How To Embed Social Explorer Maps In WordPress

Embed Sources · https://embedpress.com/docs/how-to-embed-social-explorer-maps-in-wordpress/

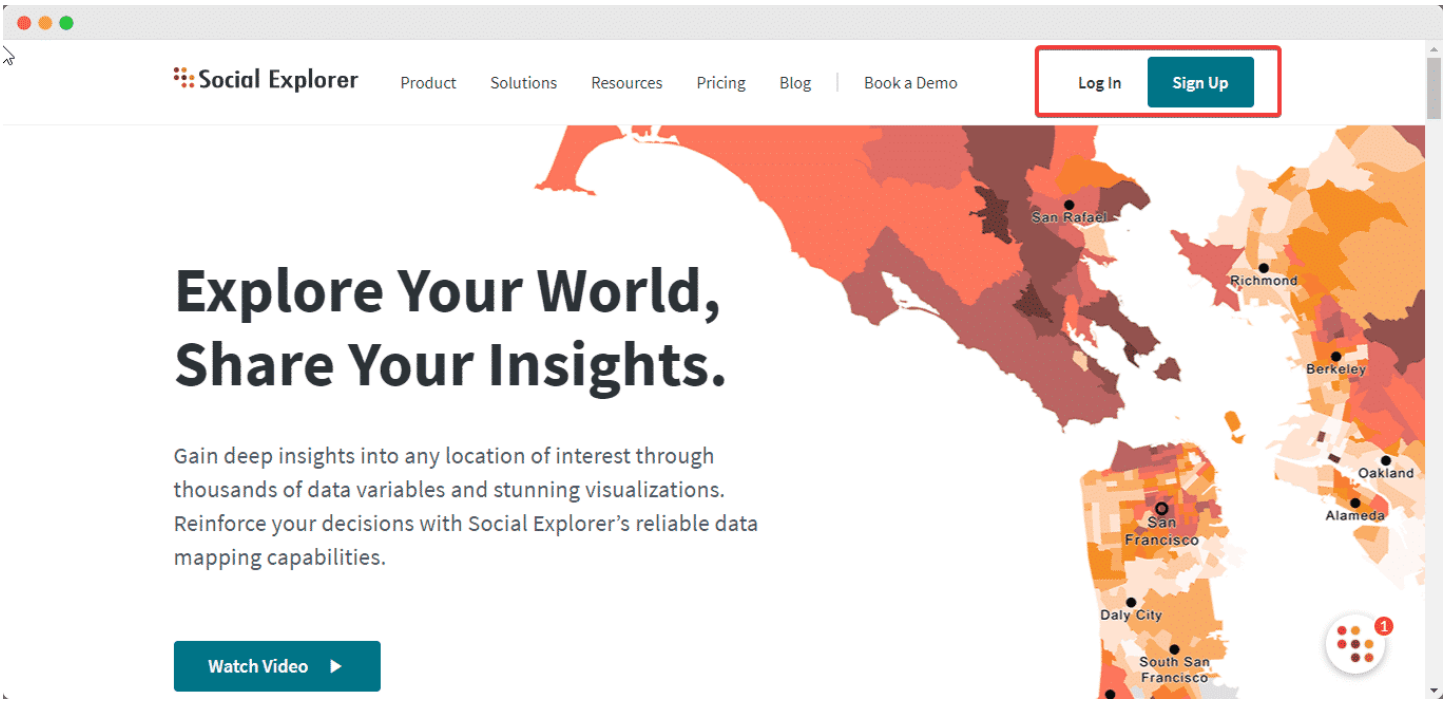

Social Explorer is an online demographic research tool that provides easy access to demographic information about the USA. The platform provides thousands of informative maps dating back to the 1790s for you to get insightful information about any location, visually explore change over time and understand the patterns behind the raw numbers.

EmbedPress helps you to easily embed Social Explorer maps in your WordPress favorite editors - **Gutenberg Editor**, **Classic Editor,** or **Elementor Editor**. It enables you to effortlessly embed demographic maps in your WordPress website by using just a URL. All you need is the Social Explorer map URL you prefer and can instantly make your site more interactive and engaging.

