How To Embed Lille.Pod Videos In WordPress

Embed Sources · https://embedpress.com/docs/how-to-embed-lille-pod-videos-in-wordpress/

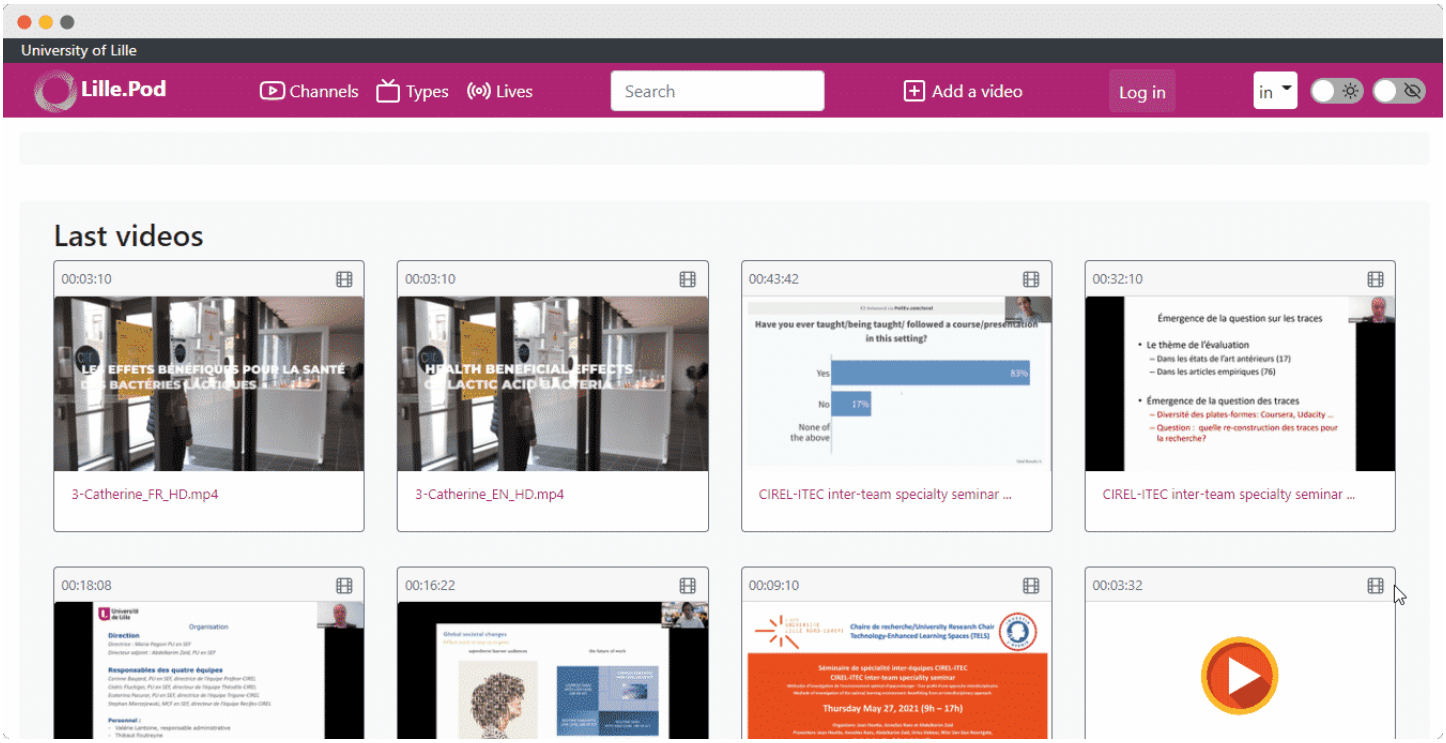

Lille.Pod is the online video platform of the University of Lille, France. It allows its users to document videos and audio for educational purposes. Now you can easily **embed Lille.Pod videos** or audios in WordPress using **EmbedPress**, on any editor of your choice - **Gutenberg Editor**, **Classic Editor,** or **Elementor Editor**.

EmbedPress is a very dependable and valuable plugin and lets you insert any content into your WordPress website with a few clicks. With the help of the EmbedPress plugin, it is very simple to **embed Lille.Pod videos** in WordPress using just a URL. You don't have to mess around with any embedding code. All you need is the video URL.

