How To Embed Huffduffer Podcasts In WordPress

Embed Sources · https://embedpress.com/docs/how-to-embed-huffduffer-podcasts-in-wordpress/

Huffduffer is an audio service platform that enables you to create a personal podcast feed out of audio links. Now you can easily **embed Huffduffer podcasts** in WordPress using **EmbedPress**.

With the help of the **EmbedPress** plugin, it is very simple to **embed Huffduffer podcasts** in WordPress using just a URL. You don't have to mess around with any embedding code. All you need is the podcast URL and you can effortlessly make your website more engaging and interactive.

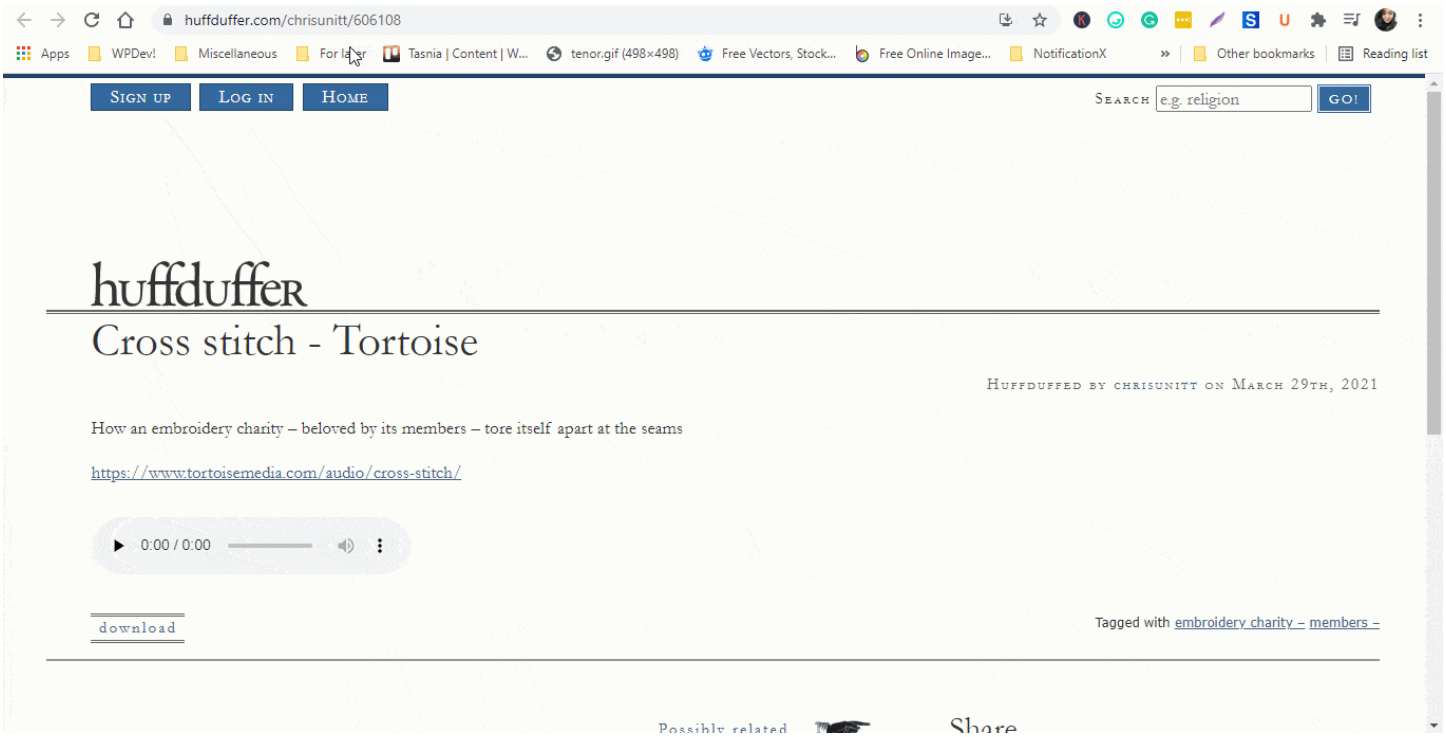

Here's how to **embed Huffduffer podcast** and audio links into your WordPress site using **EmbedPress plugin.**

How To Collect Your Huffduffer Podcast URL?

To collect the podcast URL, visit the **Huffduffer** website. Here you can create your own podcasts using various audio links.

Click on the podcast that you want to embed in your WordPress website, and copy the URL **from the address bar**.

