How to Embed Google Forms in WordPress

Embed Sources · https://embedpress.com/docs/embed-google-forms-wordpress/

With **EmbedPress**, you can **embed Google Forms** into WordPress, using just a URL.

Google Forms is an enormously popular service that many companies use to collect customer data. Using Google Forms makes it very easy to create contact forms, registration forms, surveys, and more.

Google Form embeds are possible, but they're not easy to use via normal methods. EmbedPress is different. With EmbedPress, you don't have to mess around with the embed code. All you need is the Google Forms URL.

Here's how to embed any Google Forms into your WordPress site, using **the EmbedPress plugin**.
