Learn how to embed Canva design using Elementor, Gutenberg or other editors with just a few clicks and enhance your WordPress content with beautiful visuals.

How to Create Canva Design Embed Links?

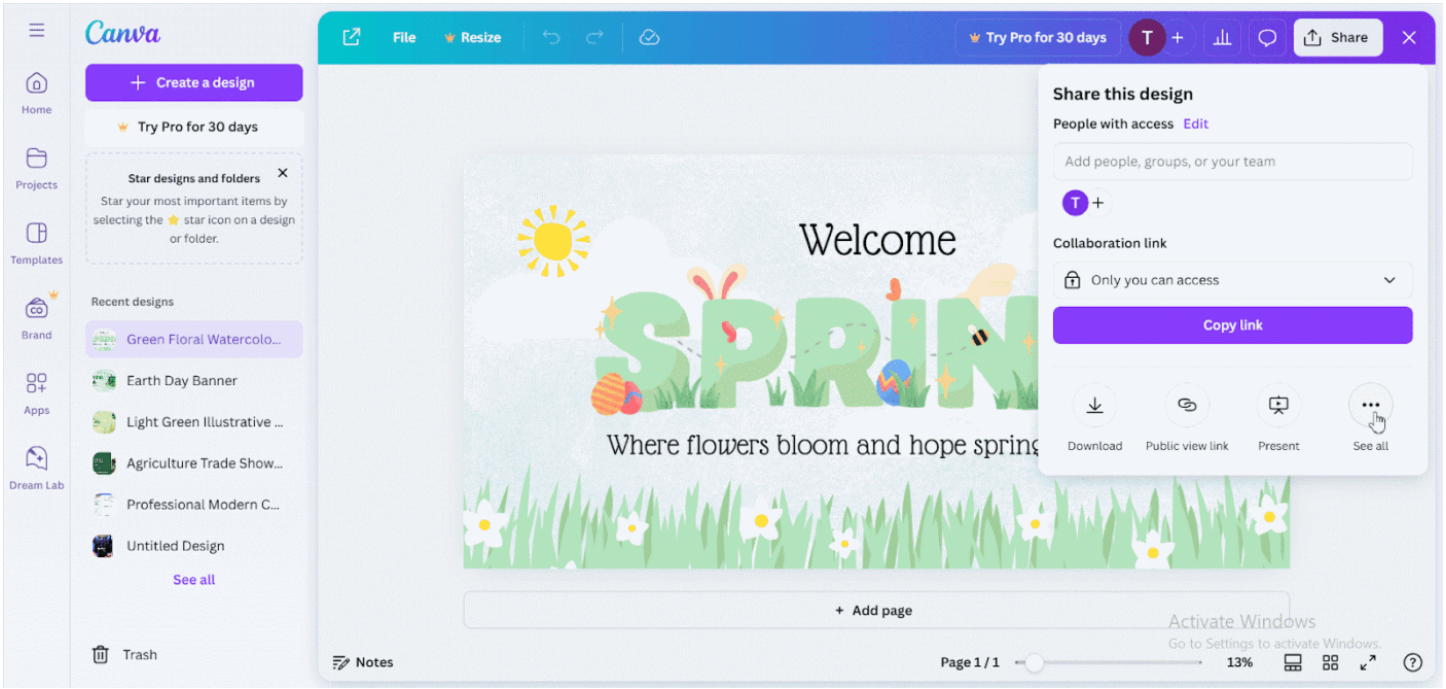

Before you get started to embed Canva in WordPress, you need to login to your account and create an embedded link. Follow the steps below to create a link to your design.

Step 1: Create Your Design in Canva

Start by logging into your Canva account. Once you're in, go to the **‘Design’** that you want to embed. After that, look for the **Share** button located at the top right of the page and click on it.

Then click on the **‘See All’** button and select the ‘**Embed’** option. Canva provides the embed URL when you click the **‘Embed’** option, and this URL can be directly pasted into a block that supports embedding. Copy the code to embed in your website using the Gutenberg editor.

