How to Embed Google Drawings in WordPress

Embed Sources · https://embedpress.com/docs/embed-google-drawings-wordpress/

With **EmbedPress**, you can **embed Google Drawings** to WordPress, using just a URL.

Google Drawings is free, diagramming software. Google Drawings allows you to create flowcharts, organizational charts, website wireframes, mind maps, concept maps, and many other types of diagrams.

Google Drawing embeds are possible, but they're not easy to use via normal methods. EmbedPress is different. With EmbedPress, you don't have to mess around with embed codes. All you need is the Google Drawing URL.

How To Embed Google Drawings In Gutenberg

EmbedPress is a very helpful plugin that expands and improves WordPress' capabilities. **Install EmbedPress** and your WordPress site will have far more powerful media options.

Click here to find EmbedPress on WordPress.org.

Step 1: Collect Your Google Drawings URL

Before you can embed your Google Drawings into WordPress, you need to make sure that it is published and visible to the public. Login to Google Drawings and access the drawing you want to publish. Go to **'File'** then navigate to '**Publish to the web'**.

[embed Google Drawings]

Now, click the '**Publish'** button and hit the '**OK**' button. Then Google will give you a URL for Copying.

[embed Google Drawings]

Before you go any further, let’s check that your URL can be embedded on other sites.

Paste the URL into a different browser where you aren’t logged into Google. Can you still see the doc? If you can’t, then the Google Doc hasn’t been correctly published to the web. Read out the full documentation **here**.

Step 2: Embed Google Drawings In Gutenberg

Now that you have the Google Drawings URL, you can add it to WordPress. Go to your WordPress site and edit a post or page. Click the ‘**+’** icon in the editing area. Then search for the **“EmbedPress”** block.

[embed Google Drawings]

Now, enter the URL for your Google Drawing. Press the enter button and you’ll now see your Google Drawings embed:

[embed Google Drawings]

Step 3: Edit Your Google Drawings Embeds

You can easily edit your embedded Google Drawings using EmbedPress. Hover over the embed, and a **‘Pencil’** icon will appear. This icon will show ‘**Edit URL’** if you hover over it. Click the pencil and you will be able to edit your embed:

[embed Google Drawings]

Final Outcome:

Once you are done, hit the **‘Publish’** button, and your Google drawing will be embedded, as in the image below:

How to Embed Google Drawings In Elementor With EmbedPress

You can **use EmbedPress with Elementor** to embed Google Drawings in your WordPress website. Follow these steps to embed any Google Drawings on your website using the Elementor Editor.

Step 1: Select The EmbedPress Widget In Elementor

First, create a new page from your WordPress dashboard by navigating to **Pages→ Add New** and then clicking on the blue **‘Edit With Elementor’** button. Then search for the **‘EmbedPress ’** element from under the ‘**ELEMENTS**’ tab and drag and drop to the section where you want to embed Google Drawings.

[embed Google Drawings]

Step 2: Embed Google Drawings URL In Elementor

Now click on the **‘Content’** tab in Elementor Editor and enter the URL of your Google Drawings embed in the **‘Embedded Link’**. Then your Google Drawings will be automatically embedded in Elementor.

Step 3: Style Your Embed In Elementor

Head over to the **‘Style’** tab and play around with the settings there to edit your Google Drawings embed in Elementor using EmbedPress.

[embed Google Drawings]

Final Outcome:

When you are done, click on the **‘Publish’** button to save your changes. Your Google Drawings will be automatically embedded on your website once you publish the page.