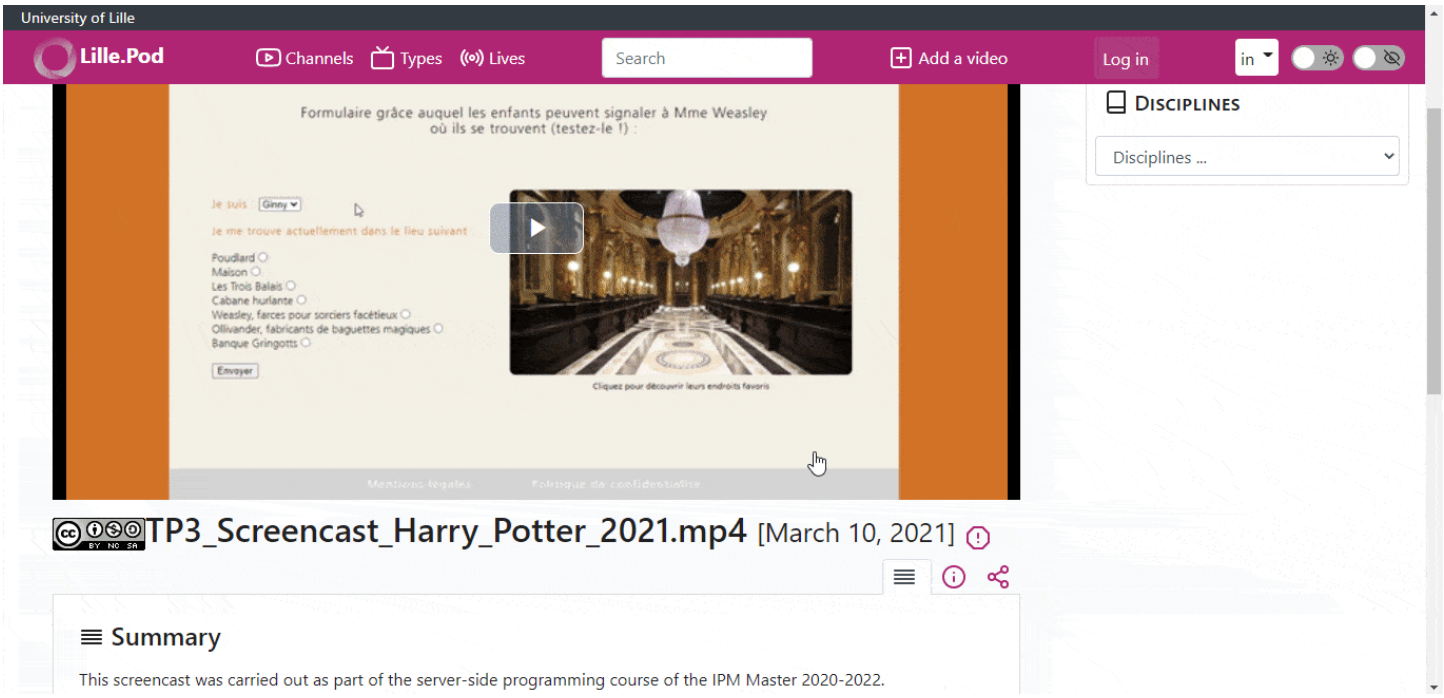

Here's how to embed Lille.Pod video and audio documentation into your WordPress site using **the EmbedPress plugin** following a few simple, easy steps given below **.**

How To Collect Your Lille.Pod Video URL?

To collect the video URL, visit the **Lille.Pod** website. Here you can create your own documented videos or browse through the existing library of video and audio documents.

Click on the Lille.Pod video document that you want to embed in your WordPress website, and copy the URL **from the address bar**. Or, you can click on the **‘share’** button and copy the ‘**sharable link** ’ from the pop-up interface.

