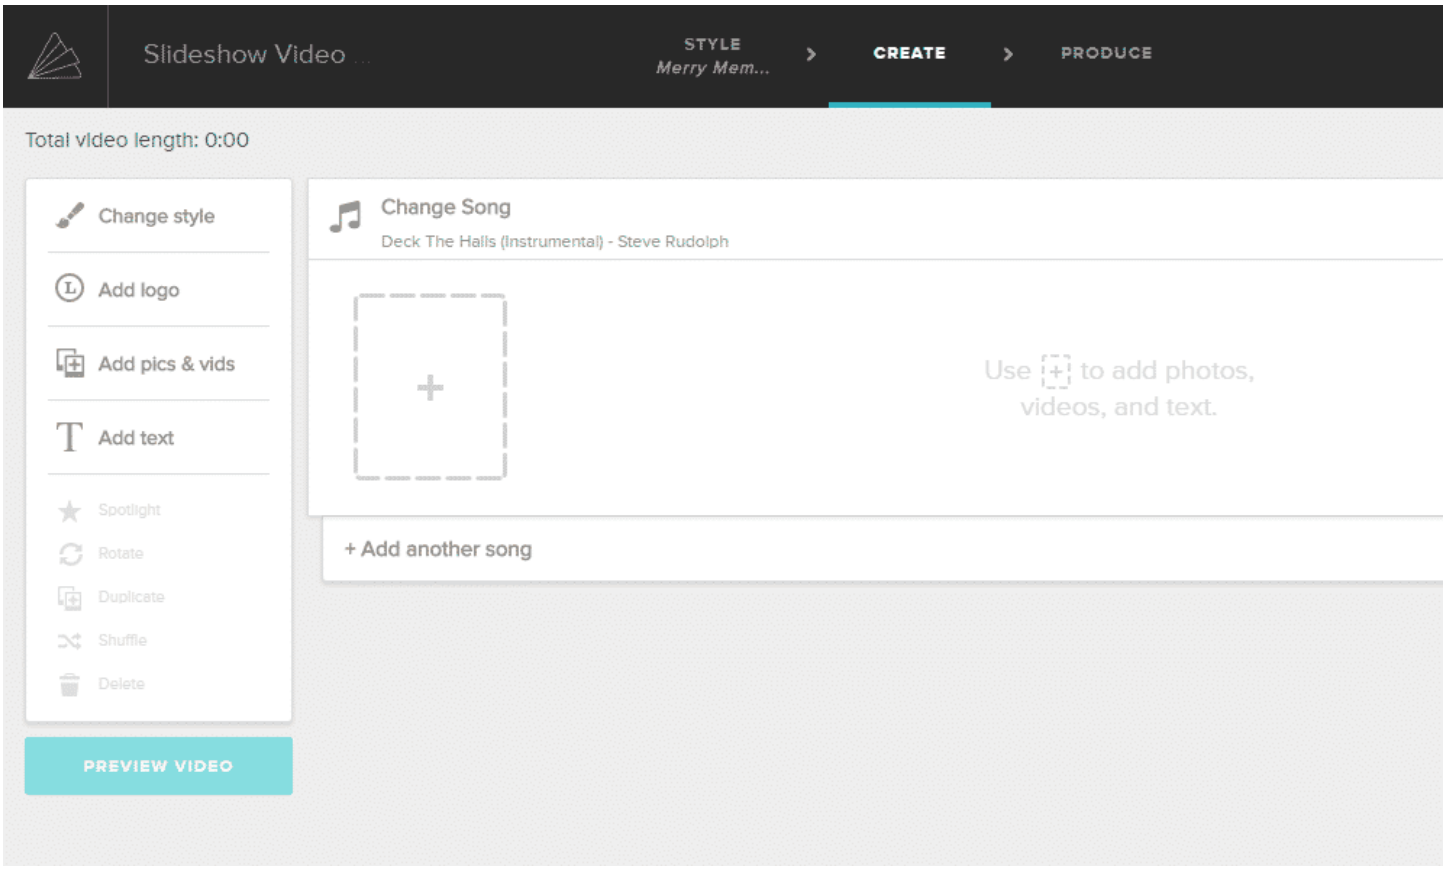

EmbedPress is a very helpful plugin that expands and improves on WordPress' capabilities. Install EmbedPress and your WordPress site will become far more powerful. Click here to find EmbedPress on WordPress.org.

