HOW TO EMBED DOCDROID DOCUMENTATION IN WORDPRESS WITH EMBEDPRESS

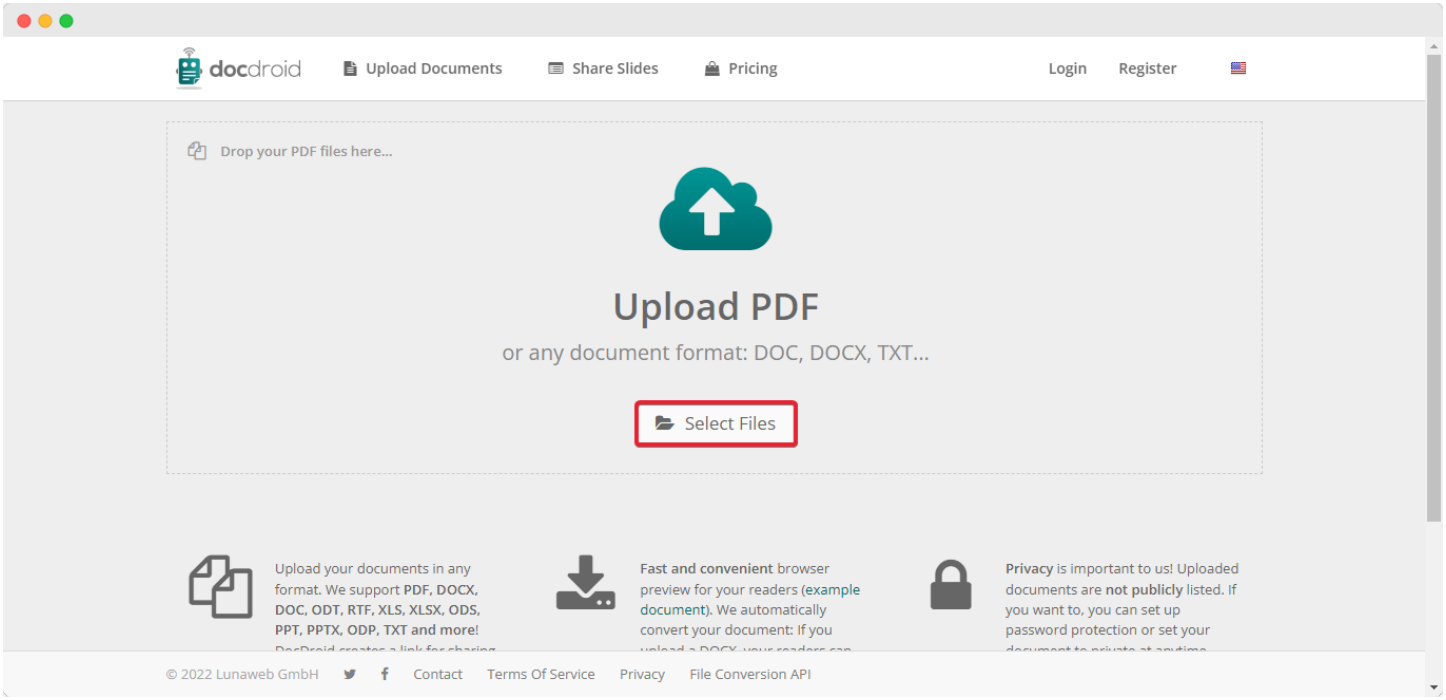

Embed Document · https://embedpress.com/docs/embed-docdroid-documentation-in-wordpress/

DocDroid is a free online document uploading, conversion, and sharing service. It is a free platform for document sharing, similar to Google Docs or Dropbox.

EmbedPress allows you to embed DocDroid document files on your WordPress website instantly, whether built with **Elementor**, **Gutenberg**, or **Classic Editor**. Follow this step-by-step guide below to find out how to embed DocDroid links in WordPress with **EmbedPress**.