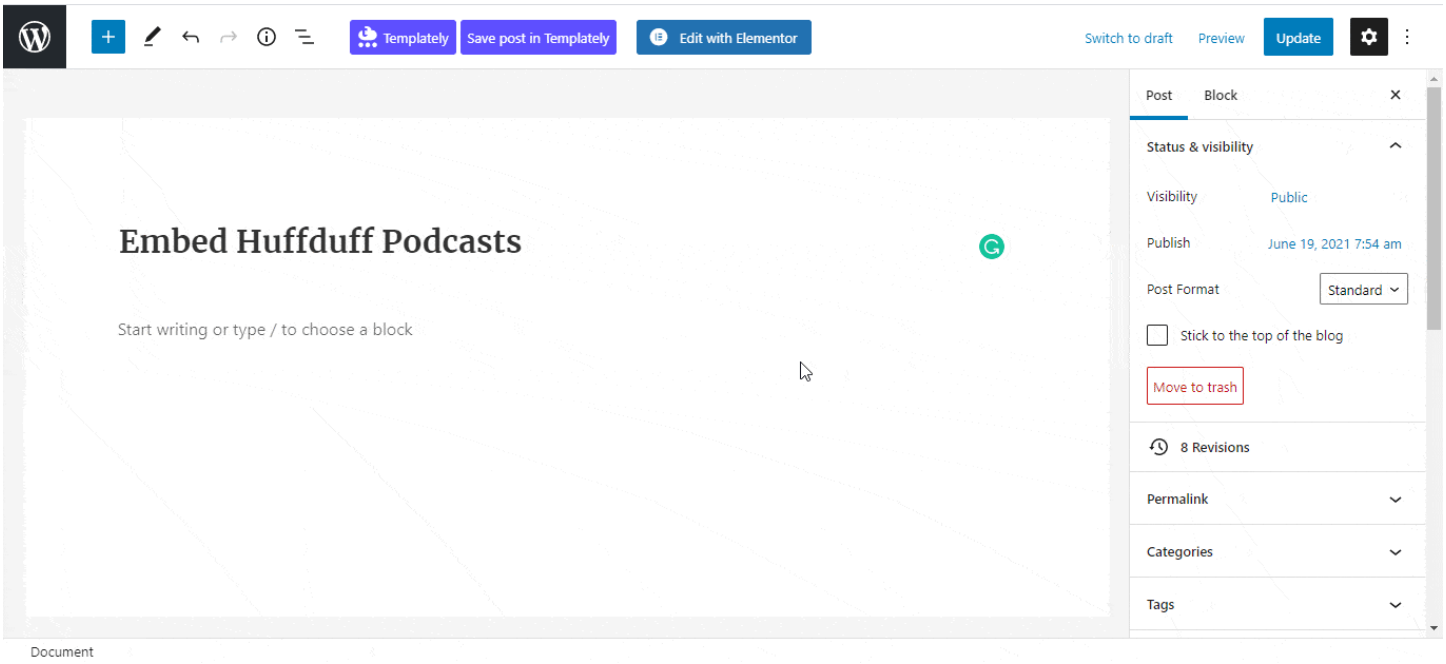

How To Embed Huffduffer Podcasts In Gutenberg Editor?

EmbedPress comes with its own block for embedding any type of content using **Gutenberg Editor**. To embed Huffduffer podcasts using Gutenberg, follow the steps below.