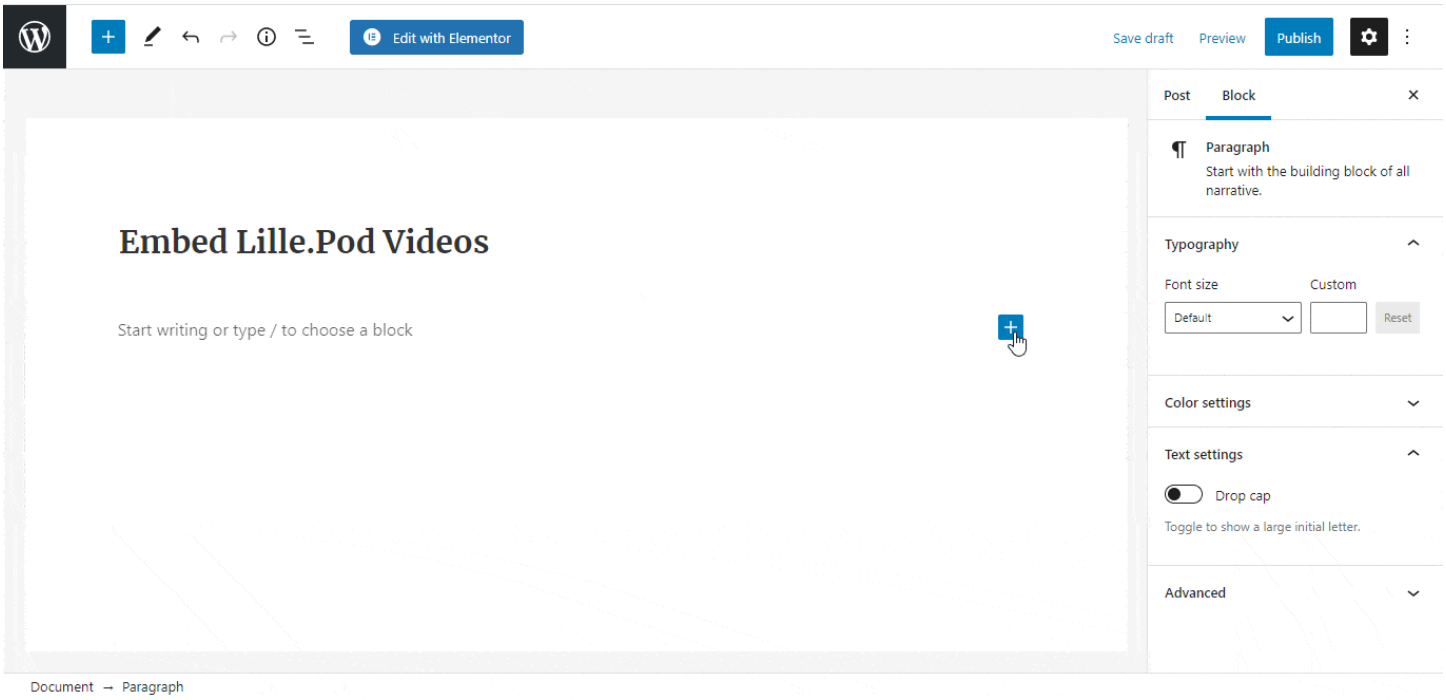

How To Embed Lille.Pod Video Using Gutenberg Editor?

EmbedPress comes with its own block for embedding any type of content using **Gutenberg Editor**. To embed Lille.Pod videos using Gutenberg, follow the steps below.