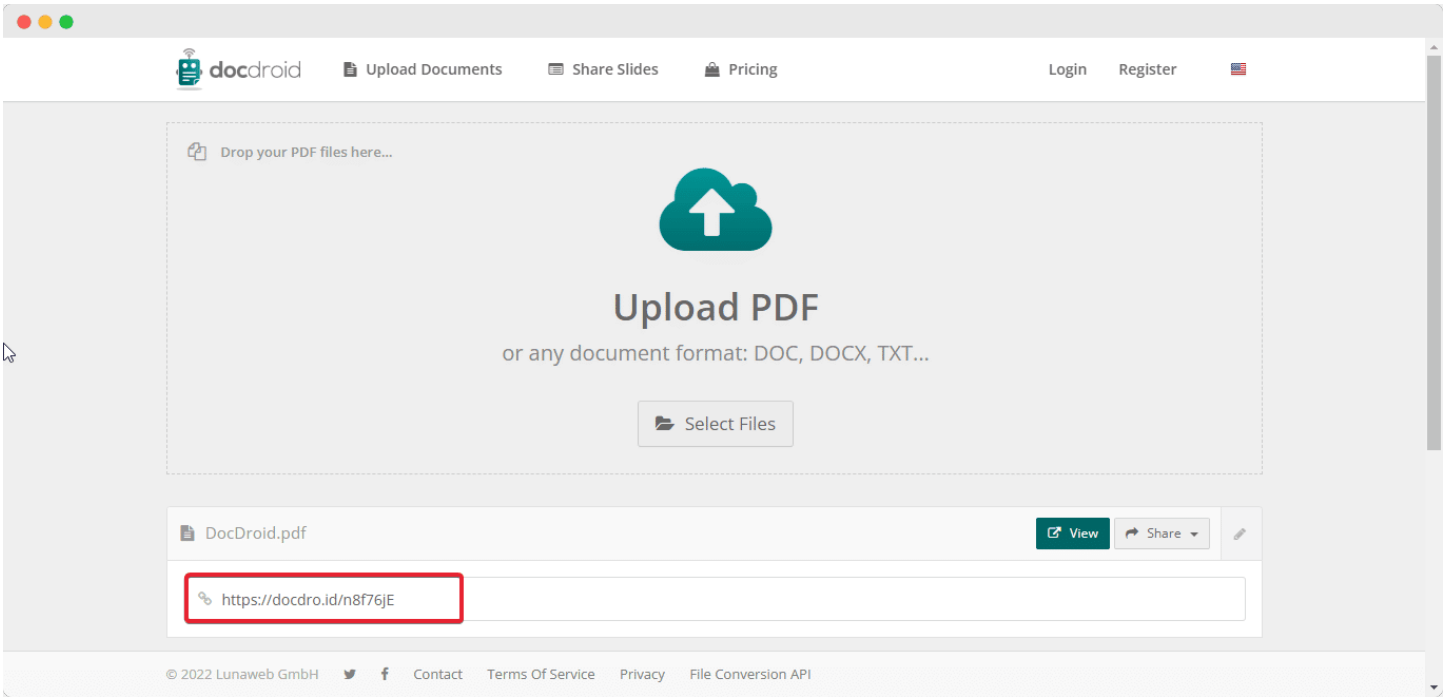

How To Collect DocDroid Document URL?

To embed DocDroid document files on your WordPress site first you have to upload any pdf, text, or word file to the website.

After that, your file will auto-upload and generate a link for the particular document files. You can easily copy the URL from there and use it for embedding on into your WordPress website using

EmbedPress.