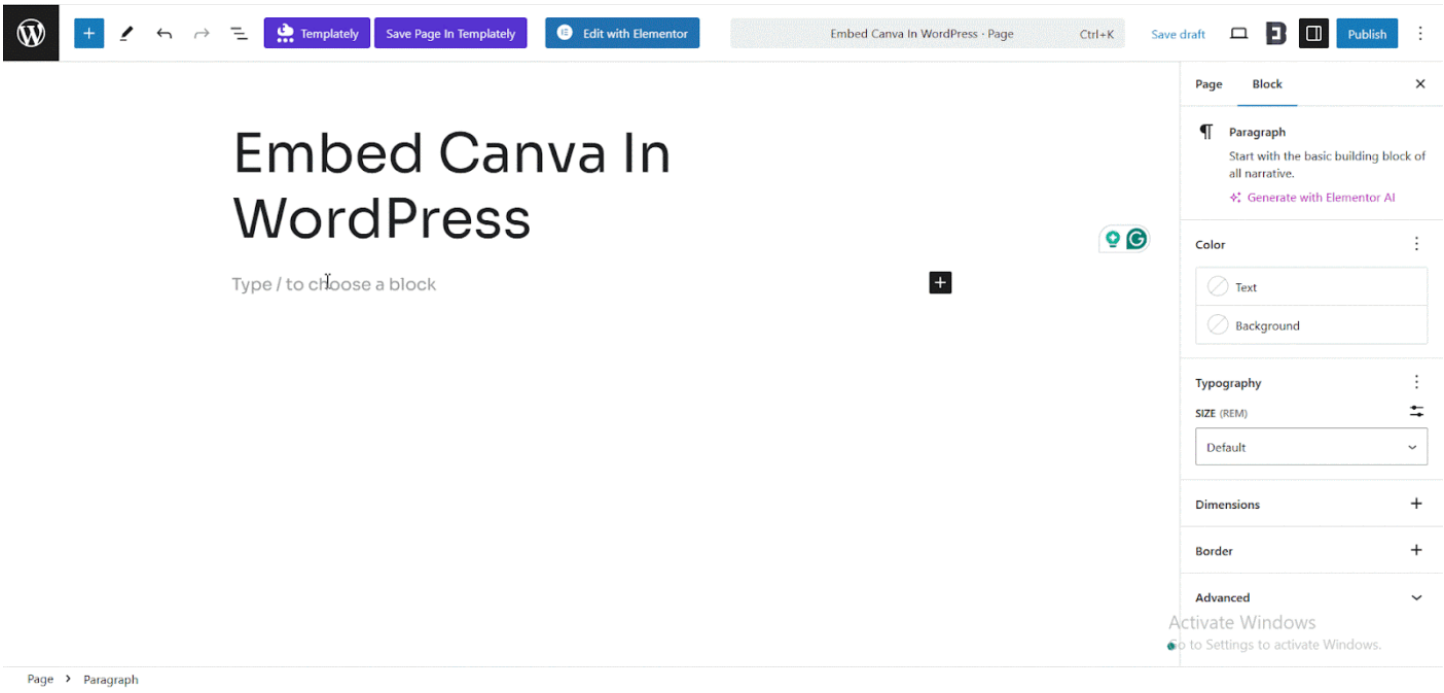

Steps To Embed Canva Designs Using Guteberg

Embedpress allows you to embed Canva design in the Gutenberg editor with just a few clicks. Follow the steps to learn how you can embed Canva using Gutenberg.

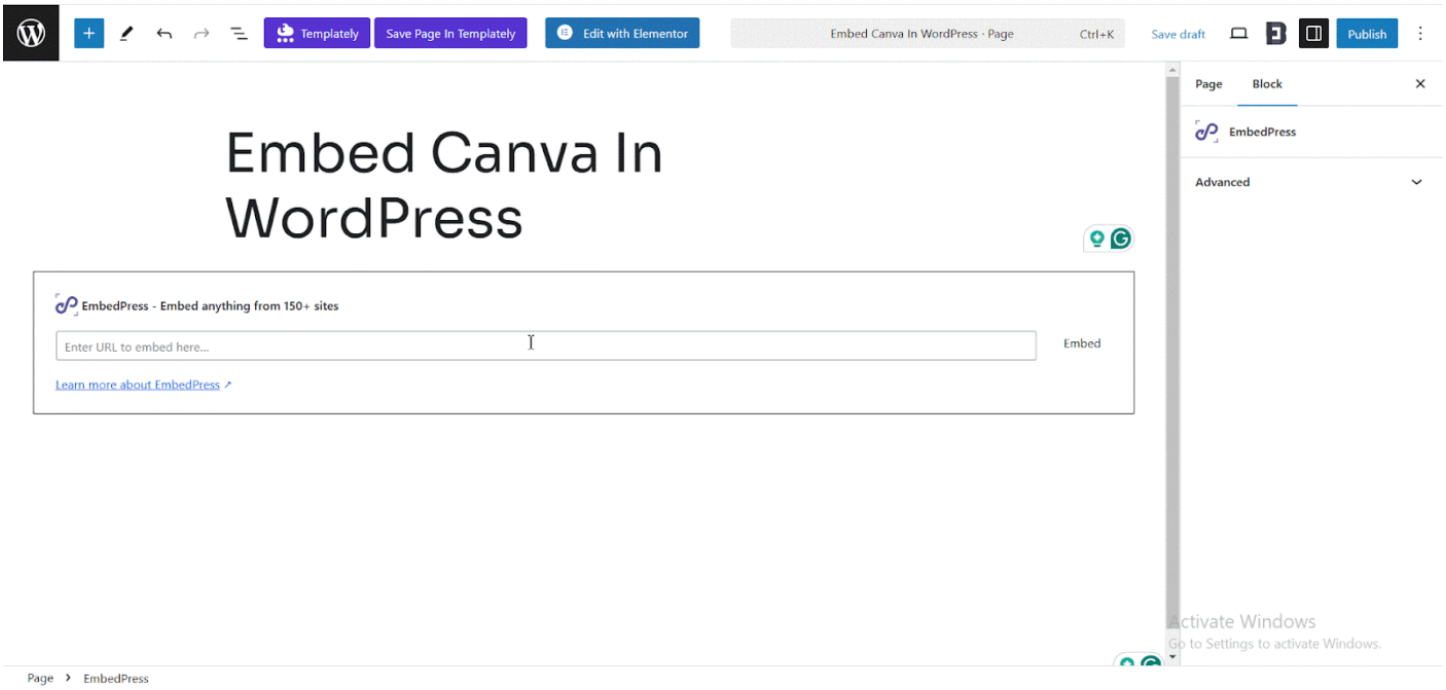

Step 1: Go to Gutenberg Editor & Insert EmbedPress Block

Now, go to the WordPress post or page where you want to embed your Canva design. Drag and drop the EmbedPress Block into the page.