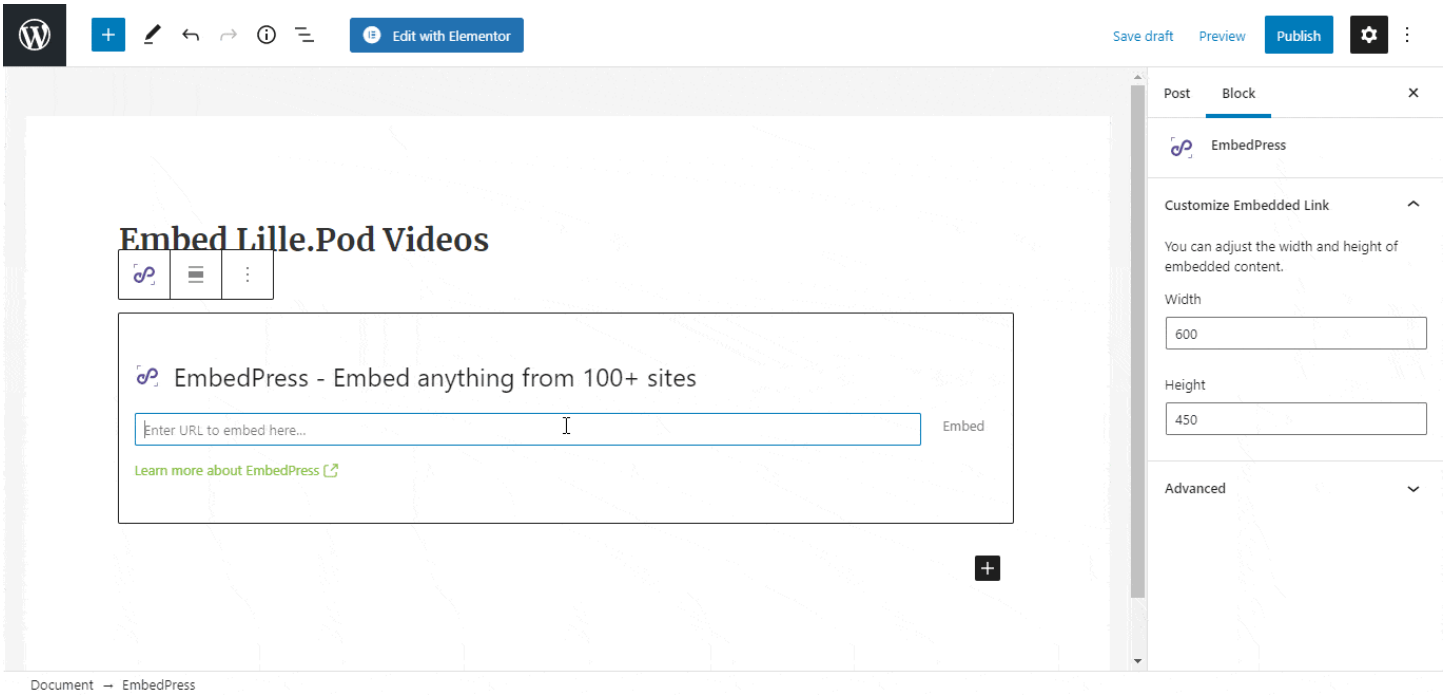

Step 1: Insert An EmbedPress Block

Click on the **'+'** icon on your post content area in the **Gutenberg editor** and select 'EmbedPress.' You can also insert EmbedPress from the '**Add Block**' button at the top of the page.