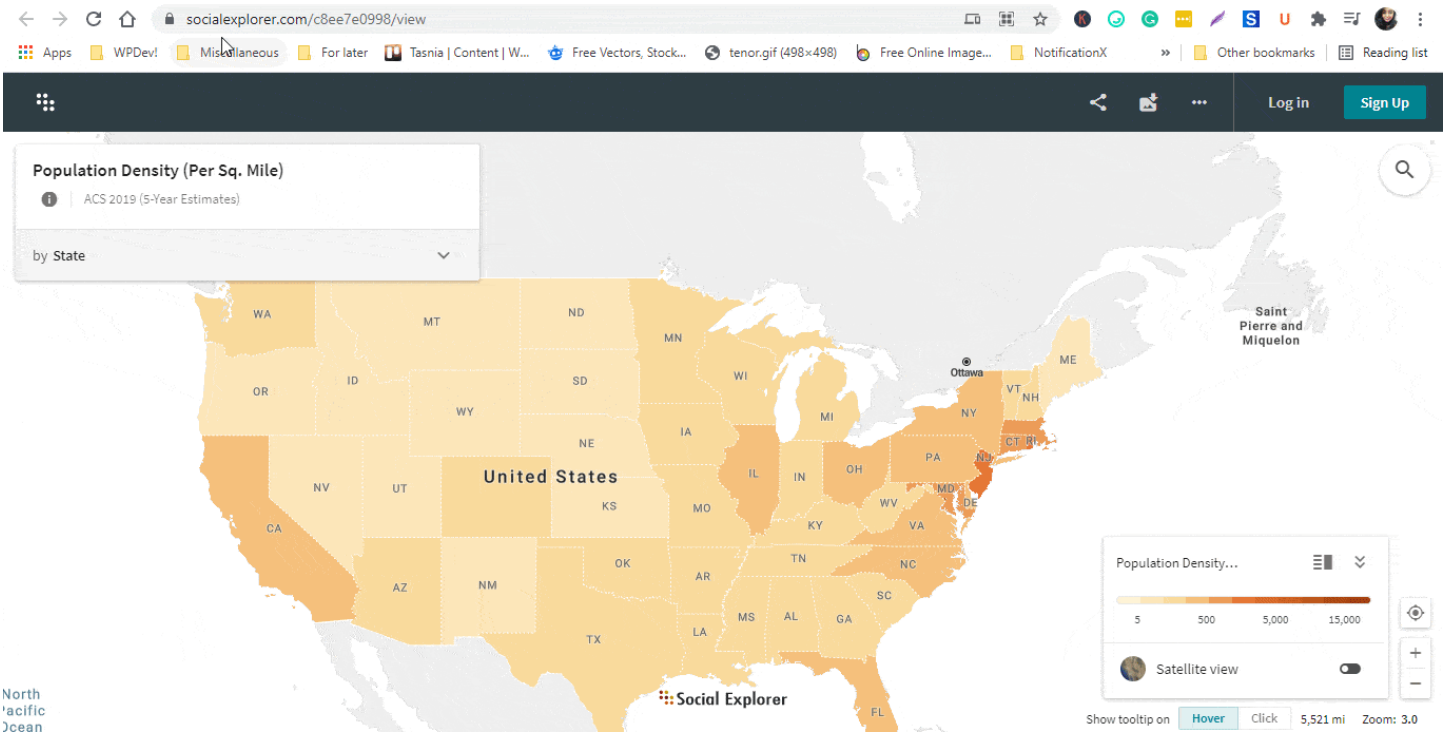

Here’s how to **embed Social Explorer map** into your WordPress site preferred editor by using this **EmbedPress plugin** following the simple, easy steps below.

How To Collect Your Social Explorer Map URL?

To collect the map URL, visit the **Social Explorer** website. You can sign in to your account with your login credentials.

Click on the Social Explorer map that you want to embed on your WordPress website and copy the URL **from the address bar**.

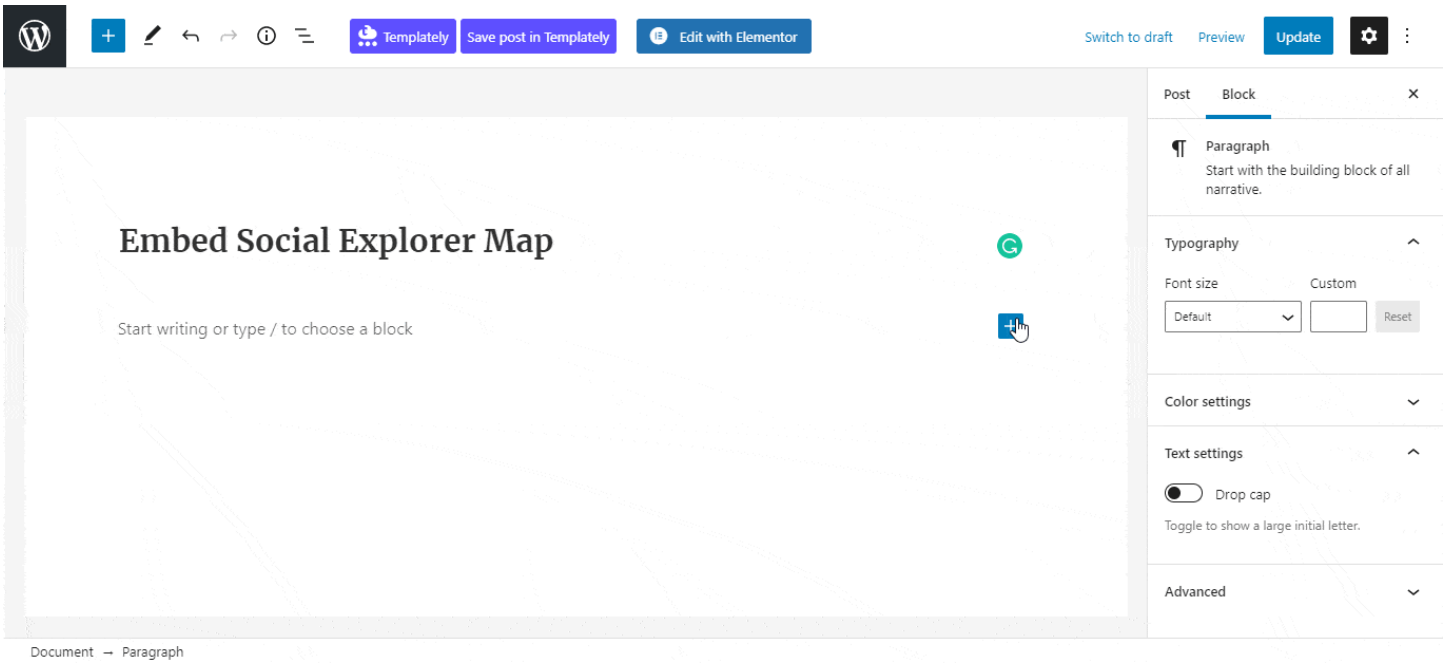

How To Embed Social Explorer Maps In Gutenberg Editor?