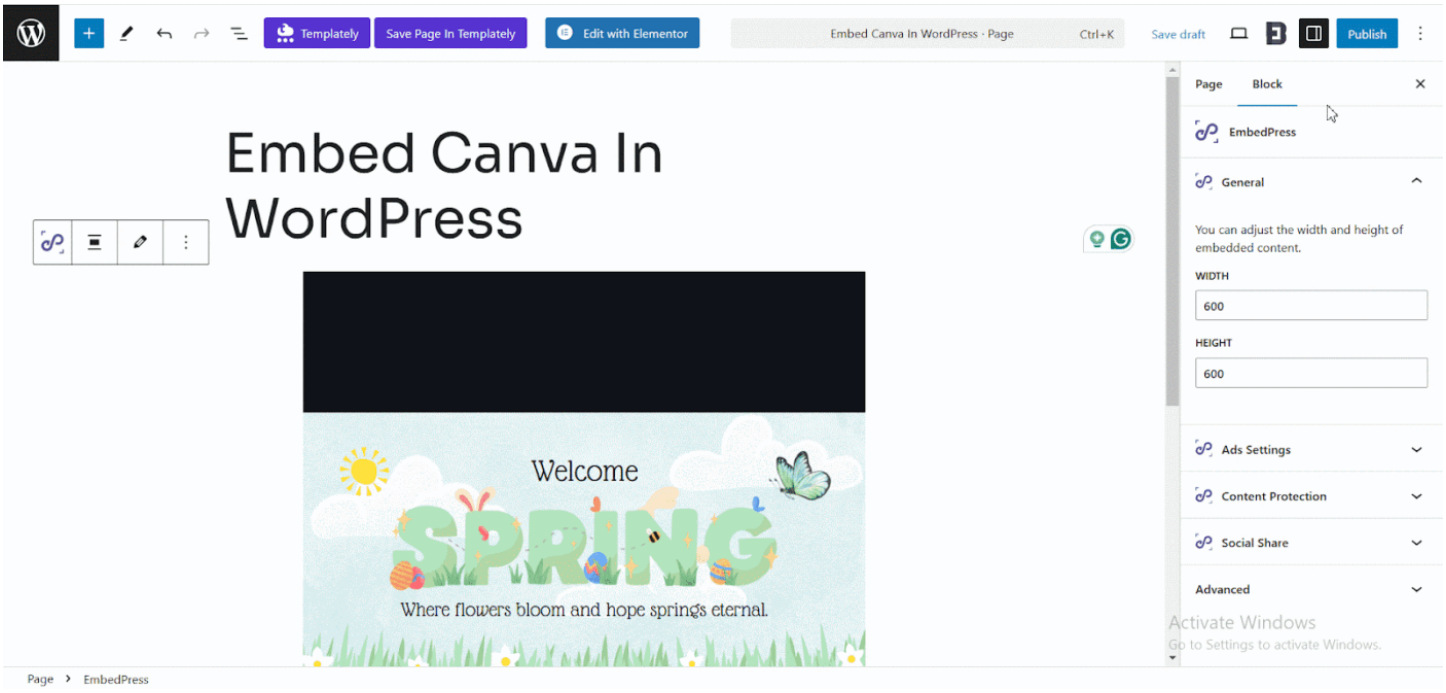

Step 2: Embed Canva Design Link In Gutenberg

Alternatively, you can also paste the **Canva embed URL** directly into the post. Canva provides the embed URL when you click the **‘Embed’** option, and this URL can be directly pasted into a block that supports embedding, such as the **EmbedPress** block or a **Custom HTML** block in the editor. After pasting the embed URL or code, you can save or publish the page.

Final Outcome

Finally, click on the publish button and view the page to see the content that you have embedded on your site.