Step 2: Enter the URL into the block

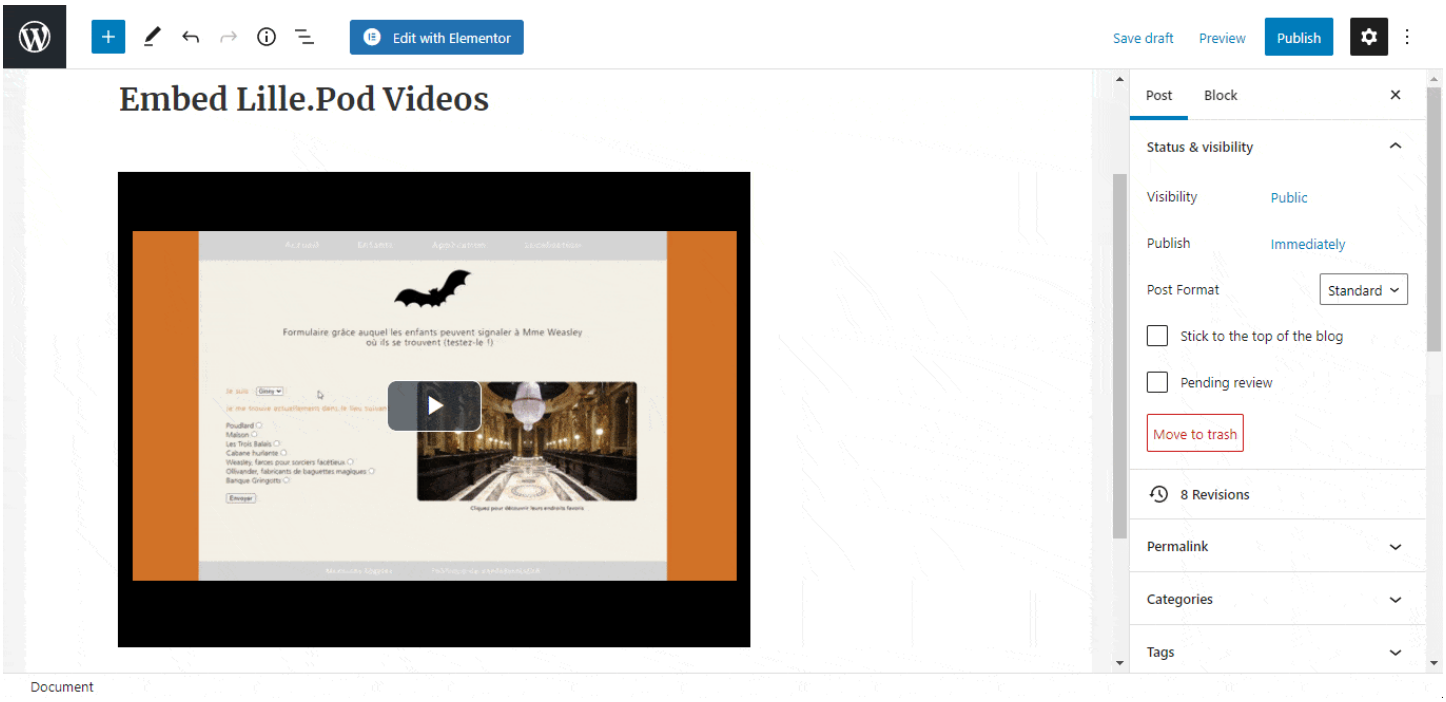

Now paste the collected **Lille.Pod video URL** on the input field and click on the '**Embed**' button. Your URL will automatically be transformed into an embed of your Streambale video file.

Publish your WordPress content, and the Lille.Pod video document will be embedded on the published page or post for your users to see.

Step 3: Edit Your Video Embed

Thanks to EmbedPress, you can also effortlessly modify the embedded video document. To edit the embed on the Gutenberg editor, click on the EmbedPress block on your Gutenberg editor.