EmbedPress comes with its own block for embedding any type of content using the **Gutenberg editor**. To embed Social Explorer maps using Gutenberg, follow the steps below.

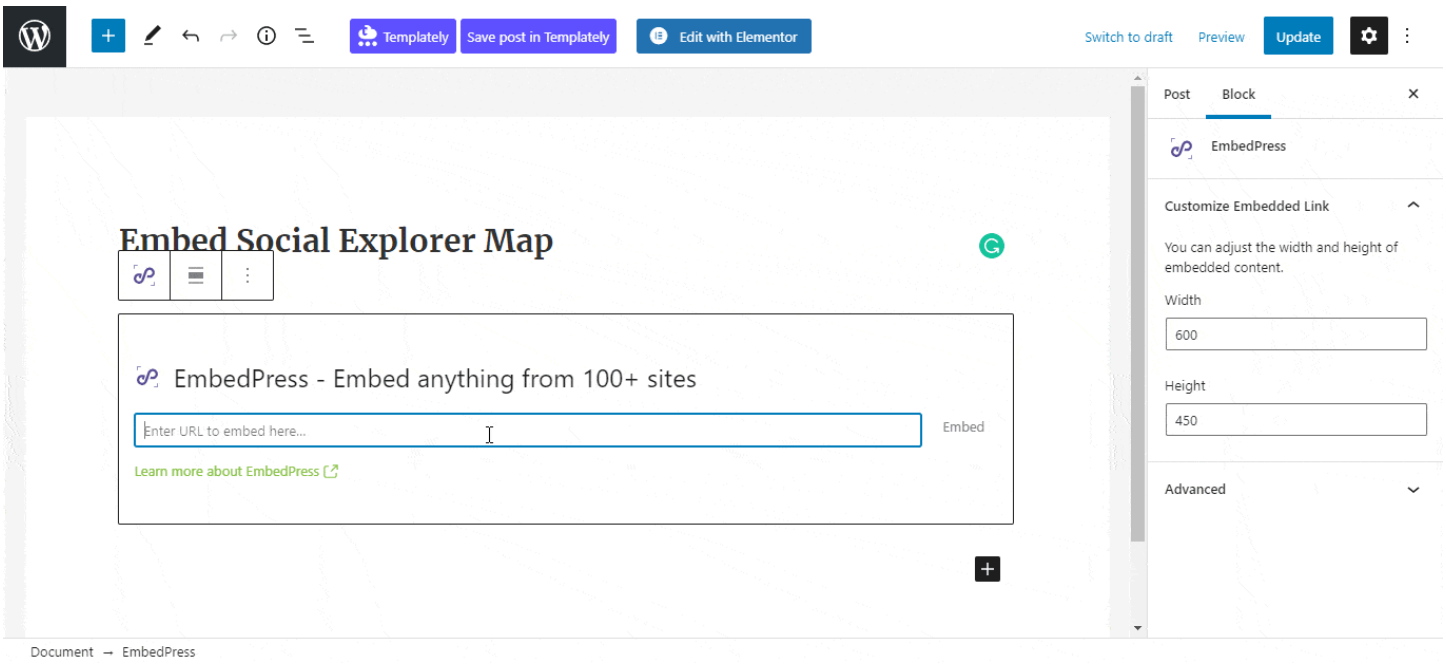

Step 1: Insert An EmbedPress Block

Click on the **'+'** icon on your post content area in the **Gutenberg editor** and select 'EmbedPress.' You can also insert EmbedPress from the '**Add Block**' button at the top of the page.