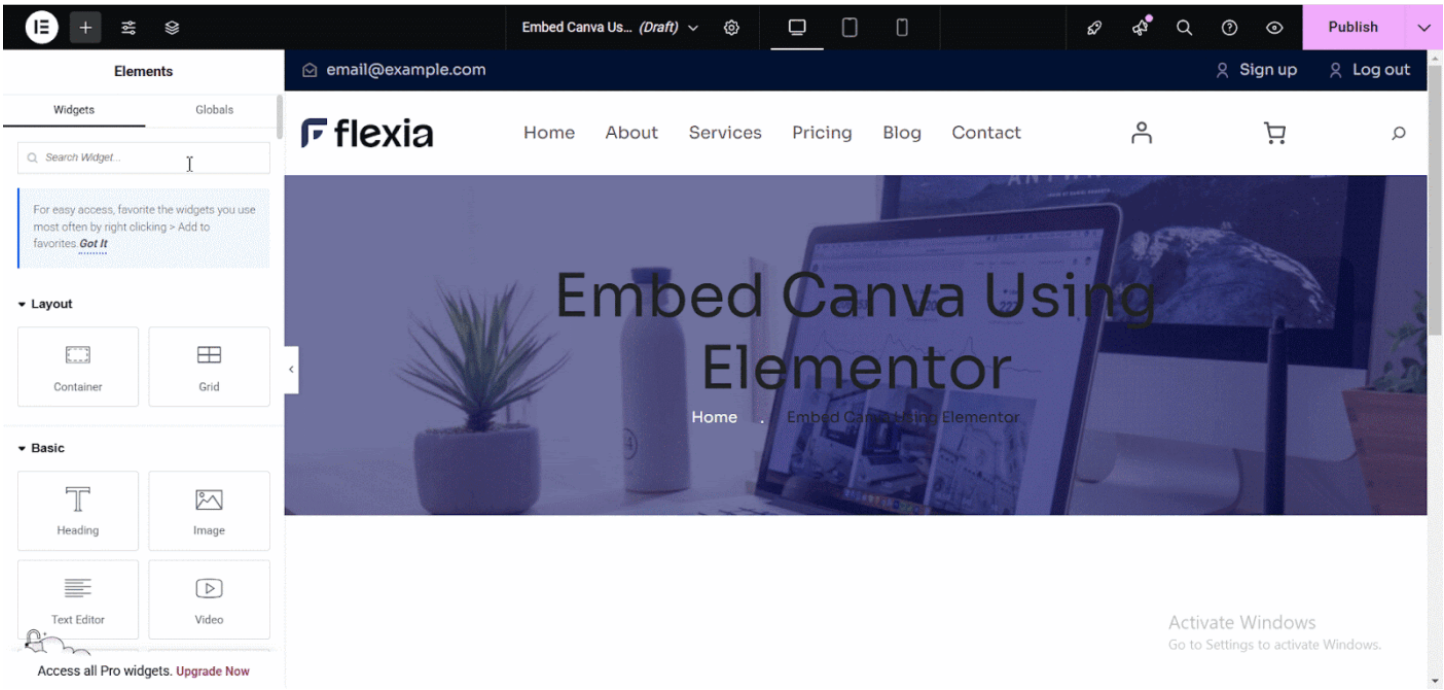

Steps To Embed Canva Using Elementor

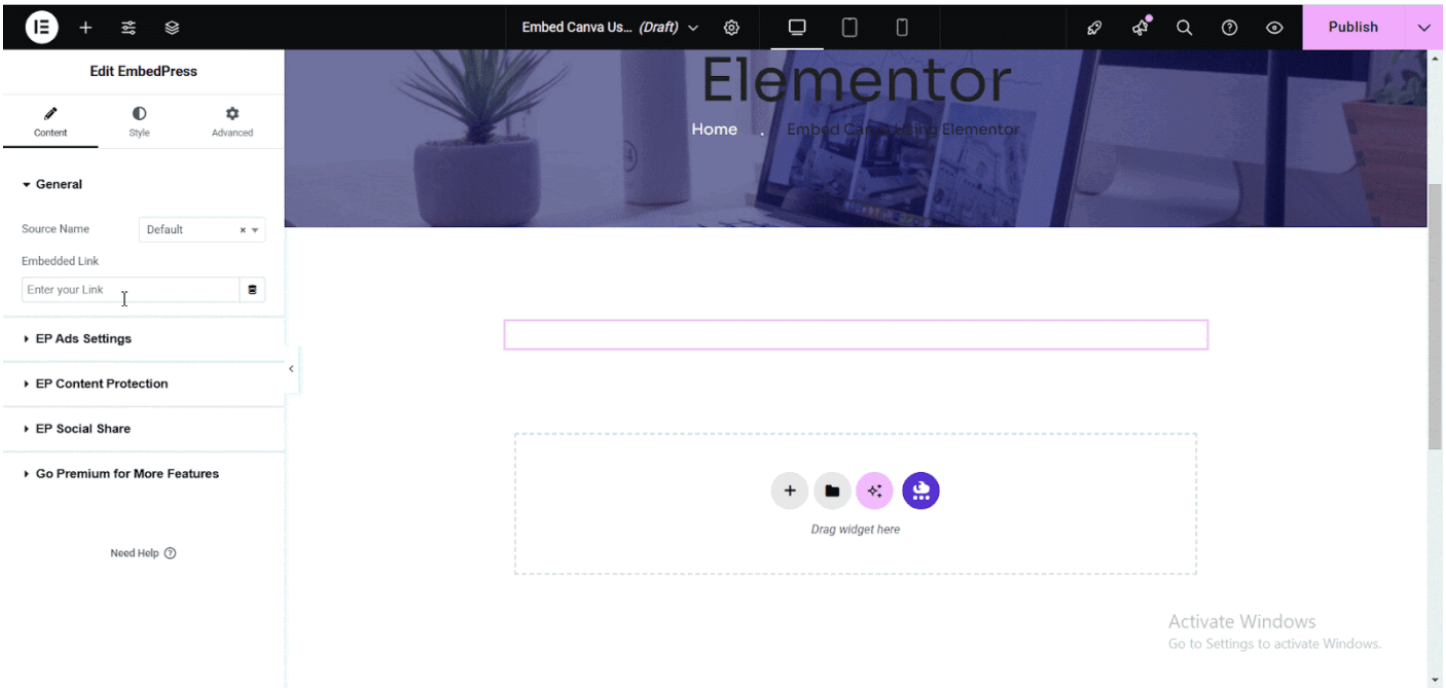

Embedpress allows you to embed Canva designs with **Elementor** web builder with just a few clicks. Follow the steps to learn how you can embed Canva in WordPress using Elementor.