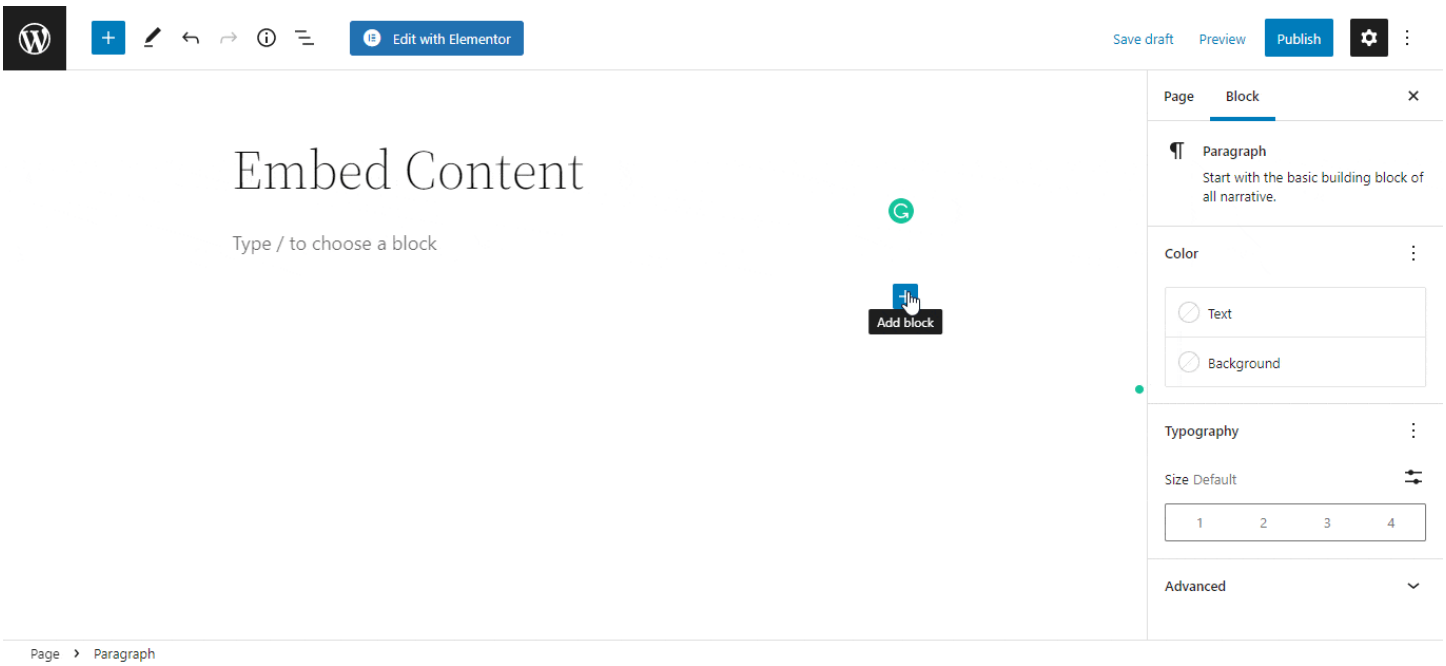

How To Embed DocDroid In Gutenberg?

EmbedPress has its own blocks to embed any type of content using the **Gutenberg block editor**. To embed DocDroid using Gutenberg, follow the steps below.