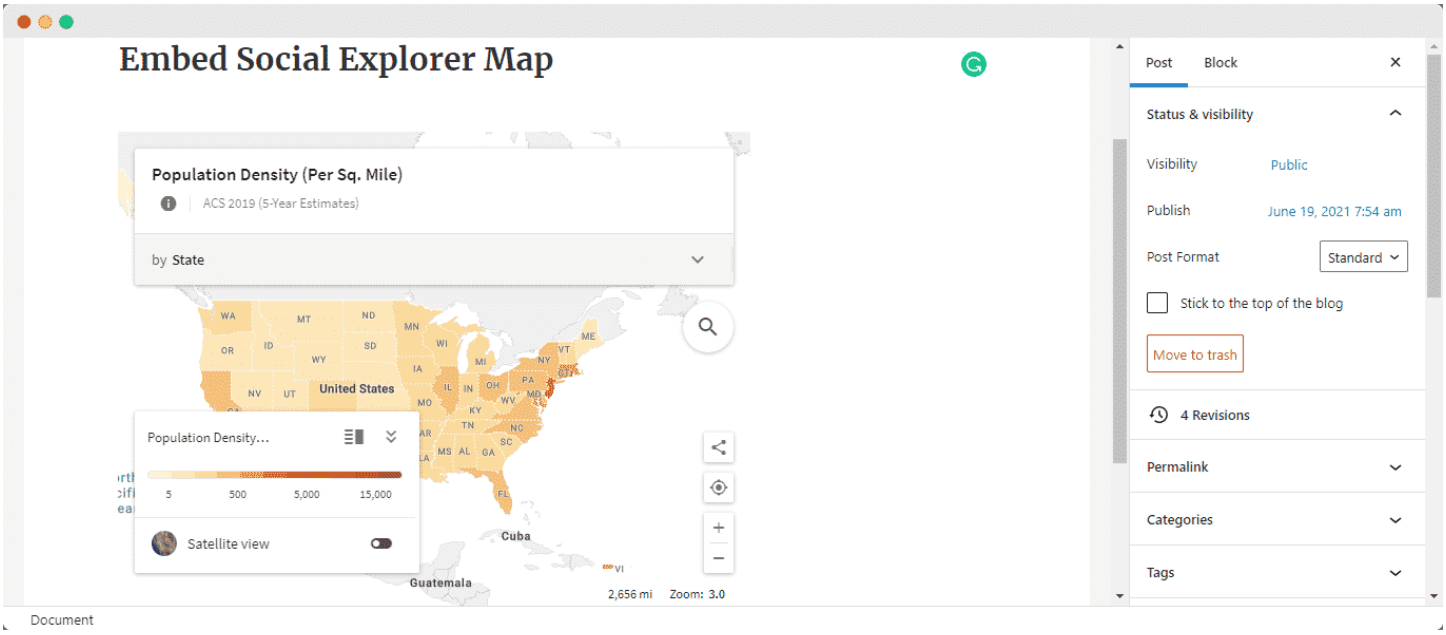

Step 2: Enter The URL Into The Block

Afterward, paste the collected Social Explorer map URL on the input field and click on the '**Embed**' button.

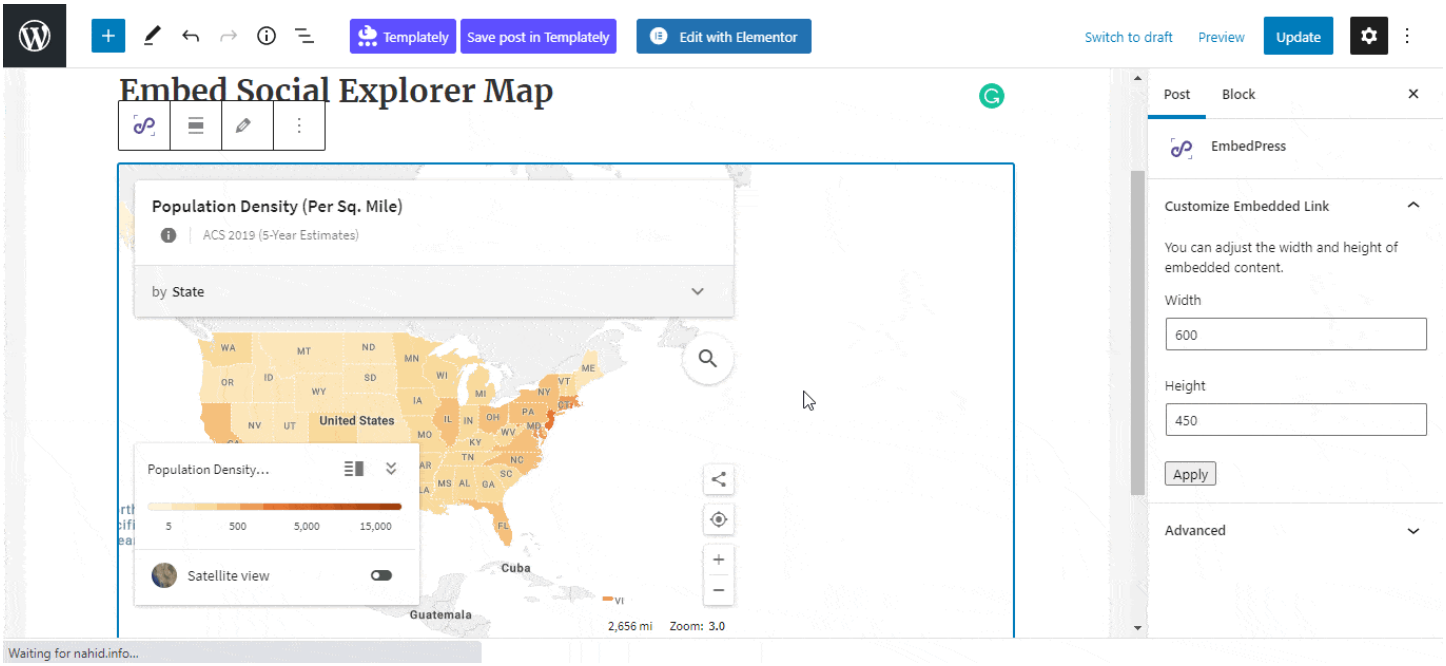

Publish your WordPress content, and the map will be embedded on the published page or post for your users to see.