Step 1: Embed Your Canva Design Using Elementor

Now, go to the WordPress post or page using Elementor where you want to embed your Canva design. Drag and drop the EmbedPress widget into the page to easily insert your Canva design.

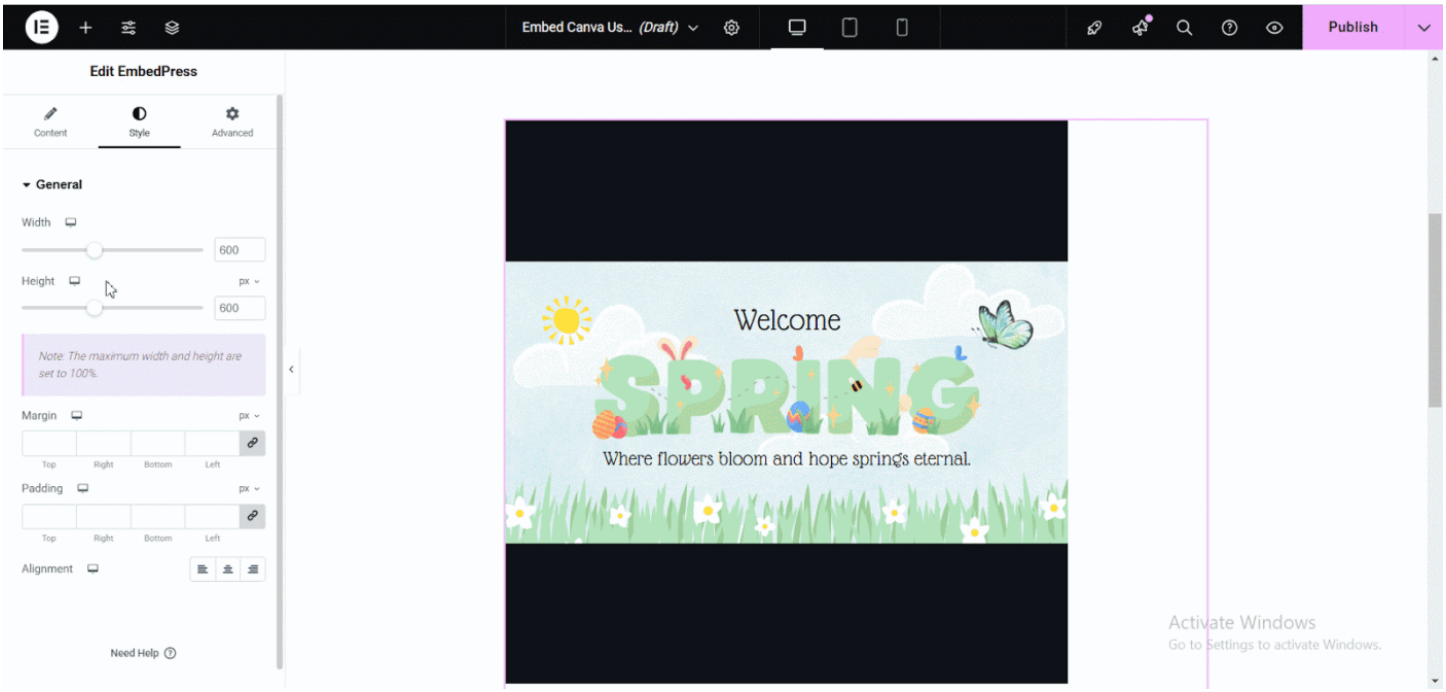

Alternatively, you can also paste the **Canva embed URL** directly into the post. Canva provides the embed URL when you click the **'Embed'** option, and this URL can be directly pasted into the **EmbedPress** widget. After pasting the embed URL or code, you can see the embedding design instantly.