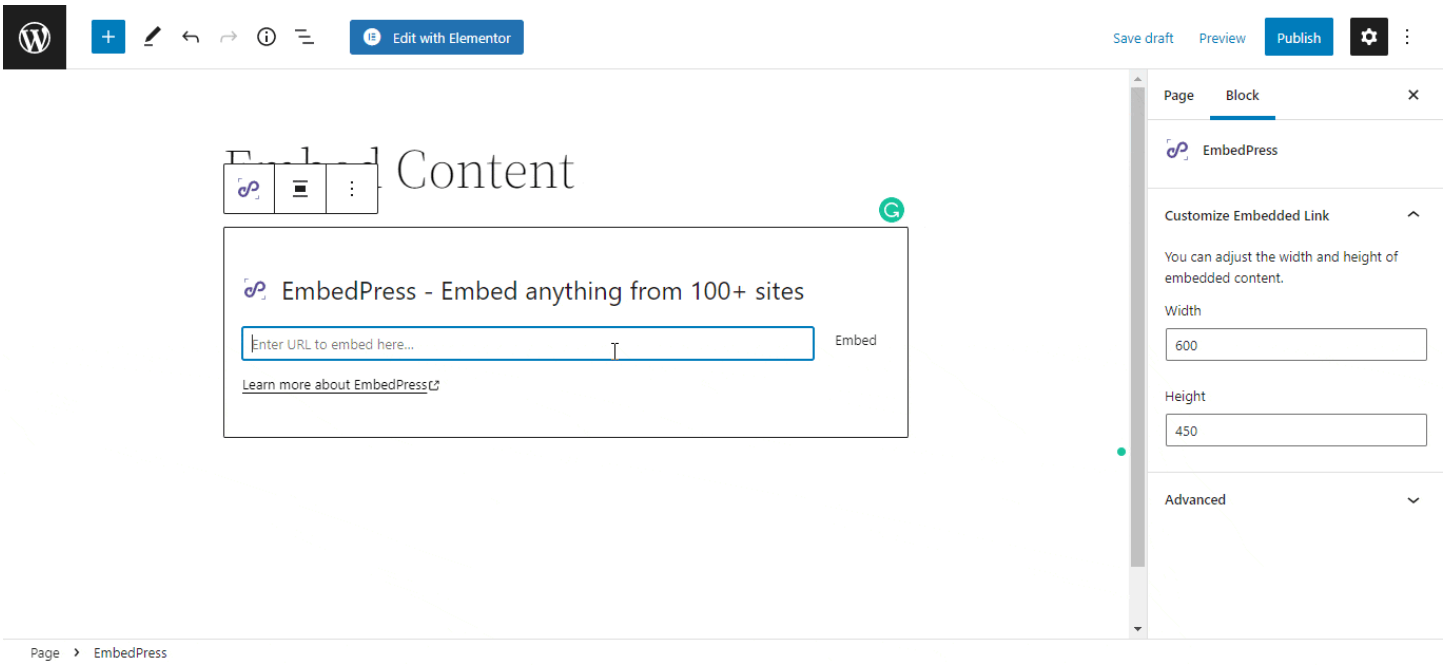

Step 1: Search For The EmbedPress Block

From your website dashboard, open the page where you want to embed DocDroid documents. Click on the '+' icon to add blocks and search for **'EmbedPress'**. Simply click on the block that appears in the search and insert it onto the page.