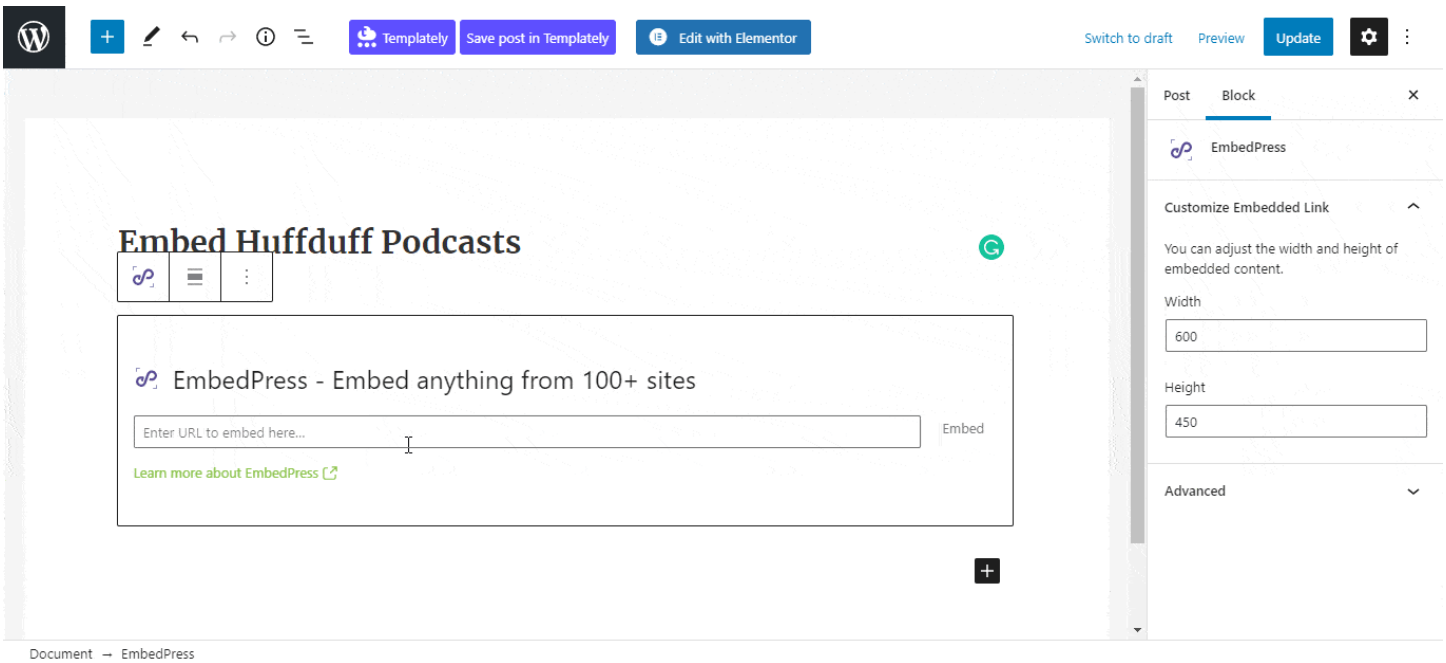

Step 1: Insert An EmbedPress Block

Click on the **'+'** icon on your post content area in the **Gutenberg editor** and select 'EmbedPress.' You can also insert EmbedPress from the '**Add Block**' button at the top of the page.