Step 3: Edit The Embedded Content

While editing your WordPress content, you can also edit your embed with **EmbedPress**.

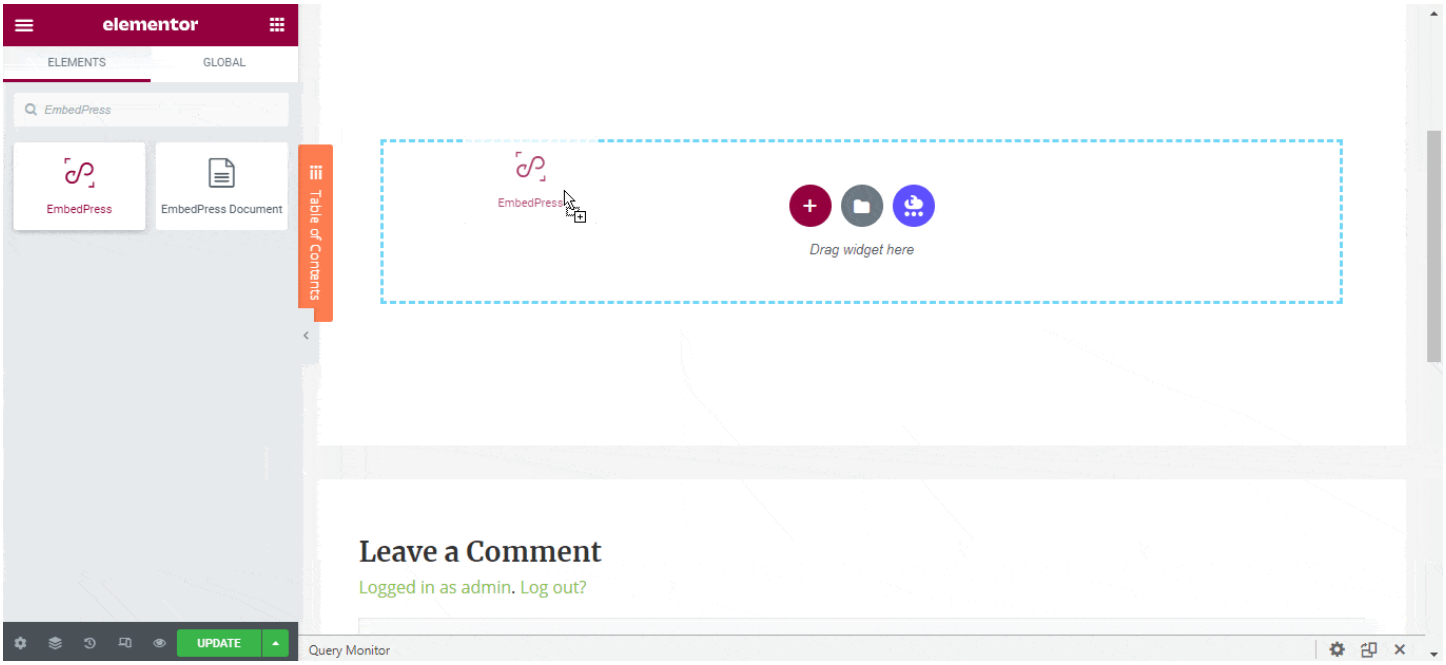

To edit the embed on the Gutenberg editor, click on the **EmbedPress block** on your editor. The block customizer will appear on the right-side panel of the editor. You can change the dimensions of the embedded course content and modify it the way you need with absolute ease.

How To Embed Social Explorer map In Elementor Editor?

You can embed a Social Explorer map by using EmbedPress on the **Elementor editor**. First, click on ' **Edit with Elementor**' at the top of your page. It will take you to the Elementor editing panel.