Step #2. Set up your Animoto video

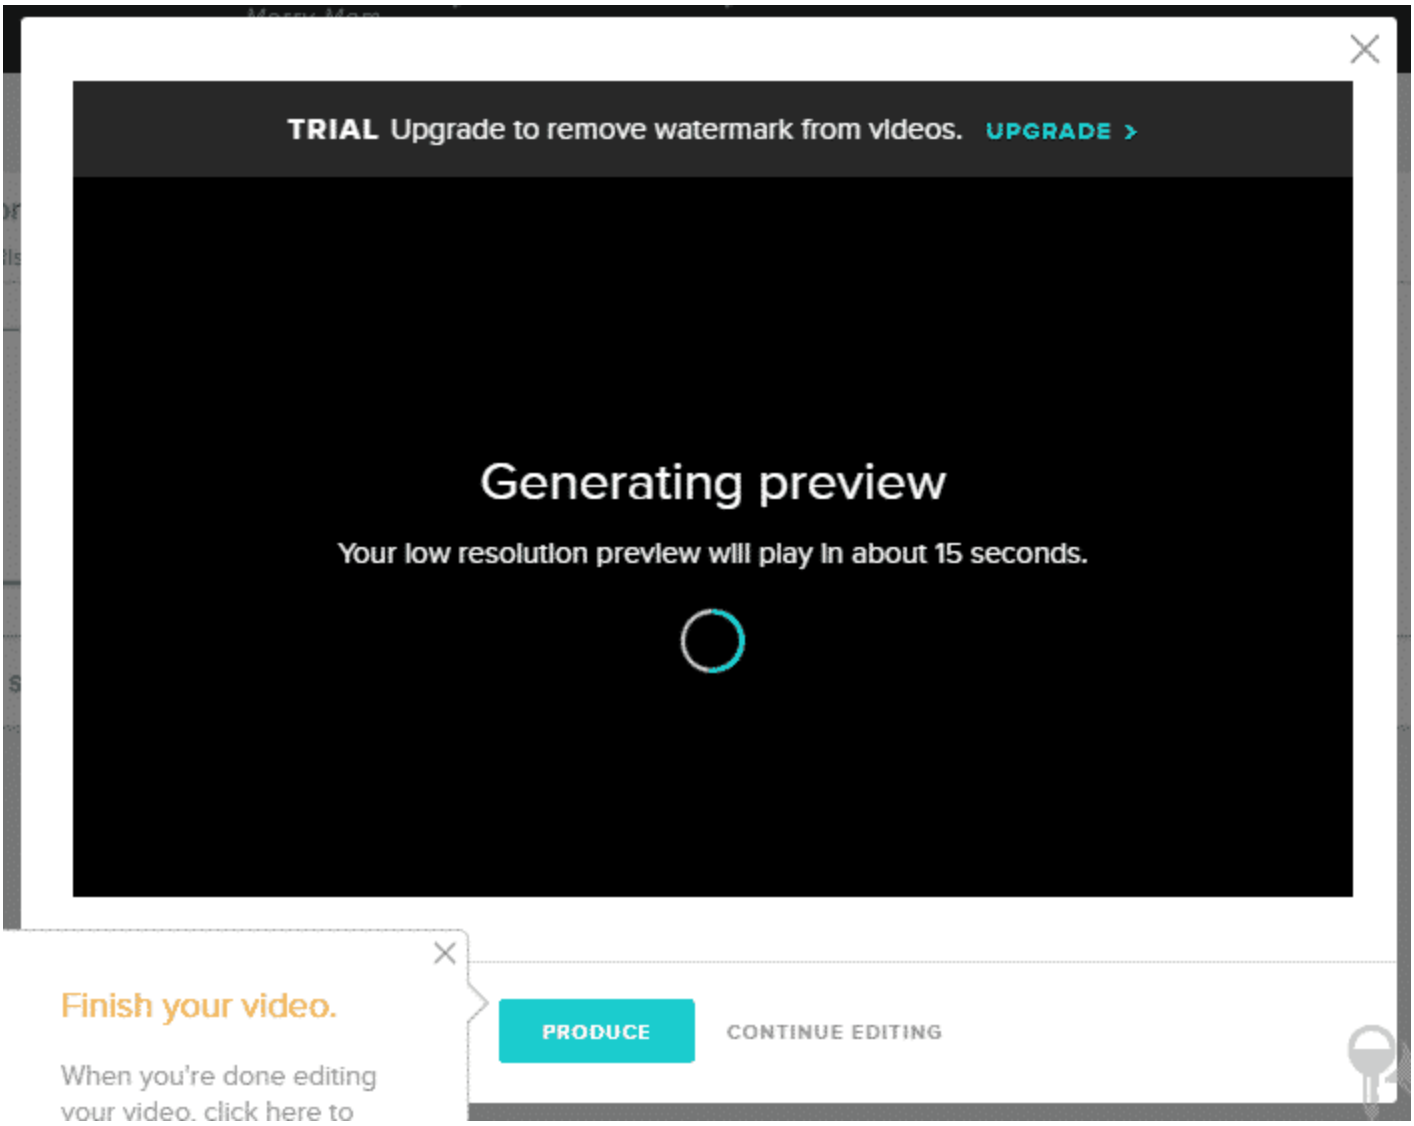

- Register or login at Animoto.com
- Once logged into the site, start creating your first video by choosing an appropriate template:

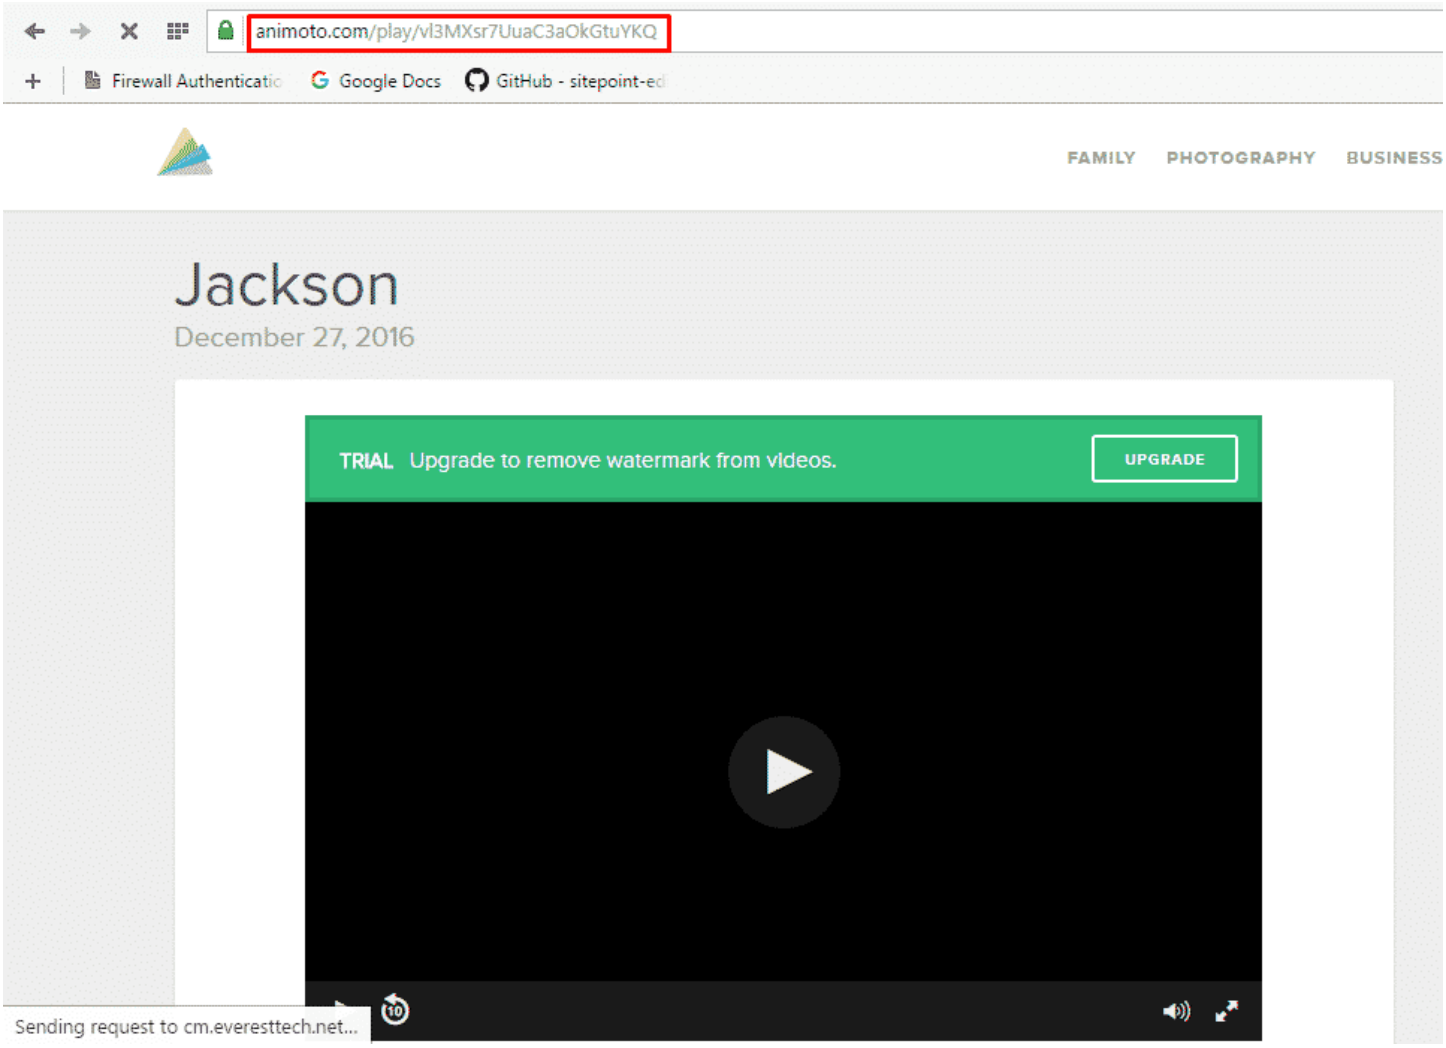

- At the video builder screen, you can add audio files, images, text and other items.

- Once you are done with editing, click the "Produce" button and that will publish your video online.