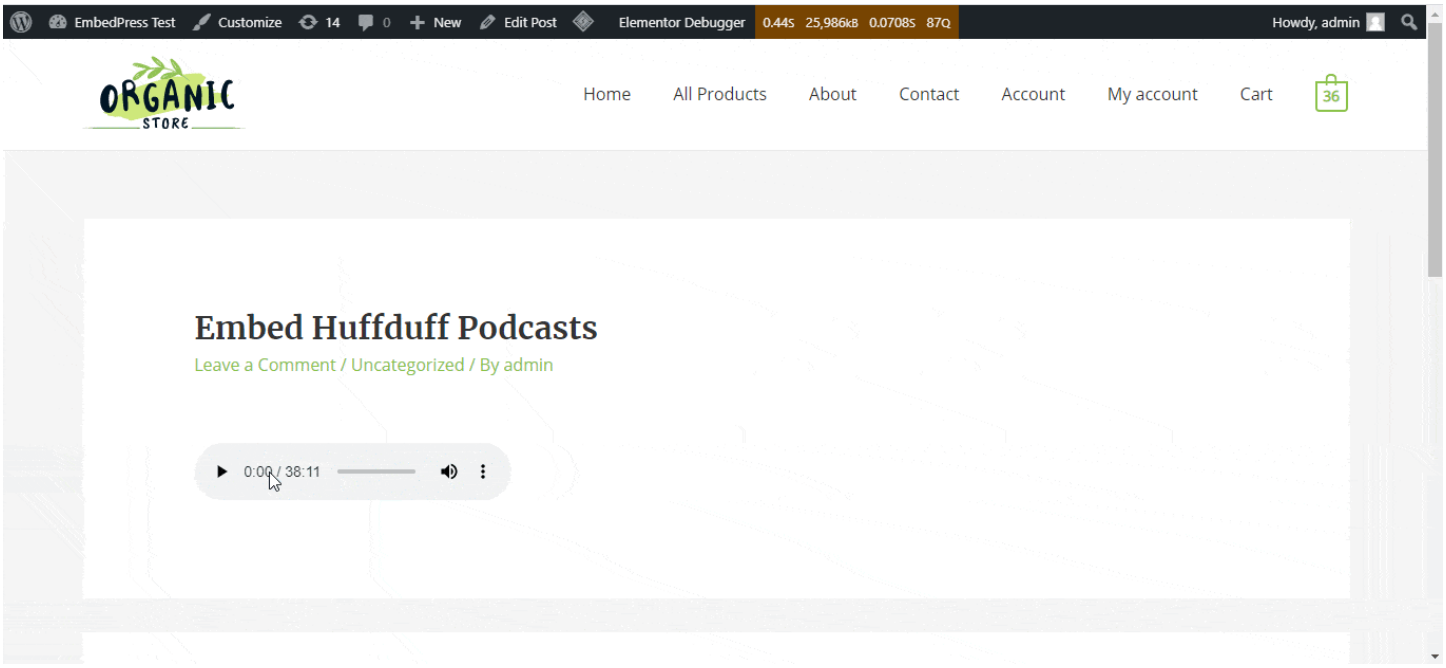

Step 2: Enter the URL into the block

Now paste the collected **Huffduffer podcast URL** on the input field and click on the '**Embed**' button. Your URL will automatically be transformed into an embed of your personal podcast.

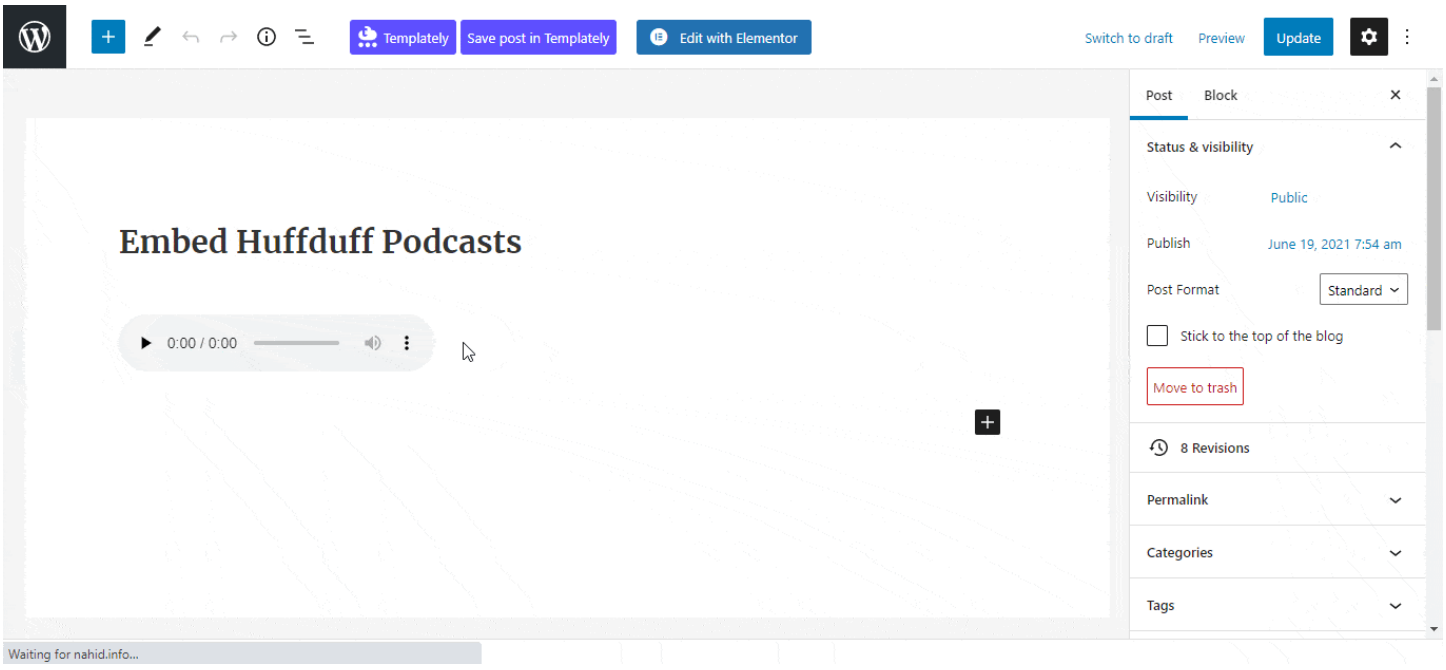

Publish your WordPress content and it will be embedded on the published page or post for your users to see.