Step 2: Paste The DocDroid URL In EmbedPress Block

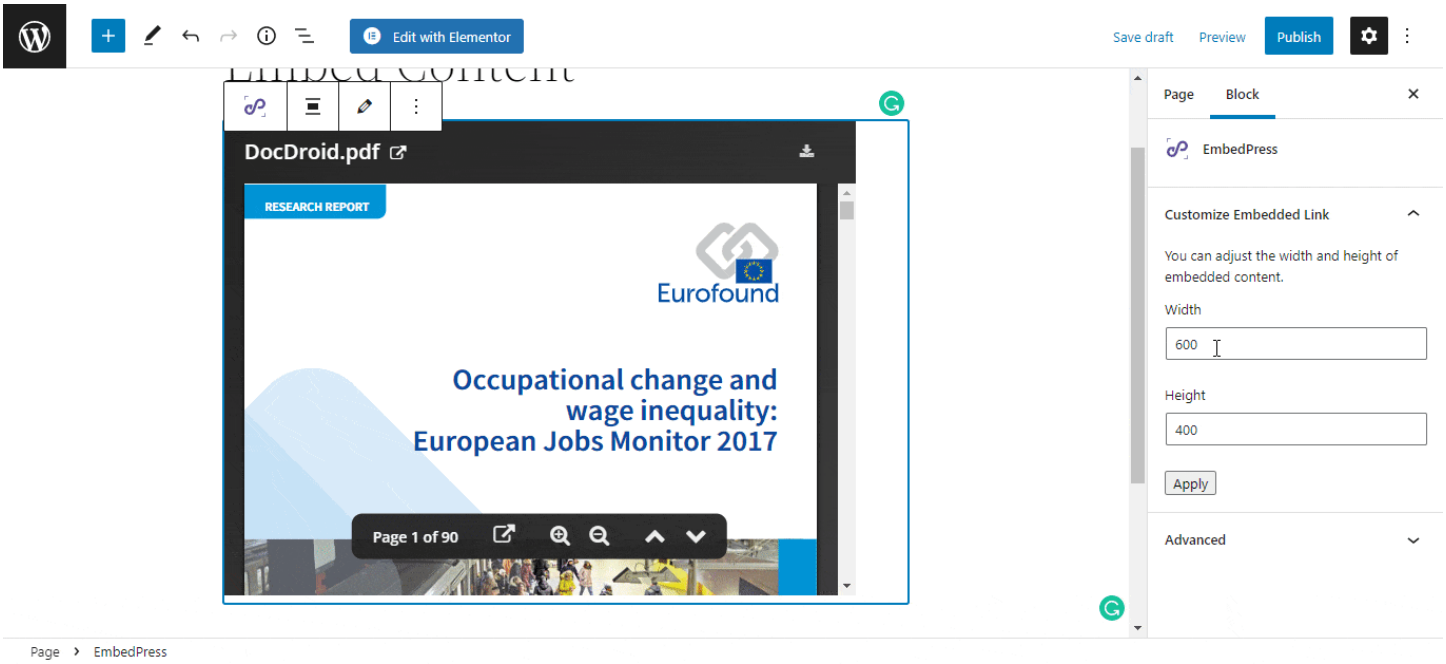

Afterward, paste the collected DocDroid URL into the input field and click on the '**Embed**' button beside the URL field. The Content will be successfully embedded using the Gutenberg block editor.

Step 3: Edit & Publish Your DocDroid Embed

You can add some customization and choose how you want to showcase your embedded PDF or document. You can adjust the width and height of your PDF from the options under the Block tab on

your right-hand side.

To find out how your embedded DocDroid document is looking, click on the '**Preview**' button of your website and have a look.

