How to Embed PowerPoint Presentations in WordPress?

OneDrive Embeds · https://embedpress.com/docs/embed-powerpoint-presentations-in-wordpress/

Using **EmbedPress**, you can easily embed PowerPoint Presentations in WordPress by simply pasting a shareable link from OneDrive.

Microsoft PowerPoint is a leading software for creating dynamic presentations, perfect for sharing ideas, visuals, and information compellingly. Embedding PowerPoint slides on your website enhances interactivity, allowing viewers to engage with your content in a more dynamic and visually appealing format.

EmbedPress simplifies the embedding process, no technical hassle, no iframe embed code, just paste the link and it’s embedded.

This guide explains how to embed Microsoft PowerPoint presentations on your WordPress site using the **EmbedPress plugin**.

How to Collect OneDrive PowerPoint Presentation URL?

Before embedding, you need to retrieve the shareable URL. Log in to **OneDrive** and open the PowerPoint Presentation you want to embed. Now, from the sheet page, click **File → Share**, then choose the ‘**Embed this Presentation’** option.

[Embed PowerPoint Presentations in WordPress]

Select **Generate** to create the embed code. Expand the **Interaction options** if you want to control viewer permissions, like printing or navigation. Once done, copy the source URL from the **generated HTML code** in the preview box.

How to Embed PowerPoint Presentations in WordPress?

Now that you've generated your PowerPoint’s shareable URL from OneDrive, you’re ready to add it to WordPress. Go to your WordPress dashboard and open or create a post or page using **Gutenberg**, **Classic Editor**, or **Elementor**.

Paste the embed code or shared link directly into your editor. It will automatically render the PowerPoint Presentation. Below are the full instructions for each editor.

Embed PowerPoint Presentations in Gutenberg Editor

With a few simple steps, you can embed your Word documents in the Gutenberg editor in WordPress.

Step 1: Add the EmbedPress Block in Gutenberg

Open the Gutenberg editor on the page or post where you want the PowerPoint Presentation. Click the **“+”** button, search for the **EmbedPress** block, and insert it.

[Embed PowerPoint Presentations in WordPress]

Step 2: Paste the Copied URL

Paste the URL you copied from PowerPoint into the block's input field. You can see the presentation is showing instantly on the Gutenberg Editor.

[Embed PowerPoint Presentations in WordPress]

Step 3: Customize PowerPoint Presentation Appearance

From the right-side editing panel, you can then use block settings to adjust dimensions. You can also explore advanced EmbedPress features, such as Content Protection and Social Share.

[Embed PowerPoint Presentations in WordPress]

Final Outcome

After making all the changes, publish the page. In the frontend, you can see the PowerPoint presentation is displaying beautifully.

[Embed PowerPoint Presentations in WordPress]

This is how you can embed presentations from OneDrive in the Gutenberg editor without the embedding codes.

Embed PowerPoint Presentations in Elementor

Similar to embedding in Gutenberg, you can embed your PowerPoint Presentations in the Elementor website builder with a few simple steps.

Step 1: Add the EmbedPress Widget in Elementor

Launch the Elementor editor for the post or page. Search for the **EmbedPress** widget and drag it to your specific area.

[Embed PowerPoint Presentations in WordPress]

Step 2: Paste the Copied URL

In the **Content** tab, paste your PowerPoint Presentation’s embed code or link you copied earlier. The presentation will be embedded and appear instantly.

[Embed PowerPoint Presentations in WordPress]

Step 3: Customize PowerPoint Presentation Appearance

Once embedded, you can use other controls from the content tab, such as **Ads Settings, Content Protection** and more. Plus, you can adjust height, width and more to customize embed display as needed. Plus, there are **Style** and **Advanced** tabs with extended options to tweak visuals and interaction.

[Embed PowerPoint Presentations in WordPress]

This is how you can embed presentations from OneDrive in the Elementor website builder without the embedding codes.

Embed PowerPoint Presentations in Classic Editor

Open the Classic Editor for your post or page. Ensure you’re on the **Visual** tab, then paste the embed link or code directly into the content. Classic Editor will render the PowerPoint sheet automatically without switching to HTML mode.

[Embed PowerPoint Presentations in WordPress]

With these simple steps, you can effortlessly **embed PowerPoint Sheets** from Microsoft into your WordPress site using the EmbedPress plugin across Gutenberg, Classic, or Elementor editors.