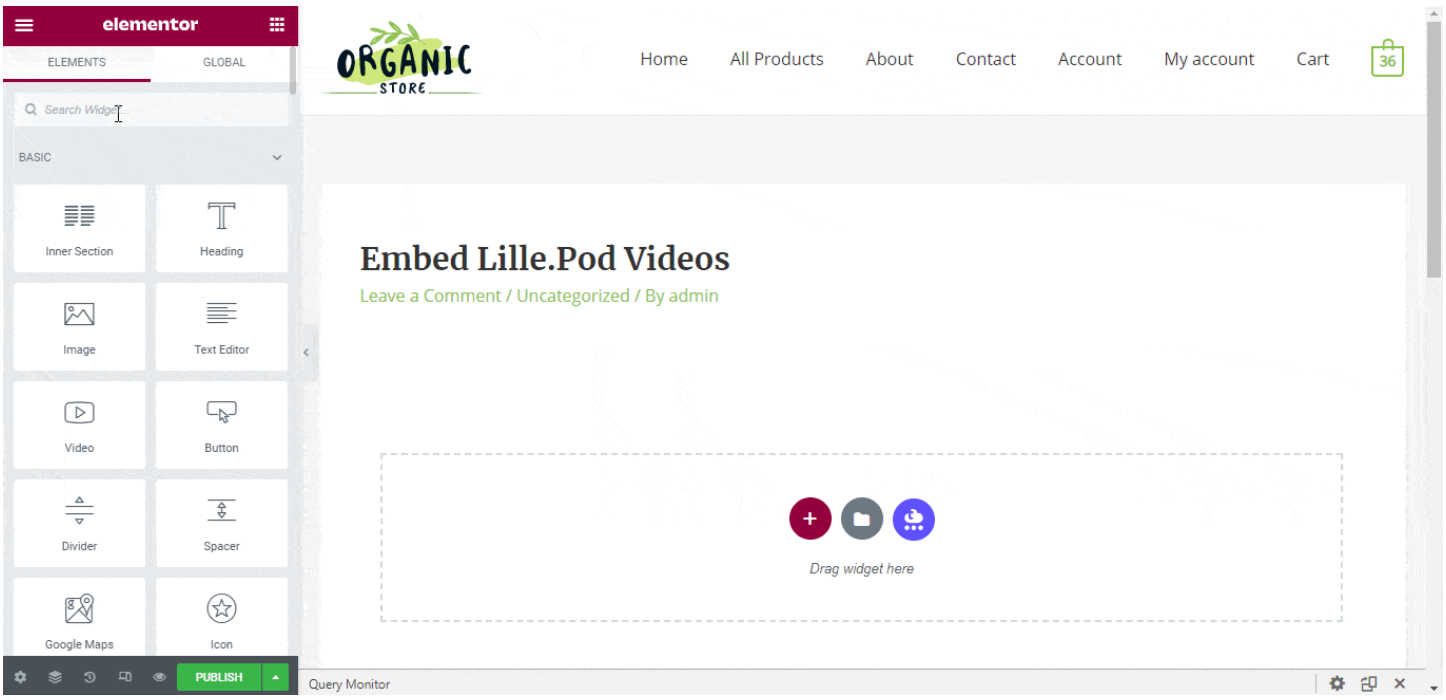

You can **change the dimensions** of the embedded video file and modify it the way you need with absolute ease on the block customizer that will appear on the side panel of the editor.

How To Embed Lille.Pod Videos Using Elementor Editor?

You can also embed Lille.Pod videos using EmbedPress on the **Elementor Editor**, if you prefer this editor instead.