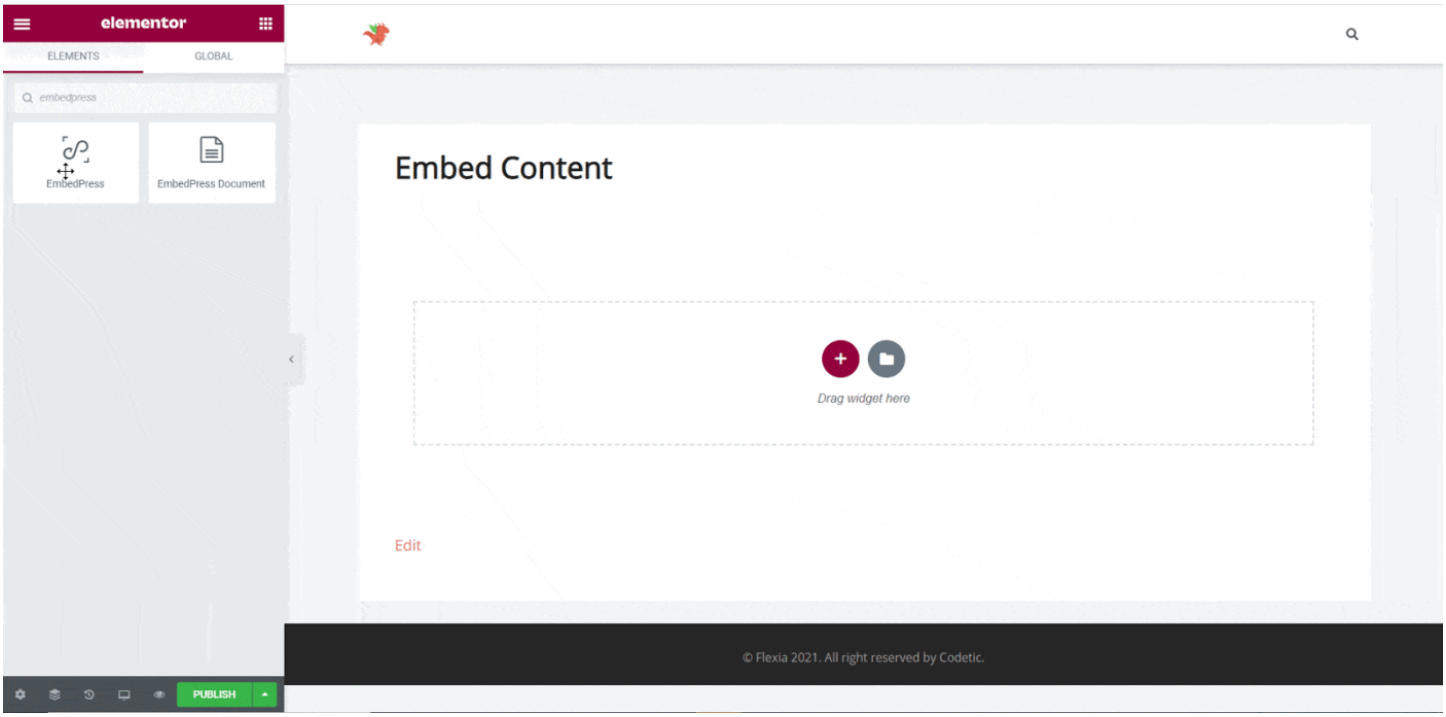

How To Embed DocDroid In Elementor?

After collecting the DocDroid URL, head over to your WordPress dashboard and open the page where you want to embed DocDroid links, then follow the instructions given below.

Note: *To embed DocDroid links in WordPress using* ***Elementor****, make sure you have installed and activated the plugin.*

Step 1: Search The EmbedPress Element

First, select this '**Edit with Elementor**' button on the top of your page. It will take you to the Elementor editing panel. Search for the '**EmbedPress**' element on the widget panel and then drag and drop the element on your page.

Step 2: Paste The Post's URL In 'Content Settings'