Step 3: Edit Your Video Embed

Thanks to EmbedPress, you can also effortlessly modify the embedded podcast. To edit the embed on the Gutenberg editor, click on the EmbedPress block on your Gutenberg editor.

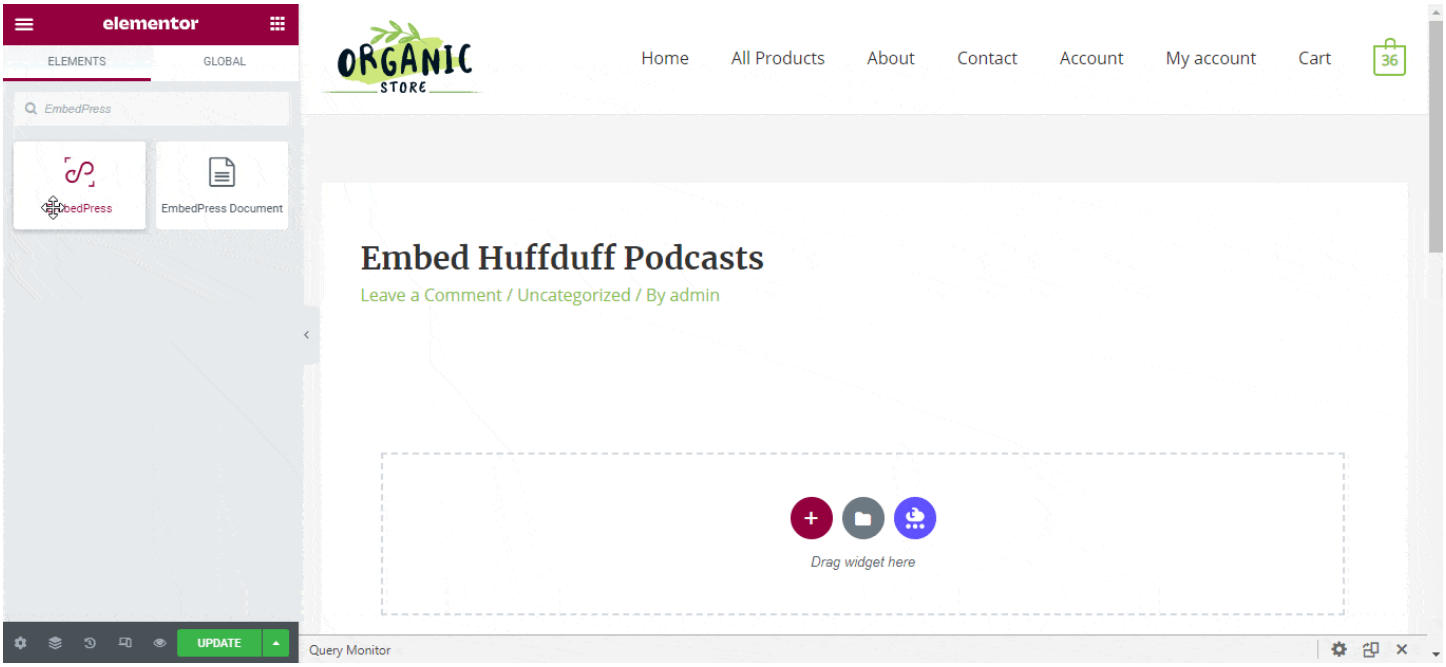

You can **change the dimensions** of the embedded video file and modify it the way you need with absolute ease on the block customizer that will appear on the side panel of the editor.

How To Embed Huffduffer Podcasts In Elementor Editor?

You can also embed Huffduffer podcasts using EmbedPress on the **Elementor Editor**, if you prefer this editor instead.