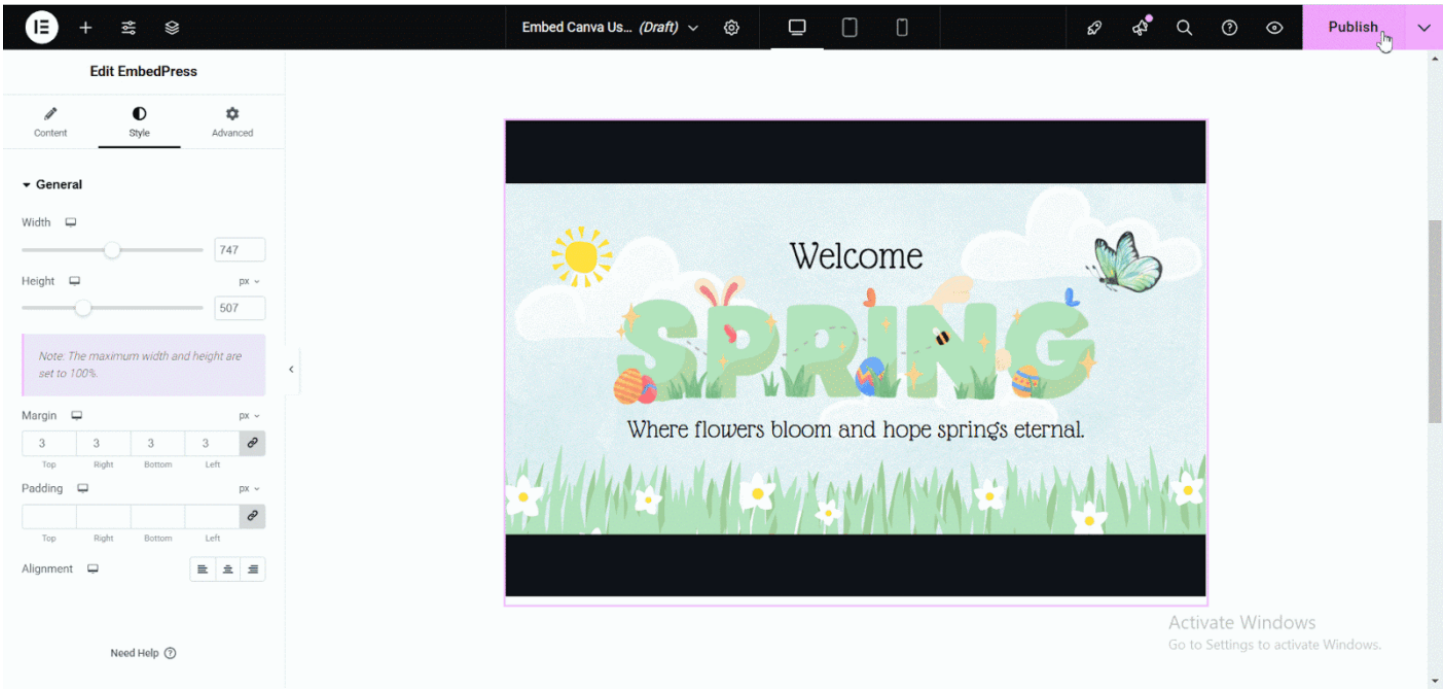

Step 3: Customize the Style Of Your Embedded Canva Design

Next, go to the **‘Style’** tab and customize **‘Height’, ‘Width’, ‘Margin’, ‘Padding’,** and **‘Alignment’** as your preference to present your embedded content more stunningly.

Final Outcome

Finally, click on the publish button and view the page to see the content that you have embedded on your site.