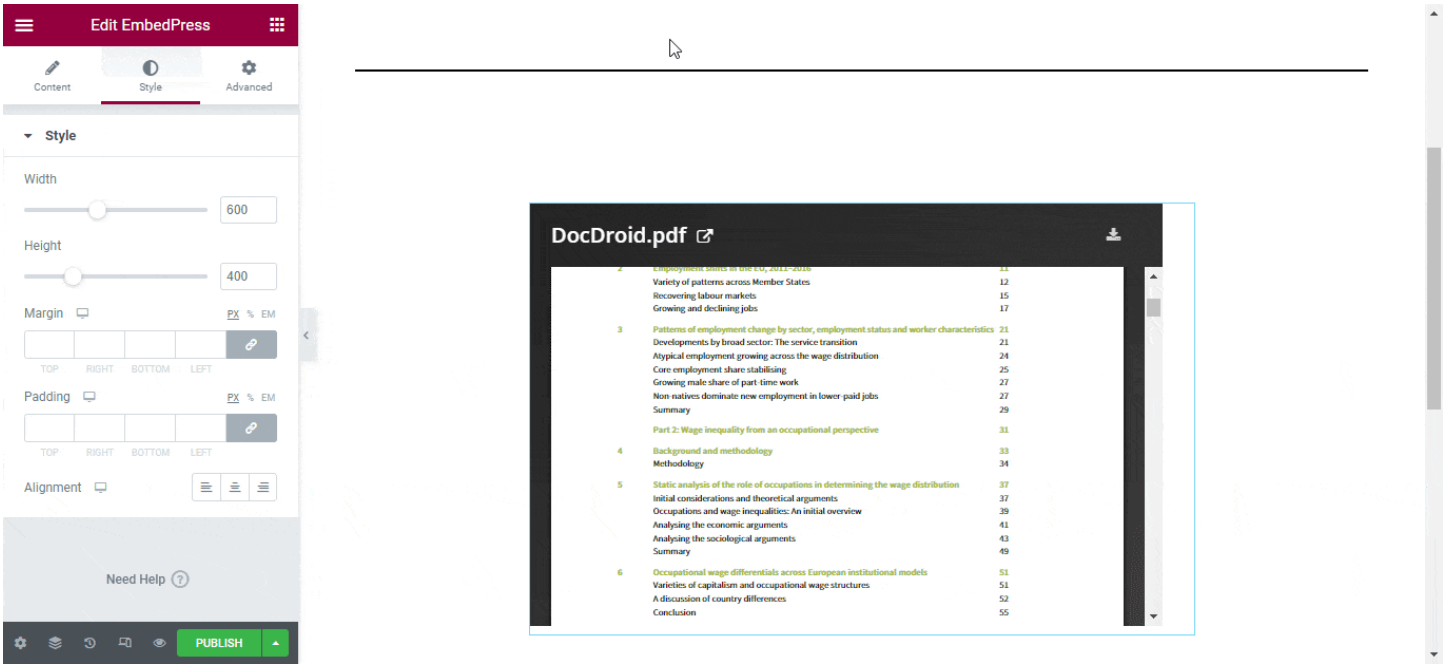

Next, paste the DocDroid post's URL you just collected into the input field of the '**Content Settings**'. It will automatically then fetch and embed your posts into the Elementor editor.

Step 3: Style Your Embedded Content

You can edit EmbedPress to present your content in a more visually appealing way based on the design of your website.

Simply click on the '**Style**' tab. You can change the '**Width**' and '**Height**' of your embedded content. Tweak and turn '**Margin** 'and '**Padding**' to fit it more neatly into your website.

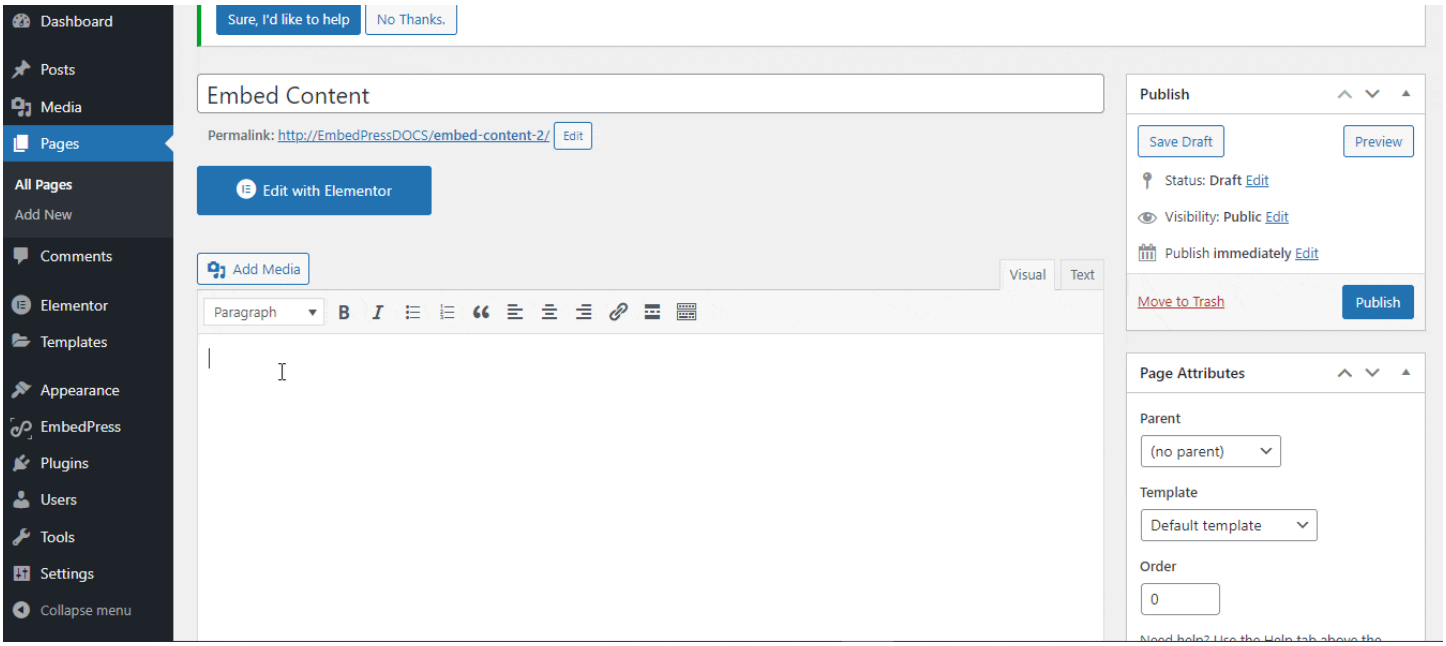

After making all changes hit the '**Publish**' button and your content will be successfully embedded.