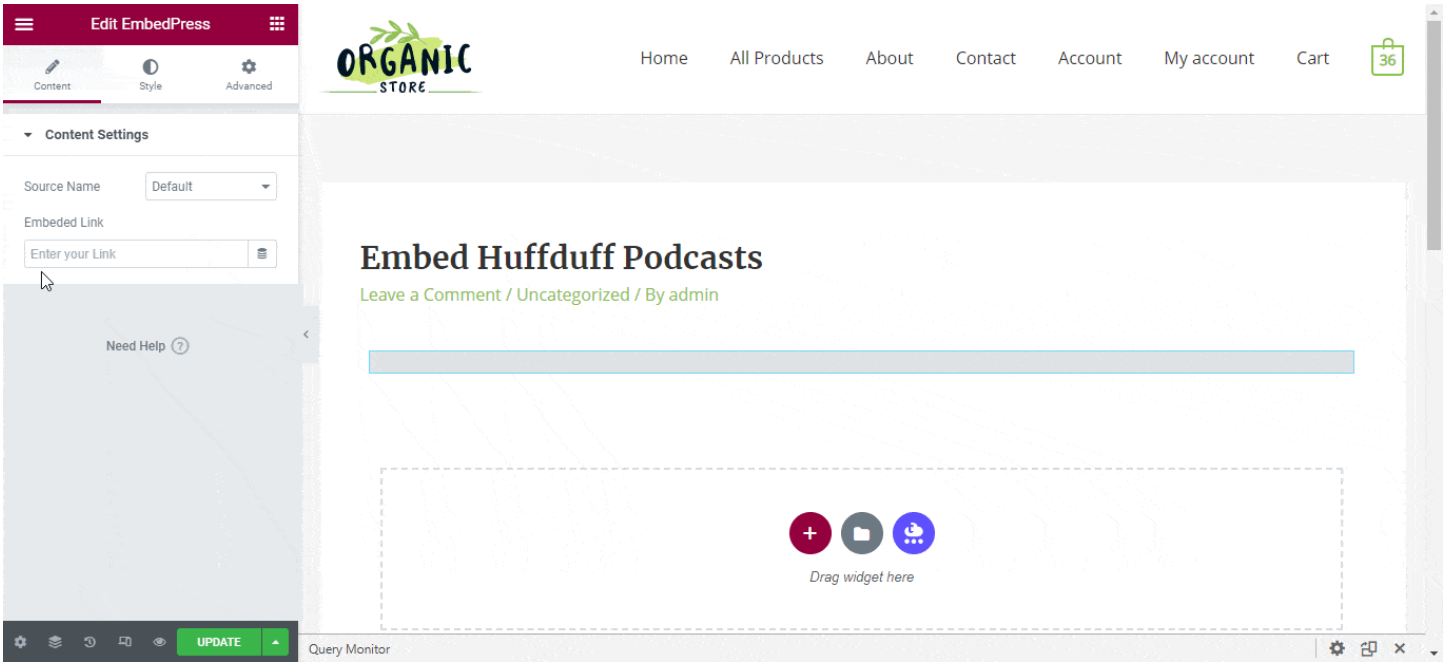

Step 1: Look For The EmbedPress Element

First, click on '**Edit with Elementor**' at the top of your page. It will take you to the Elementor editing panel. Search for the **EmbedPress** element on the widget panel and then drag and drop the widget on your page.

Step 2: Paste The URL In 'Content Settings'