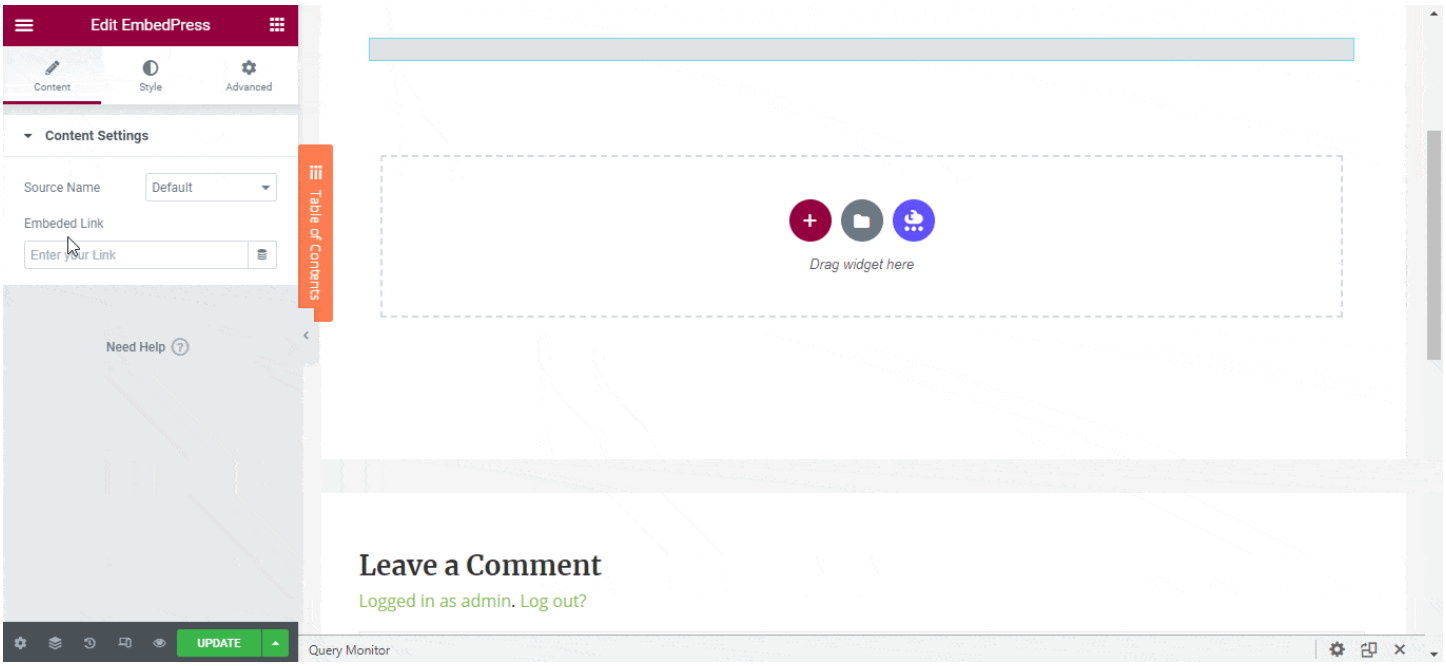

Step 1: Search & Insert The Widget

Search for the **EmbedPress** element on the widget panel and then drag & drop the '**EmbedPress**' widget onto the editor interface, as shown below.

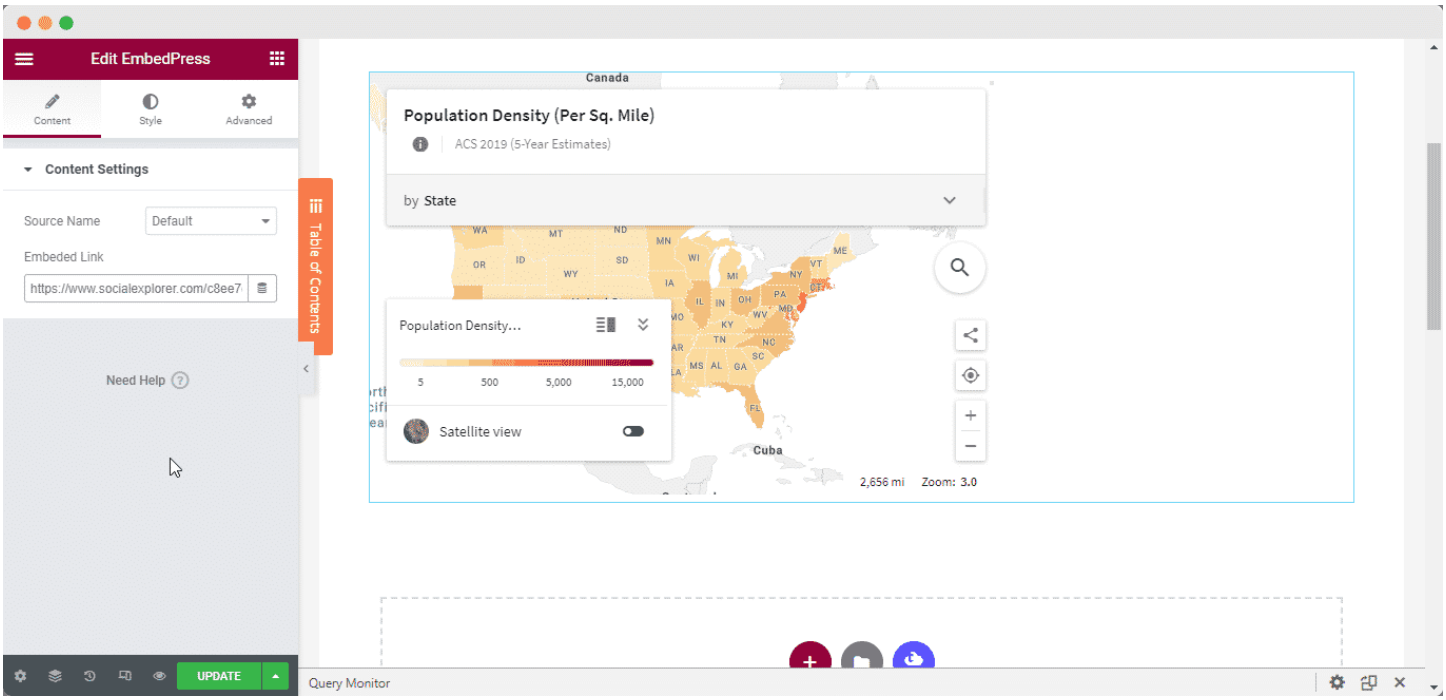

Step 2: Paste The URL In ‘Content Settings’

Afterward, paste the course link onto the ‘**Content Settings**’ input field. Your embedded course content will automatically be uploaded onto your Elementor editor.