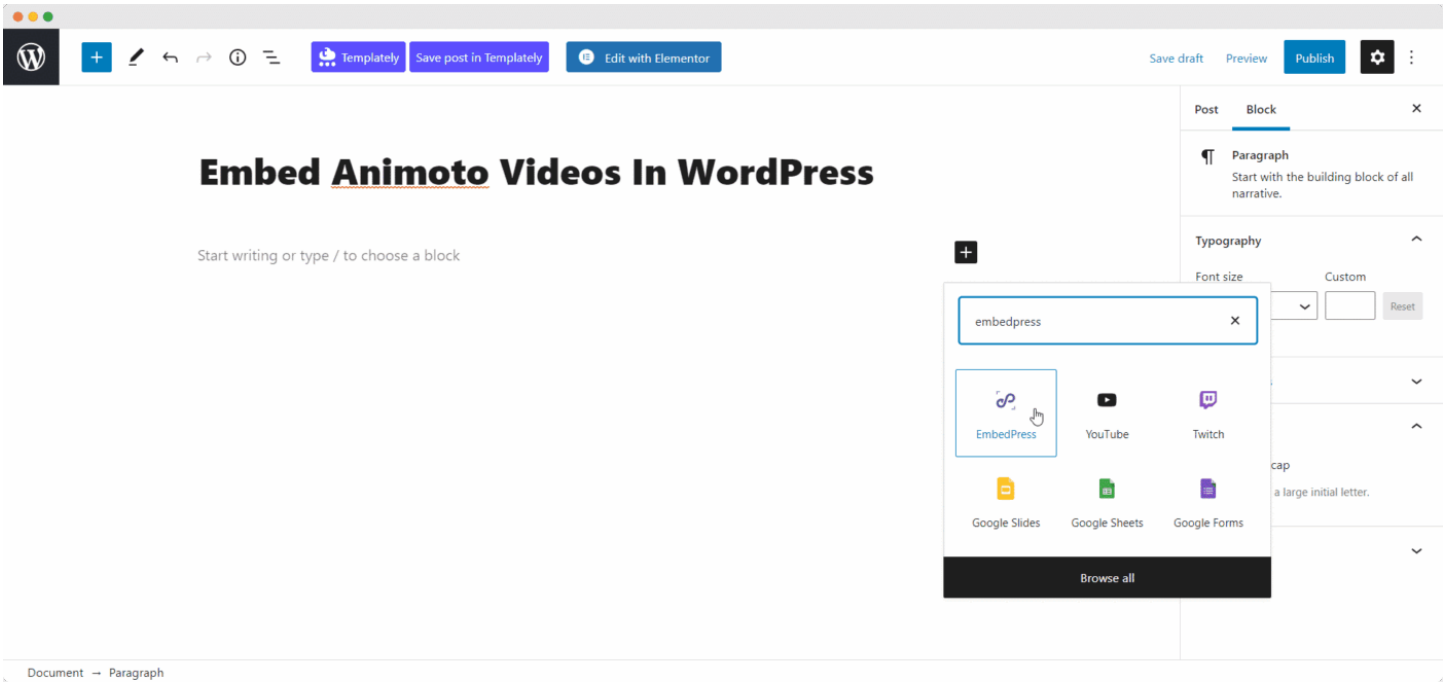

- Go to the video play page and grab the URL as shown below:

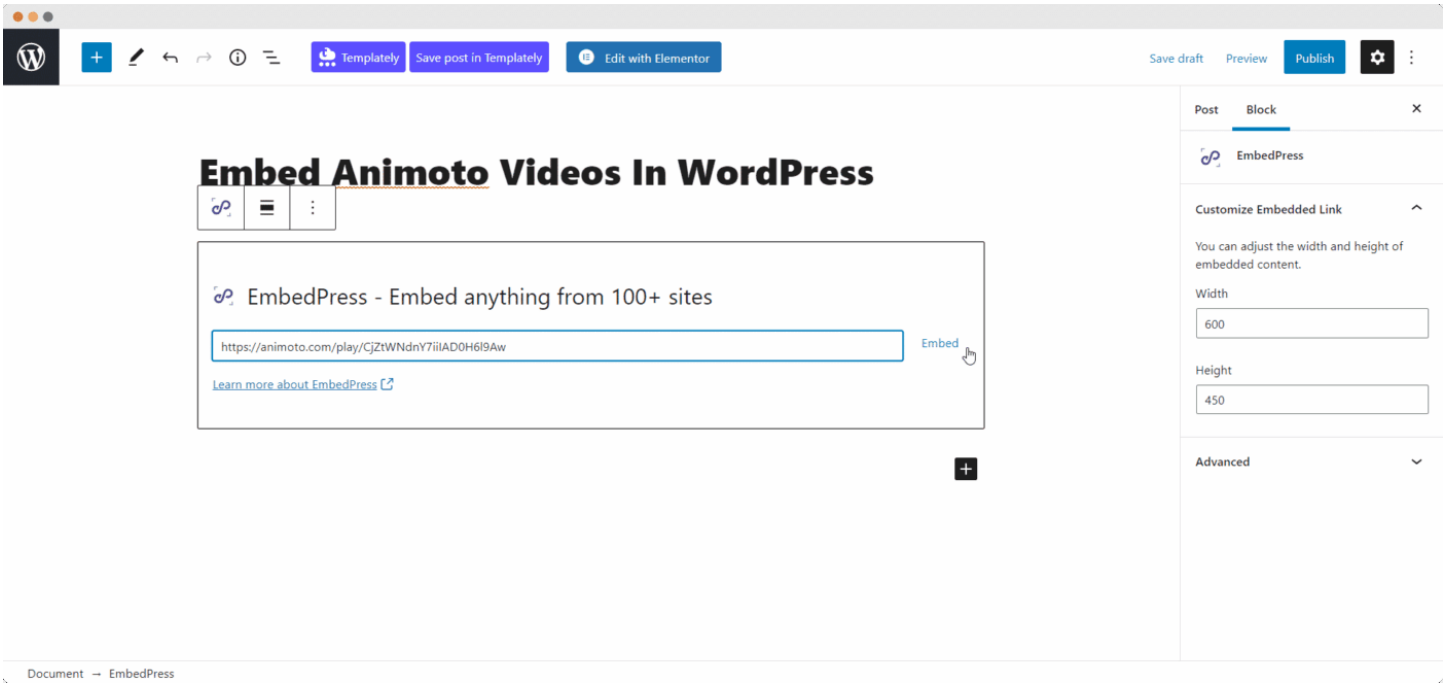

Step #3. Publish your Animoto WordPress embed

Now you have the Animoto URL, you can add it to WordPress.