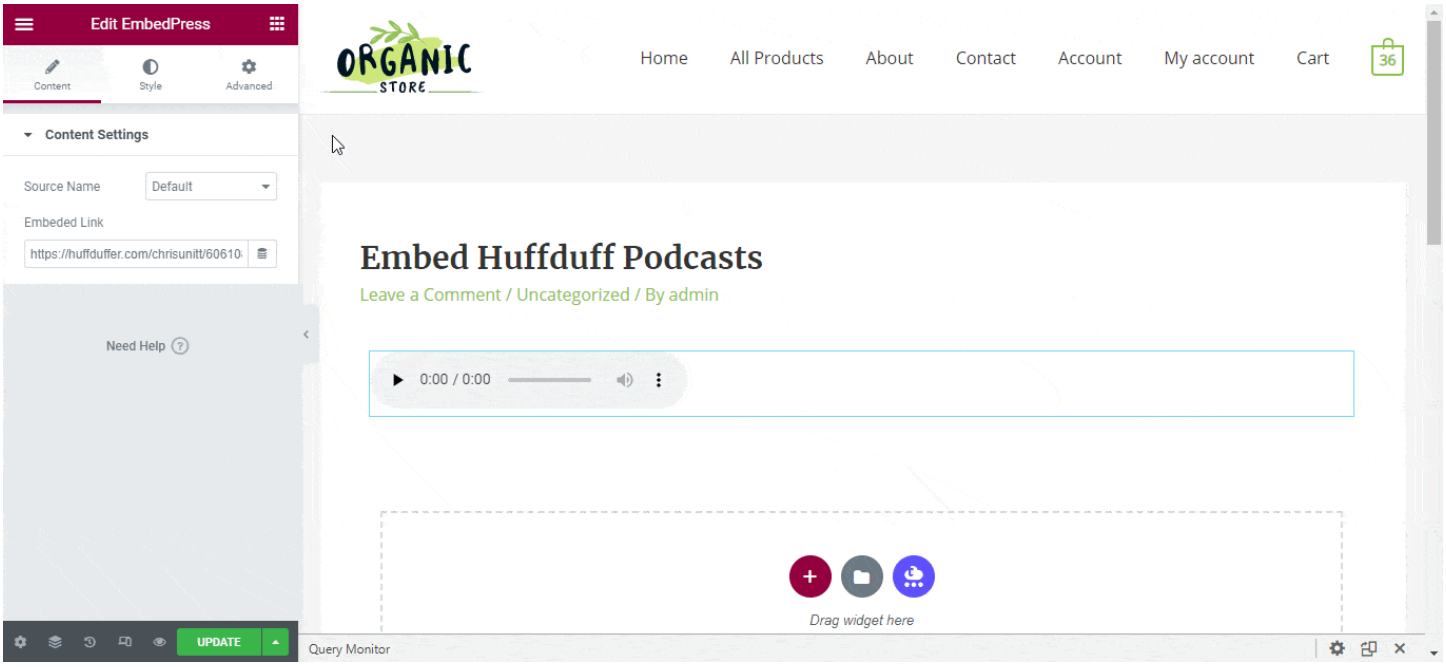

Now, paste the Huffduffer podcast URL onto the '**Content Setting**' input field. Your embedded podcast will automatically be uploaded onto your Elementor editor.

Publish your post or page, and your website users will be able to see the embedded content.

Step 3: Style Your Embedded Content

You can edit the embedded podcast on the Elementor editor with a few easy steps. First, go to the ‘ **Style**’ tab on the Elementor side panel. Here, you can change the dimensions, aspect ratios, and background color as necessary.

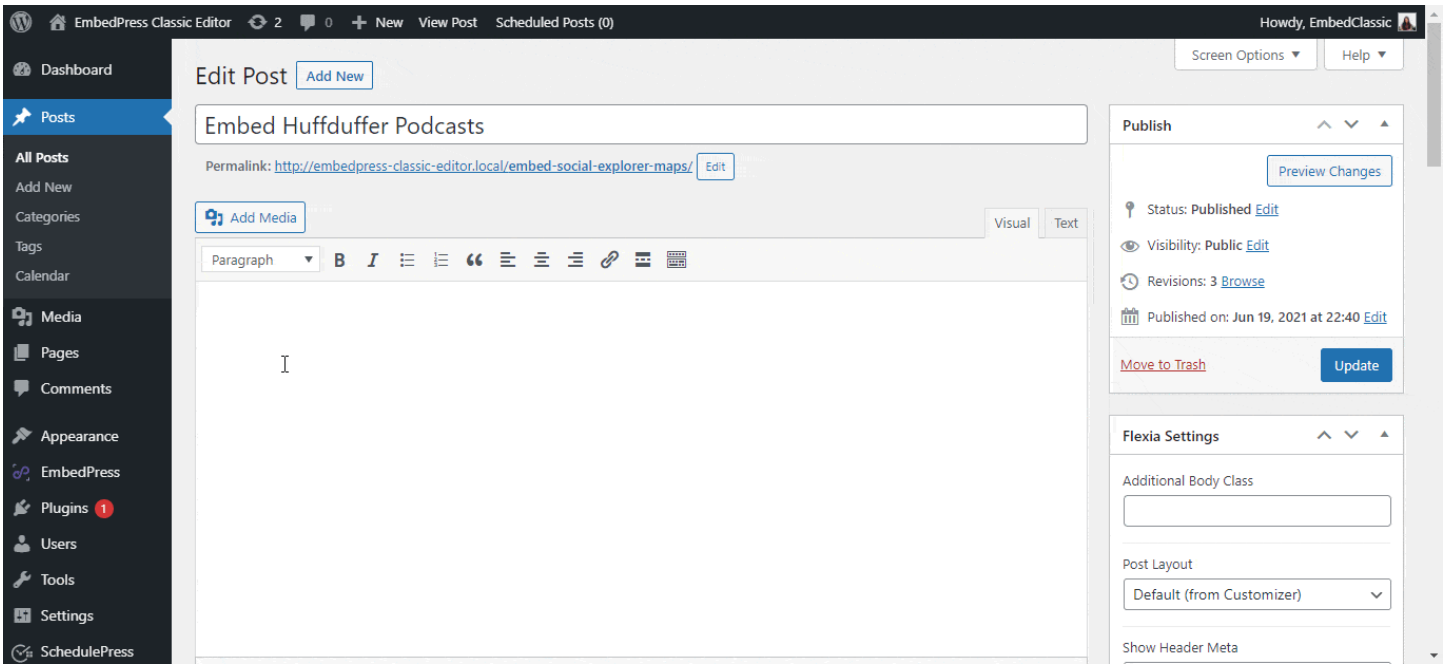

How To Embed Huffduffer Podcasts In The Classic Editor?