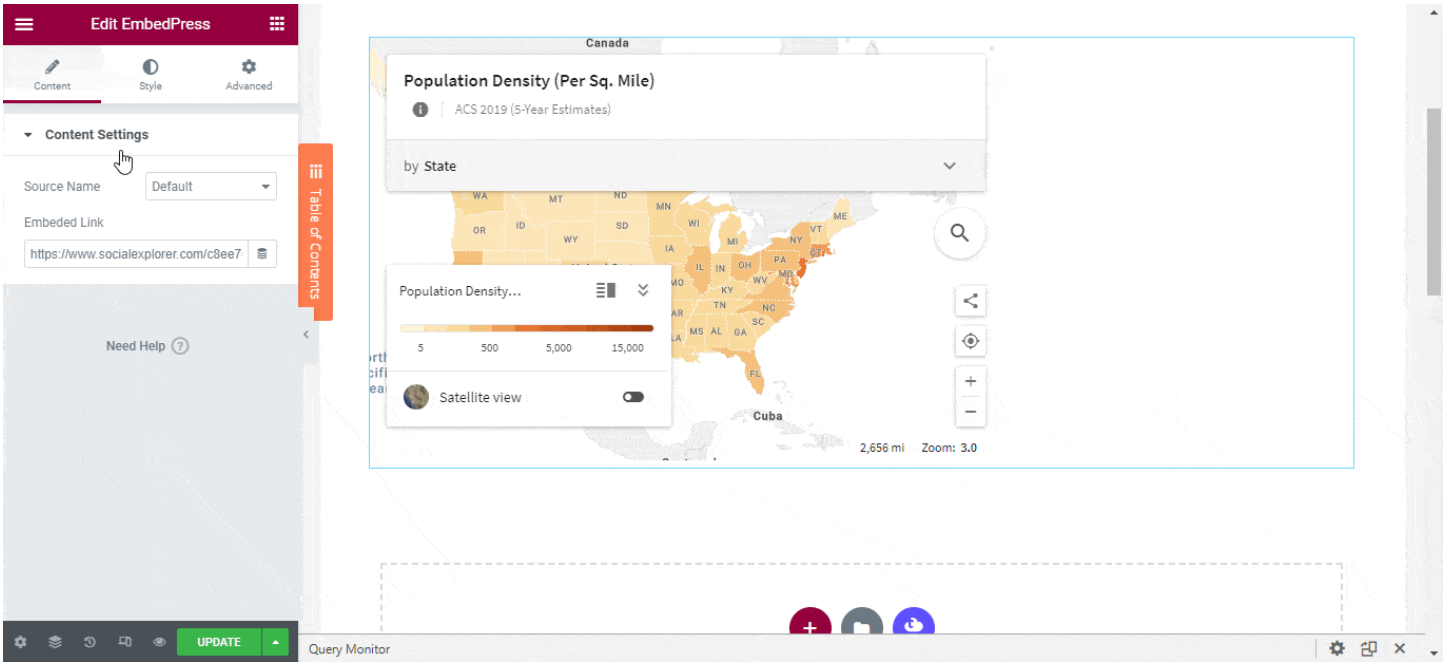

Publish your post or page, and your website users will be able to see the embedded content.

Step 3: Style Your Embedded Content

You can edit the embedded map on the Elementor editor with a few easy steps. First, go to the '**Style**' tab on the Elementor side panel.