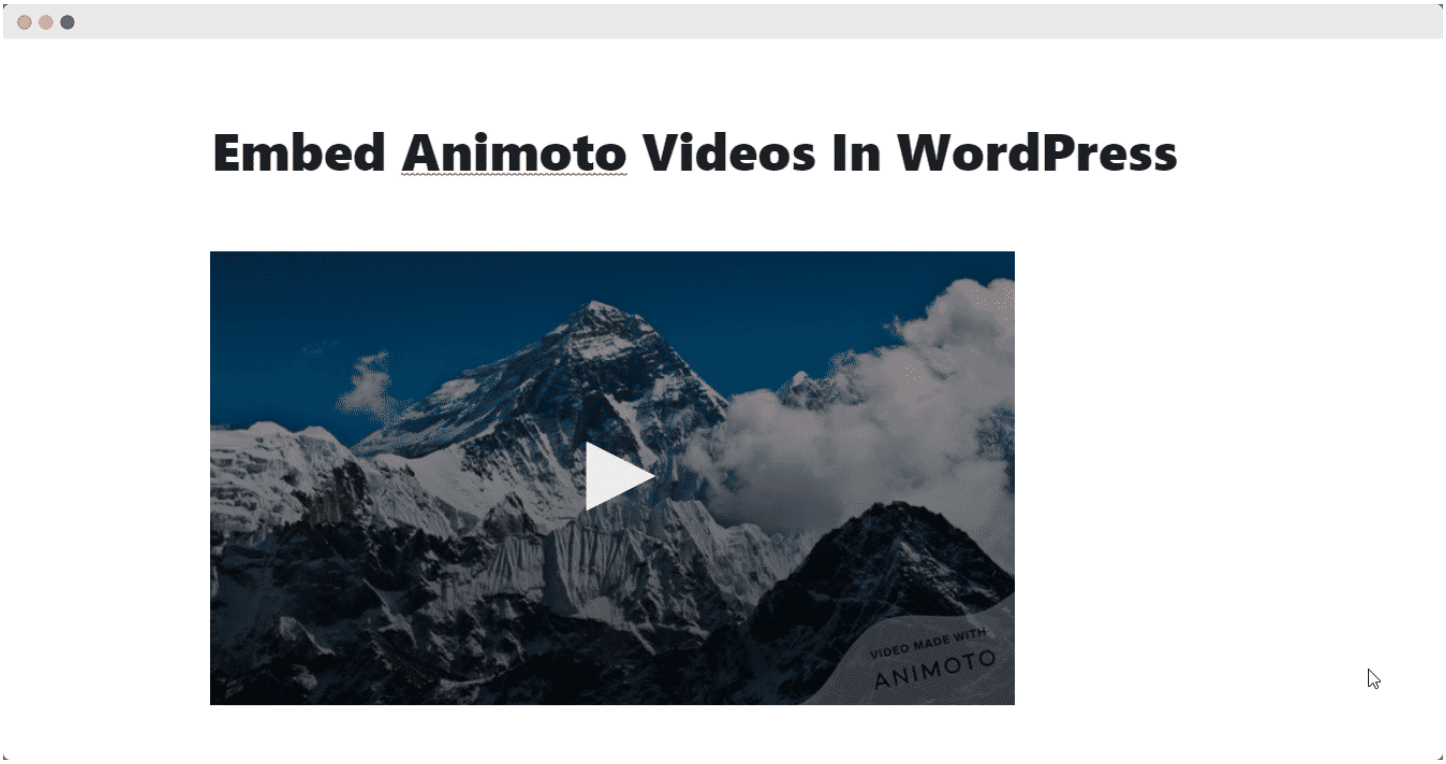

- Go to your WordPress site.
- Edit a post, page or another post type