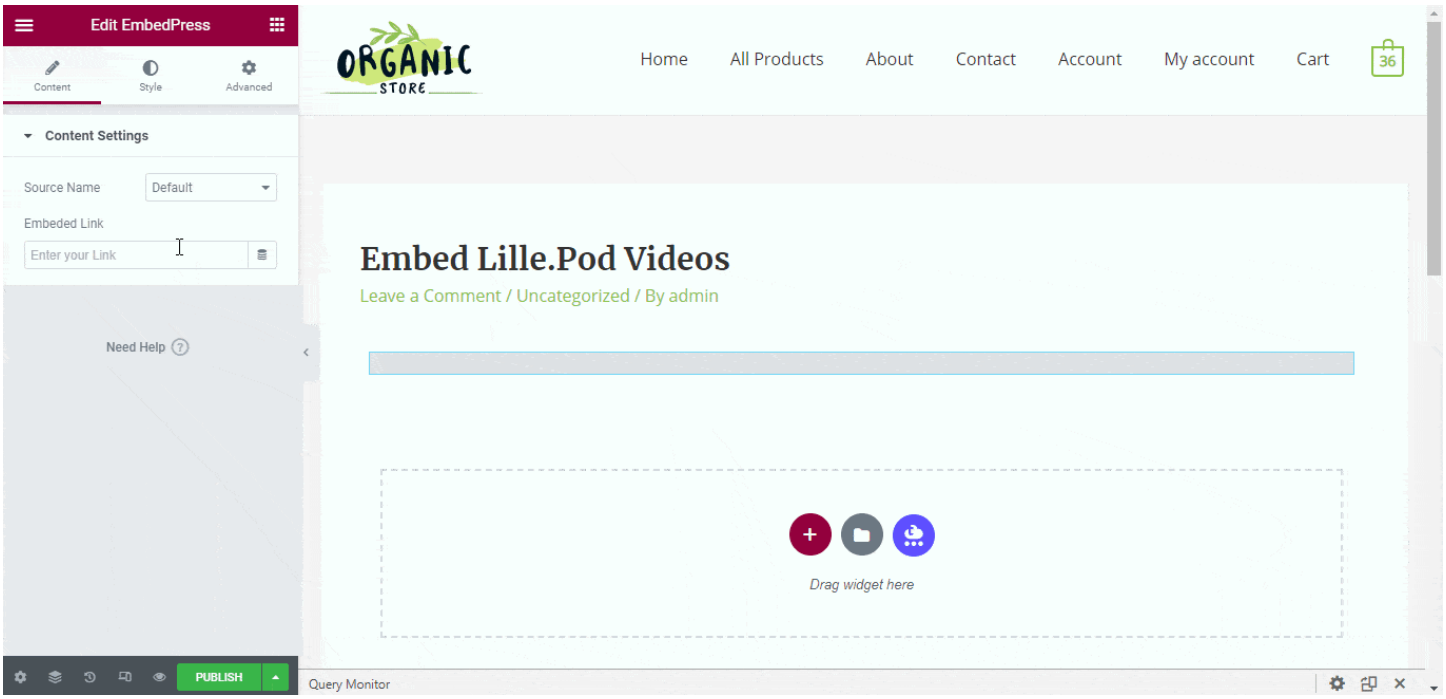

Step 1: Look For The EmbedPress Element

First, click on '**Edit with Elementor**' at the top of your page. It will take you to the Elementor editing panel. Search for the **EmbedPress** element on the widget panel and then drag and drop the widget on your page.

Step 2: Paste The URL In ‘Content Settings’

Now, paste the Lille.Pod video URL onto the ‘**Content Setting**’ input field. Your embedded video document will automatically be uploaded onto your Elementor editor. **Publish your post or page**, and your website users will be able to see the embedded content.

Step 3: Style Your Embedded Content

You can edit the embedded video document on the Elementor editor with a few easy steps. First, go to the '**Style**' tab on the Elementor side panel. Here, you can change the dimensions, aspect ratios, and background color as necessary.

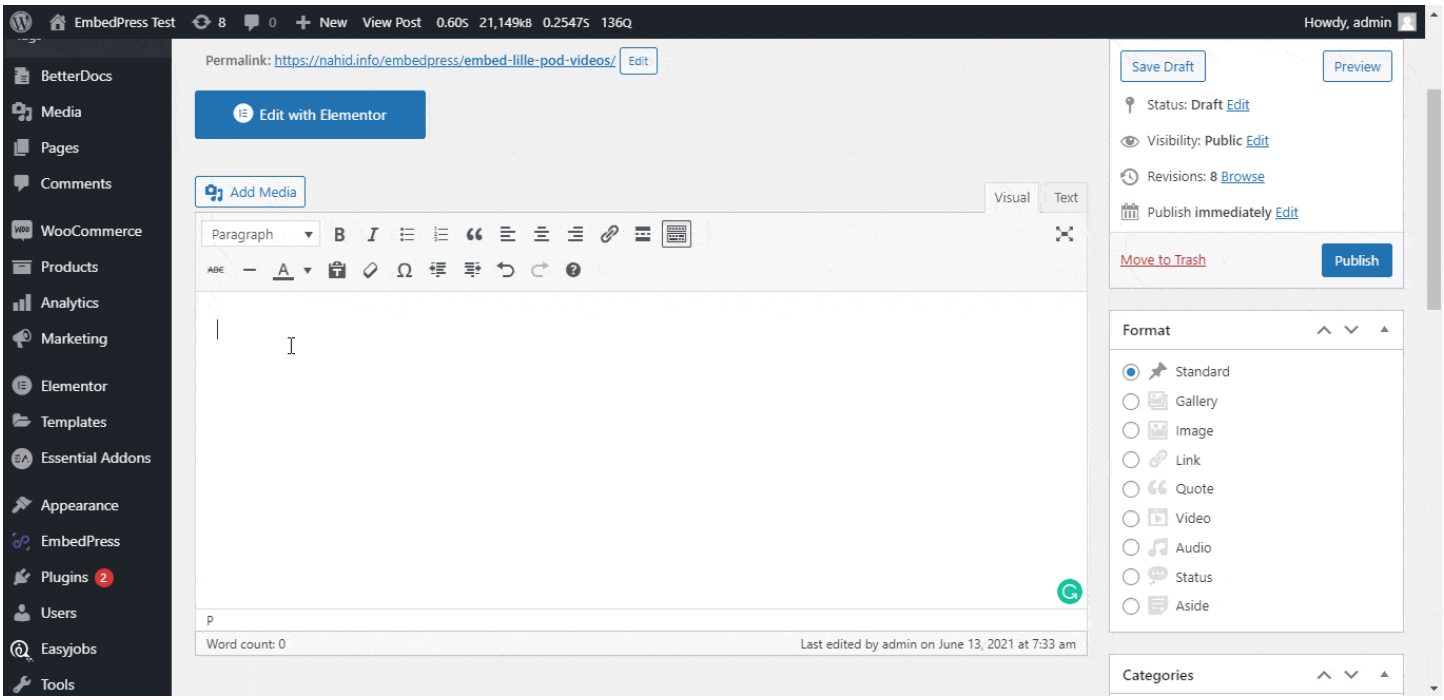

How To Embed Lille.Pod Videos Using The Classic Editor?