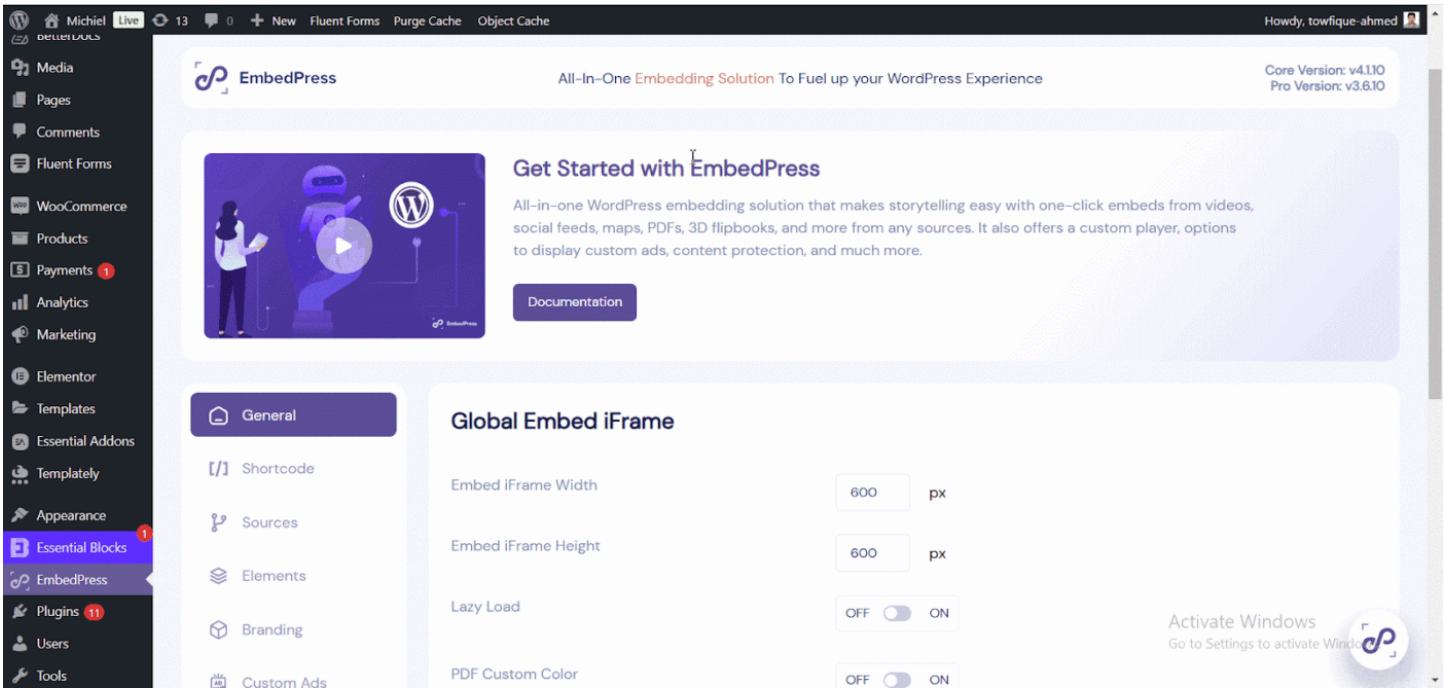

Steps To Embed Canva Designs Using Classic Editor

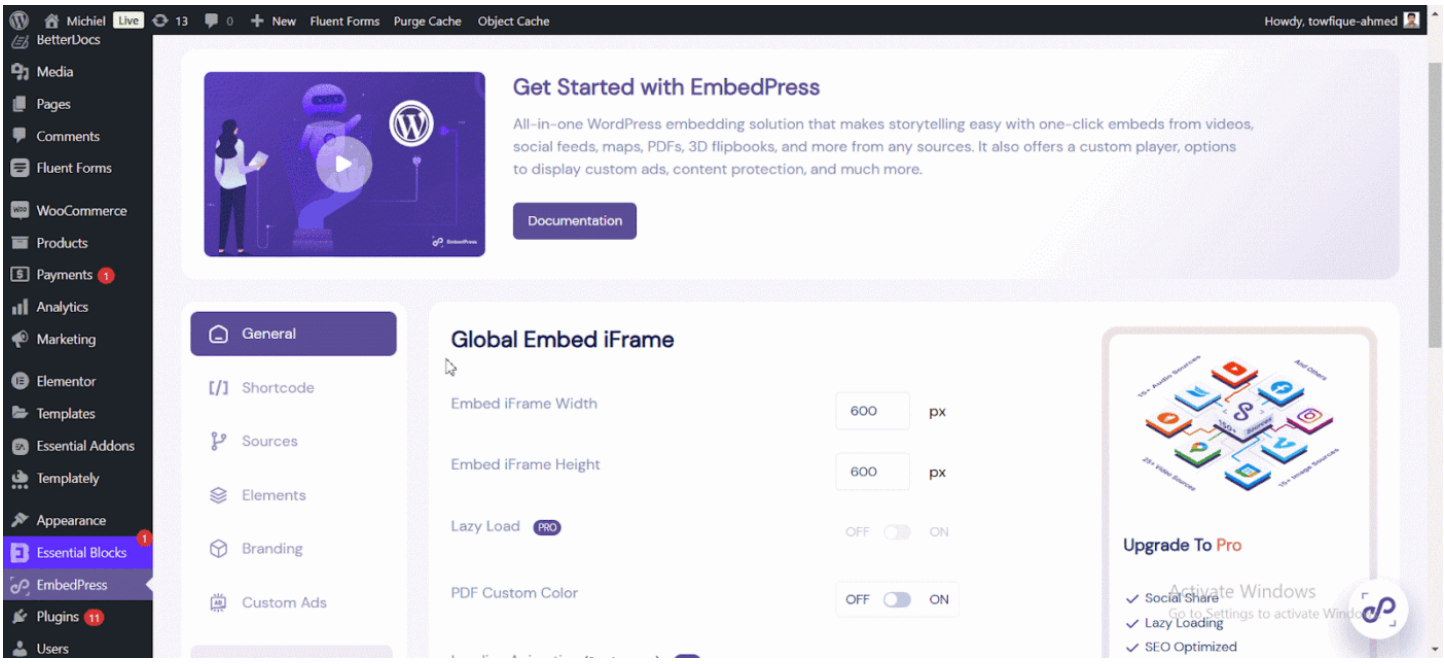

Embedpress allows you to embed Canva designs with your classic editor as well,l with just a few clicks. Follow the steps to learn how you can embed Canva using a classic editor.

Step 2: Generate EmbedPress Shortcode

Go to your EmbedPress plugin dashboard and click on the **‘Shortcode’** option, as shown below. From there, you can access the tools for generating custom shortcodes and embed them in any WordPress editor.