You can effortlessly embed your Huffduffer podcasts onto your **Classic Editor** with just a click.

Step 1: Paste The Link On Classic Editor

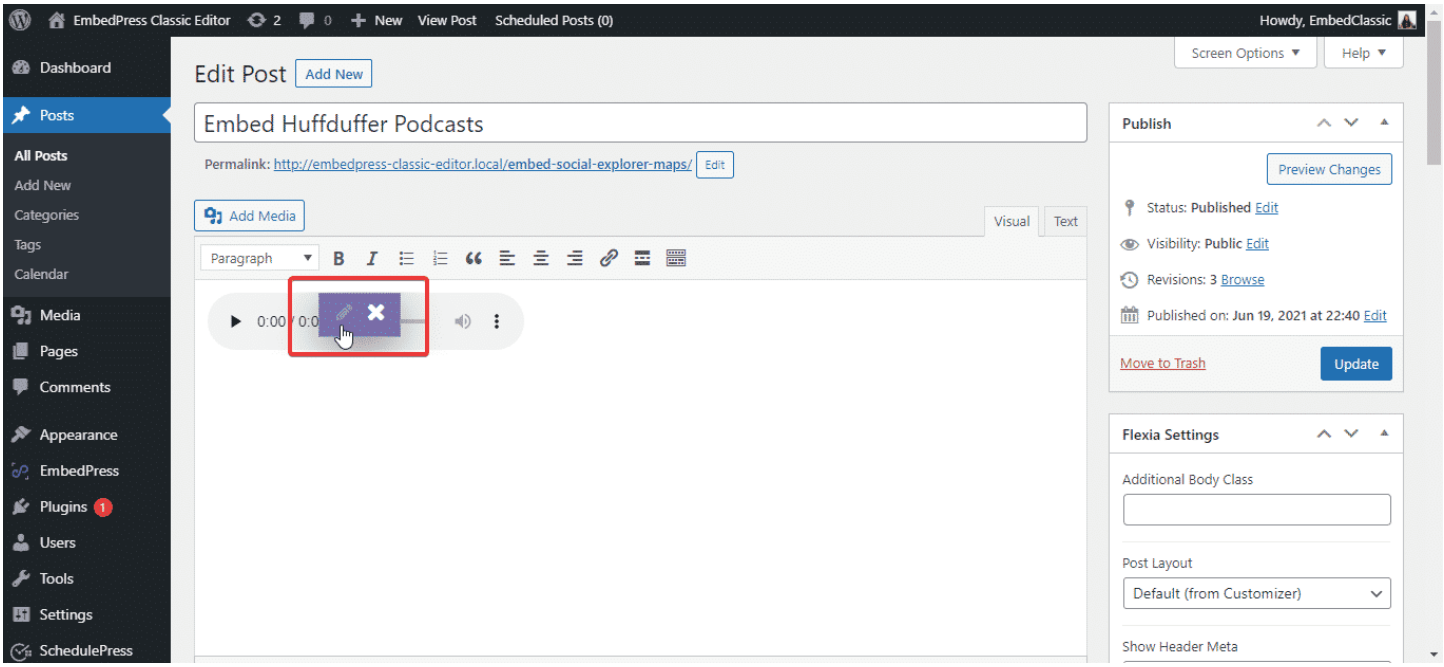

Paste the URL directly onto the '**content area**' of the editor interface. A purple-colored background will appear on the editor interface and the Huffduffer podcast will load onto the editor within a few seconds.

Afterward, **publish and preview the post** and wait for a few seconds. The Huffduffer podcast will automatically be embedded into your WordPress website.

Step 2: Modify The Embedded Podcast

Move the mouse pointer over the podcast embed and a purple button will show up at the top. Click the pencil icon and a pop-up window will be visible with more options.

With these simple steps, you can **embed Huffduffer podcast and audio links** instantly into your WordPress website with **EmbedPress** using any of Gutenberg Editor, Classic Editor, or Elementor Editor.