You can effortlessly embed your Lille.Pod video document onto your **Classic Editor** with just a click.

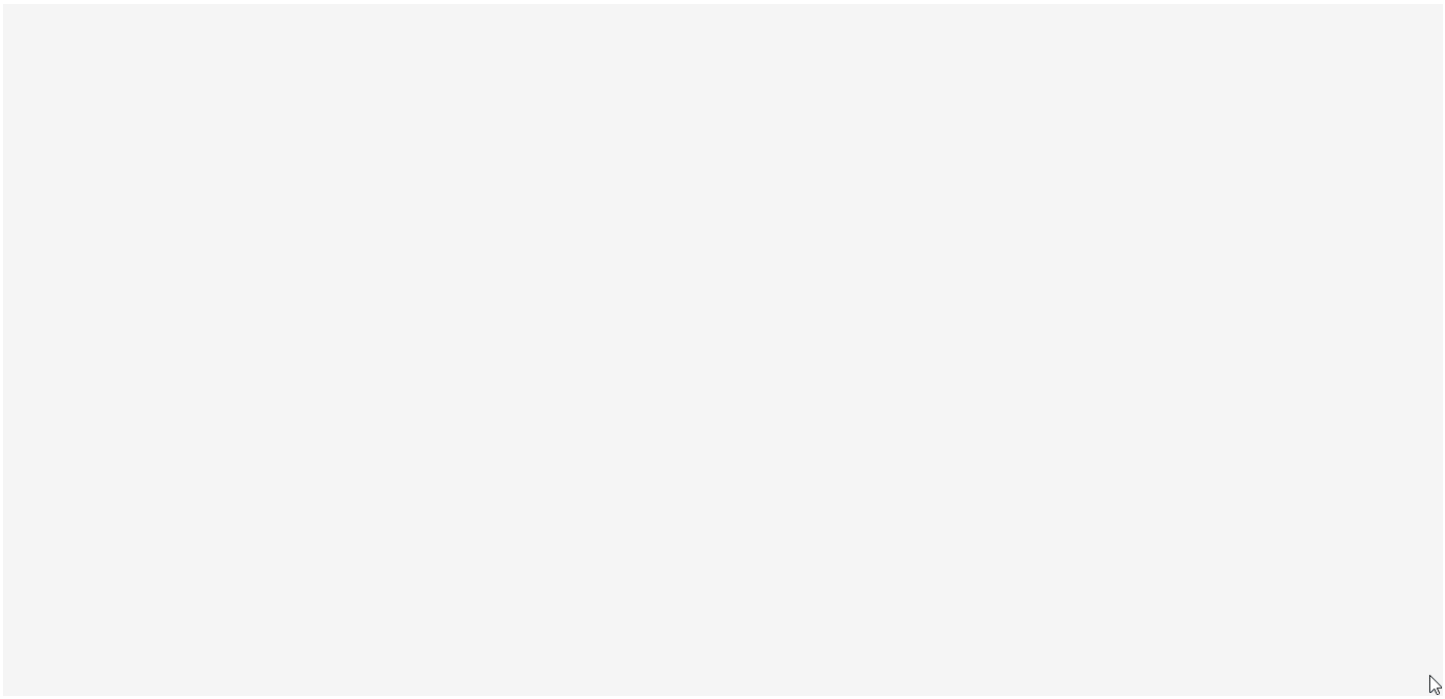

Step 1: Paste The Link On Classic Editor

Paste the URL directly onto the '**content area**' of the editor interface.

Step 2: Check Embedded Post On WordPress Site

Publish and preview the post and wait for a few seconds. The Lille.Pod video will automatically be embedded onto your WordPress website.

With these simple steps, you can embed Lille.Pod video and audio document links instantly into your WordPress website with **EmbedPress** using any of Gutenberg Editor, Classic Editor, or Elementor

Editor.
