Press

viddler®

With

EmbedPress, you can **embed Viddler Videos** to WordPress, using just a URL.

Viddler embeds are possible, but they're not easy to use via normal methods. EmbedPress is different. With EmbedPress, you don't have to mess around with embed code. All you need is the Viddler Video URL.

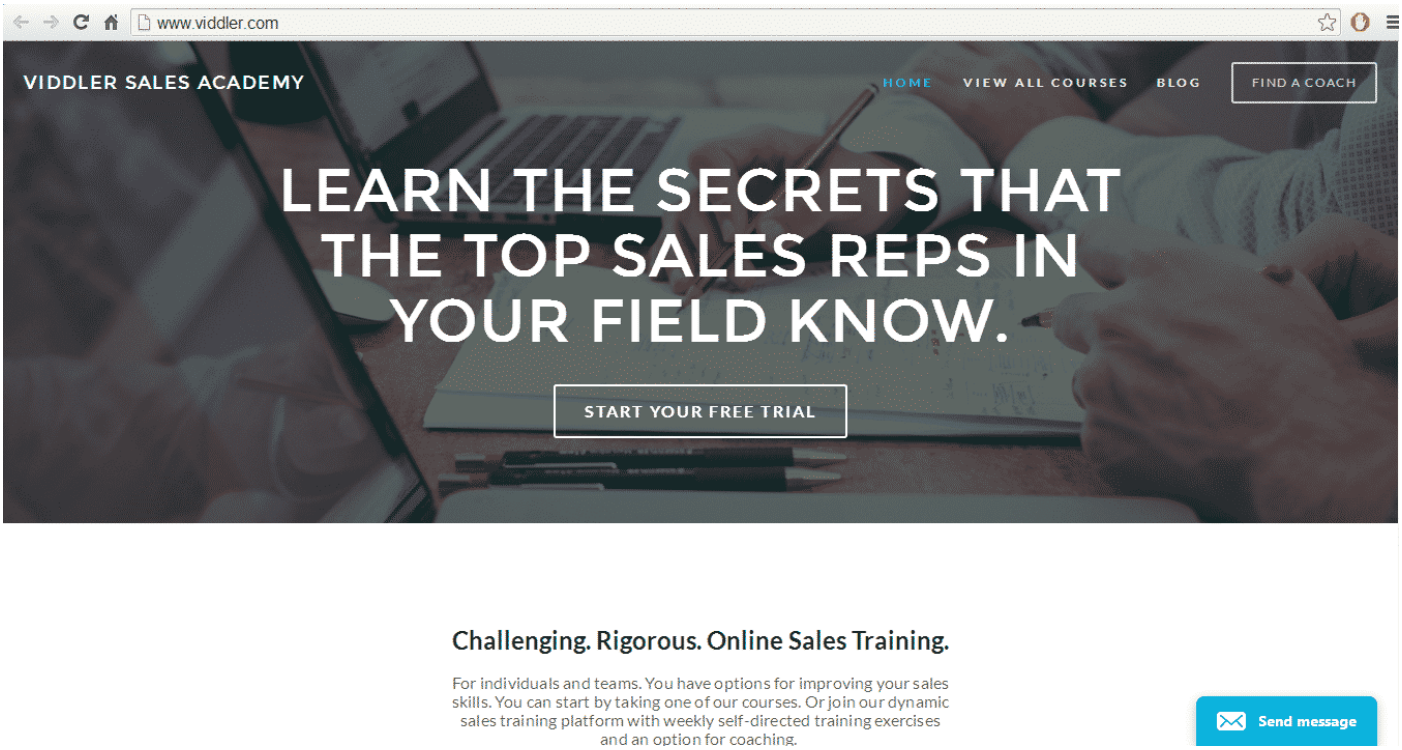

Here's how to embed Viddler Video into your WordPress site, using the EmbedPress plugin.

Step #1. Install the EmbedPress plugin

EmbedPress is a very helpful plugin that expands and improves on WordPress' capabilities. Install EmbedPress and your WordPress site will become far more powerful. Click here to find EmbedPress on WordPress.org.

Step #2. Set Up Your Viddler

1. Go to Viddler.com

2. Subscribe to their premium membership or ask for a free trial.
3. Click "View all Courses" on top right.

4. Go to any course page.
5. Copy the URL from address bar which will be used for embed purpose.

Step #3. Embed Viddler Videos & Publish

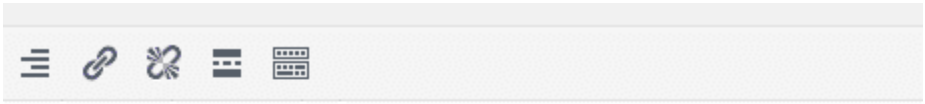

Now you have the Viddler Video URL, you can add it to WordPress.

1. Go to your WordPress site.
2. Edit a post or page.
3. Add your Viddler Video URL into the content area, with the “Visual” tab enabled.
4. You will see a purple background with a “Loading your embed …” message:
5. Your URL will automatically be transformed into an embed of your Viddler Video.

Step #4. Edit your Viddler Embeds

While editing your WordPress content, you can also edit your embed, thanks to EmbedPress.

1. Hover over the embed, and a purple button will appear.
2. Click the pencil and a pop-up screen will appear with more options.

3. You can now change the embed URL, plus you can also control the maximum width and height of the embed.