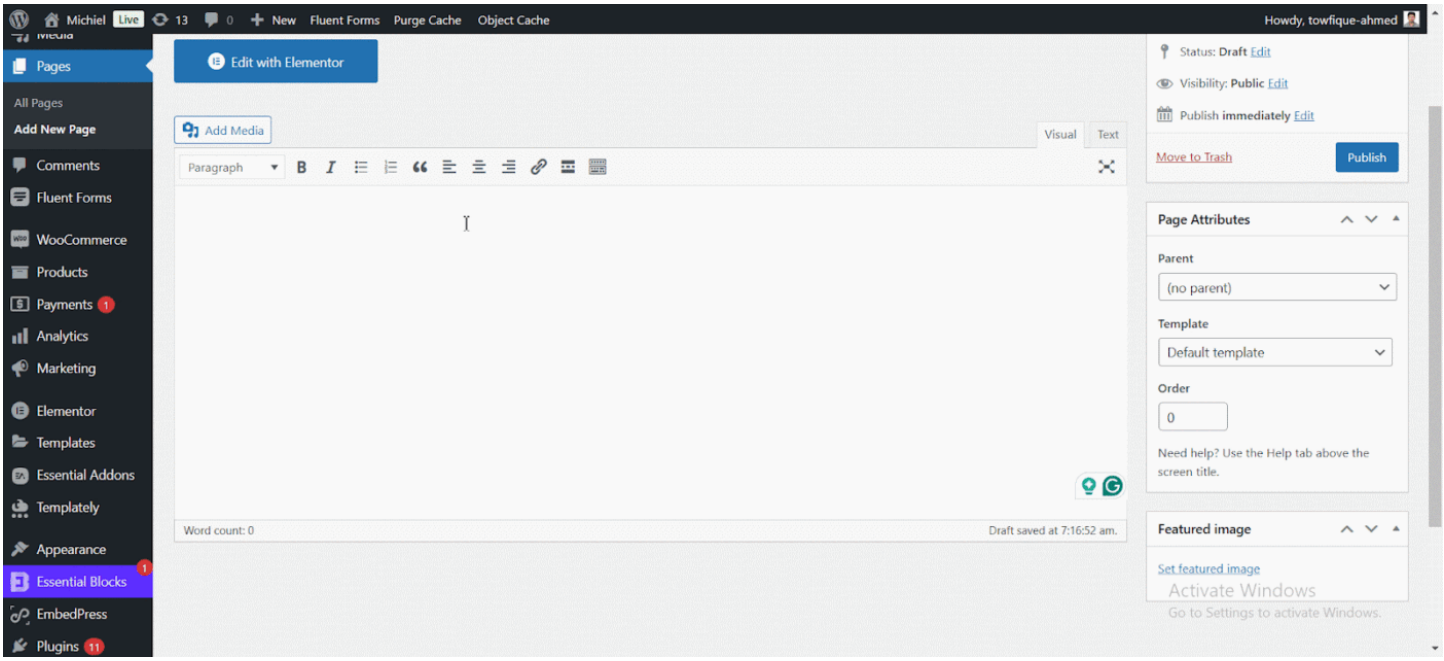

Then paste the collected content URL in the input field and click on the **‘Generate’** button. EmbedPress will automatically generate a shortcode of the source content. Click on **‘Copy Link’** and you will be ready to embed it in any WordPress page builder.

Step 3: Embed With Shortcodes On WordPress Editors

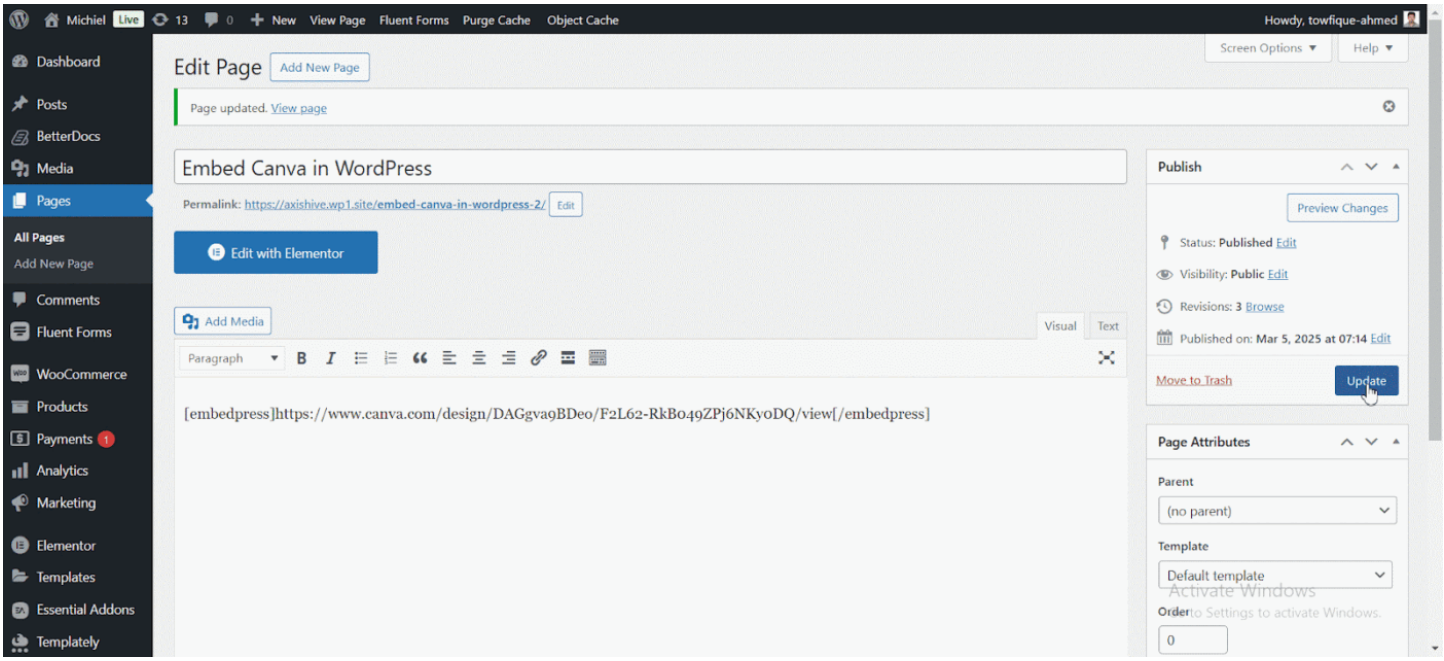

Open up your preferred posts or pages on WordPress Classic Editor. Add your Canva design URL into the content area. And within a few moments, your URL will automatically be transformed into an

embed of your Canva design.

Final Outcome

Finally, click on the publish or update button and view the page to see the content that you have embedded on your site.

And that’s it. This is how easily you can display your Canva design using Elementor and Gutenberg. Whether you choose to use the Gutenberg editor or Elementor, both methods provide a seamless

experience for displaying your designs.