How To Embed DocDroid Documents In Classic Editor?

If you are a **Classic Editor** user, you can easily embed DocDroid files with just one click.

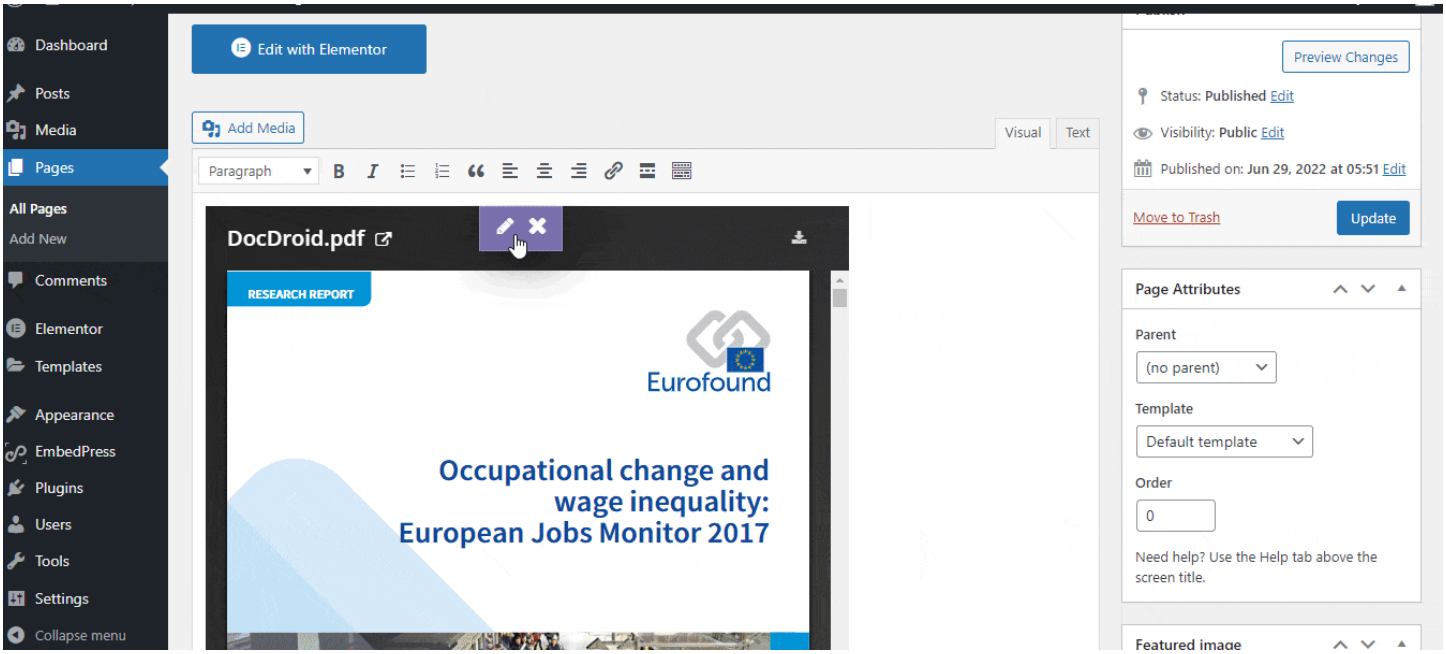

Step 1: Paste The Link On Classic Editor

To do this, open a new page with Classic Editor and **paste the content URL**. You can preview the embedded content instantly on the page.

Step 2: Edit & Publish The DocDroid Embed

Click on the '**Pencil**' icon to change the '**Width**' and '**Height**' of your embedded content. You can also change the URL of your DocDroid documentation.

After making all changes hit the '**Publish**' button and your content will be successfully embedded.

Embed Content In Classic Editor

With these simple steps, you can embed the DocDroid documentation links instantly into your WordPress website with **EmbedPress** using any of Gutenberg Editor, Classic Editor, or Elementor Editor.