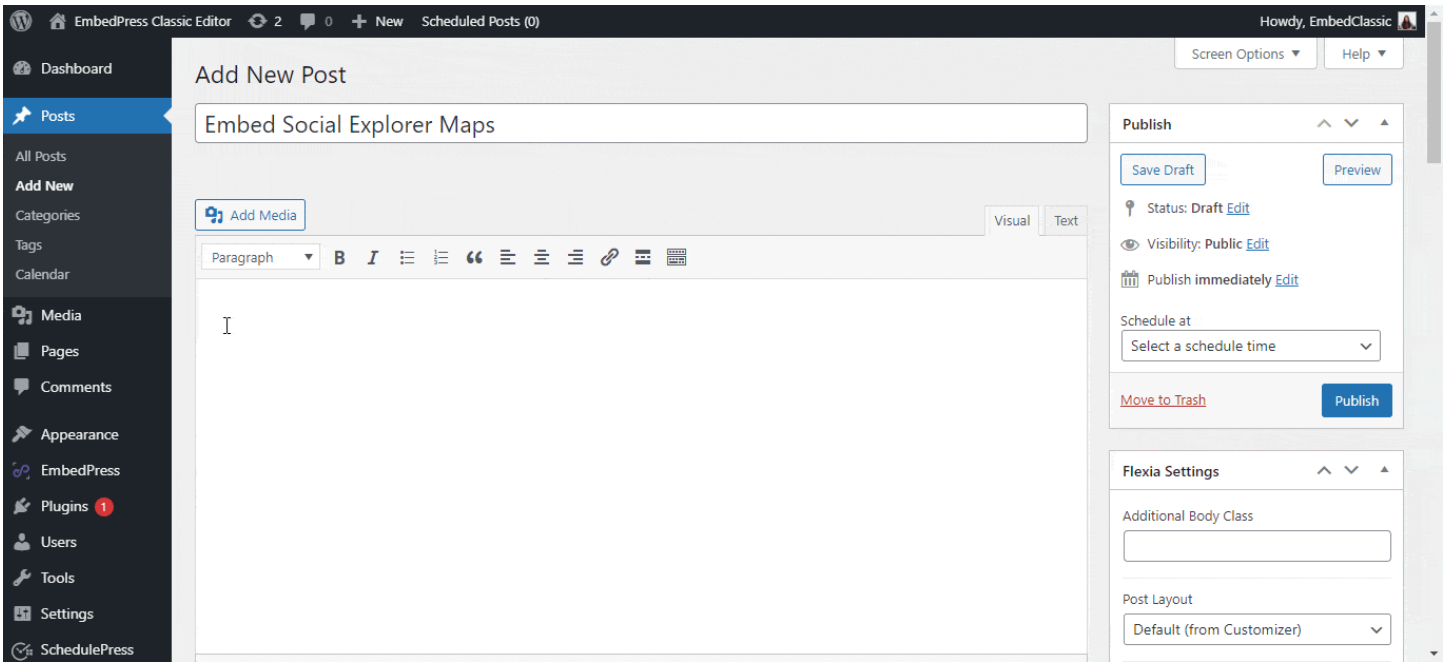

Here, you can change the **dimensions, aspect ratios, and background color** of the course content as necessary.

How To Embed Social Explorer Maps In Classic Editor?

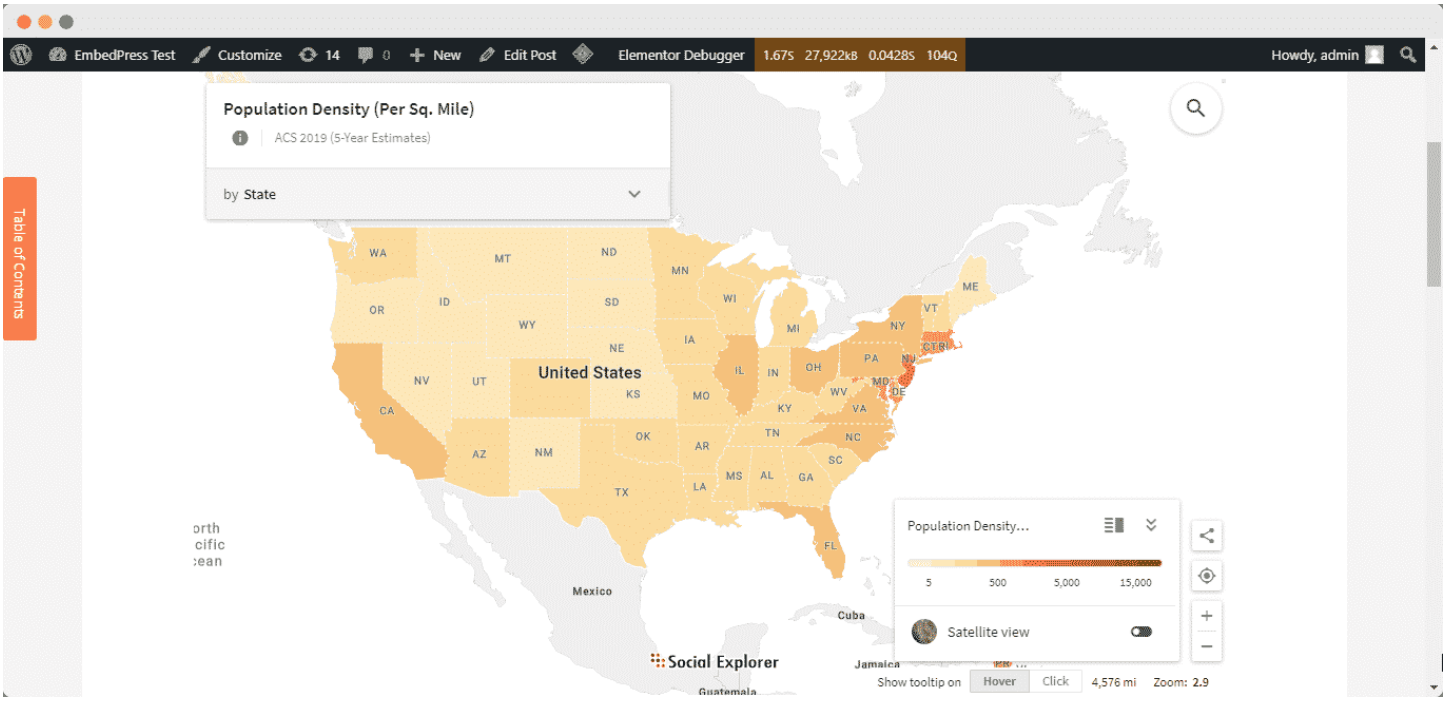

You can effortlessly **embed Social Explorer maps** onto your **Classic editor** with just a few clicks.

Step 1: Paste The Link On Classic Editor

Paste the URL directly onto the '**content area**' of your Classic editor interface, and make this link **'Publish'**.

Step 2: Check Embedded Post On WordPress Site

Afterward, hit the **‘Preview’ button** to check your embedded post on your website. You will then see the course content will automatically be embedded onto your WordPress website.

With these simple steps, you can **embed Social Explorer maps** instantly into your WordPress website with **EmbedPress** using any of Gutenberg Editor, Classic Editor, or Elementor Editor.
