How To Embed Spotify Artist Follower Widget In WordPress?

Audio Embeds · https://embedpress.com/docs/how-to-embed-spotify-artist-follower-widget/

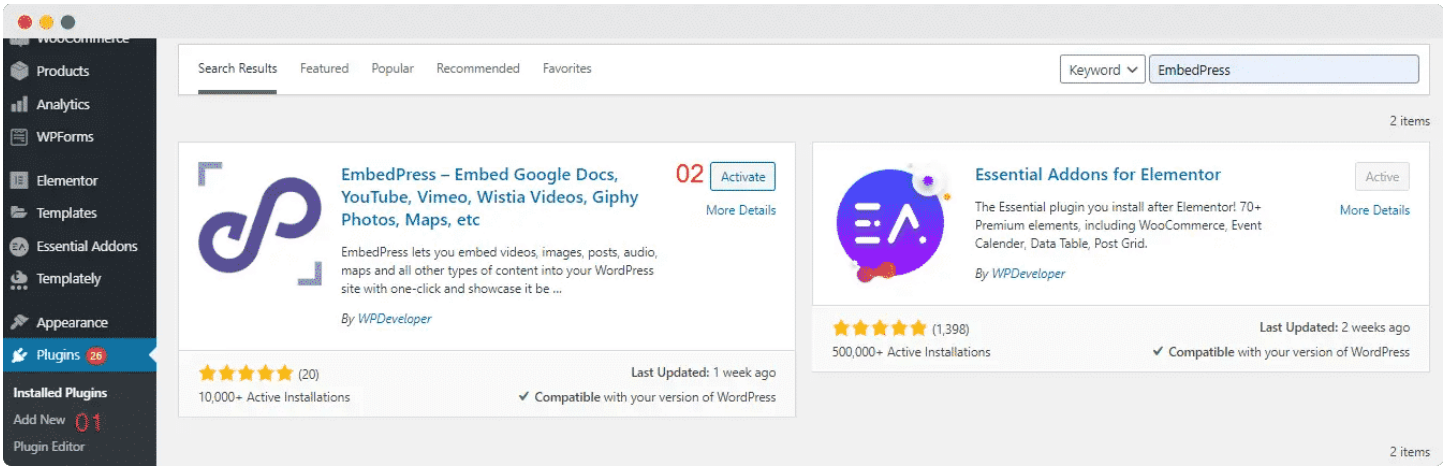

EmbedPress PRO comes with a premium feature '**Artist Follower Widget**', for your **Spotify** music or audio embeds. It enables you to embed a '**Follow Button**' for any artist when you embed a single track, album, or personalized playlist on any of your preferred WordPress editors - **Gutenberg Editor** , **Classic Editor**, or **Elementor Editor**.

How To Embed Spotify Artist Follower Widget?

Here's how to **embed Spotify artist follower widget** into your WordPress site, using this **EmbedPress plugin** following some simple easy steps.

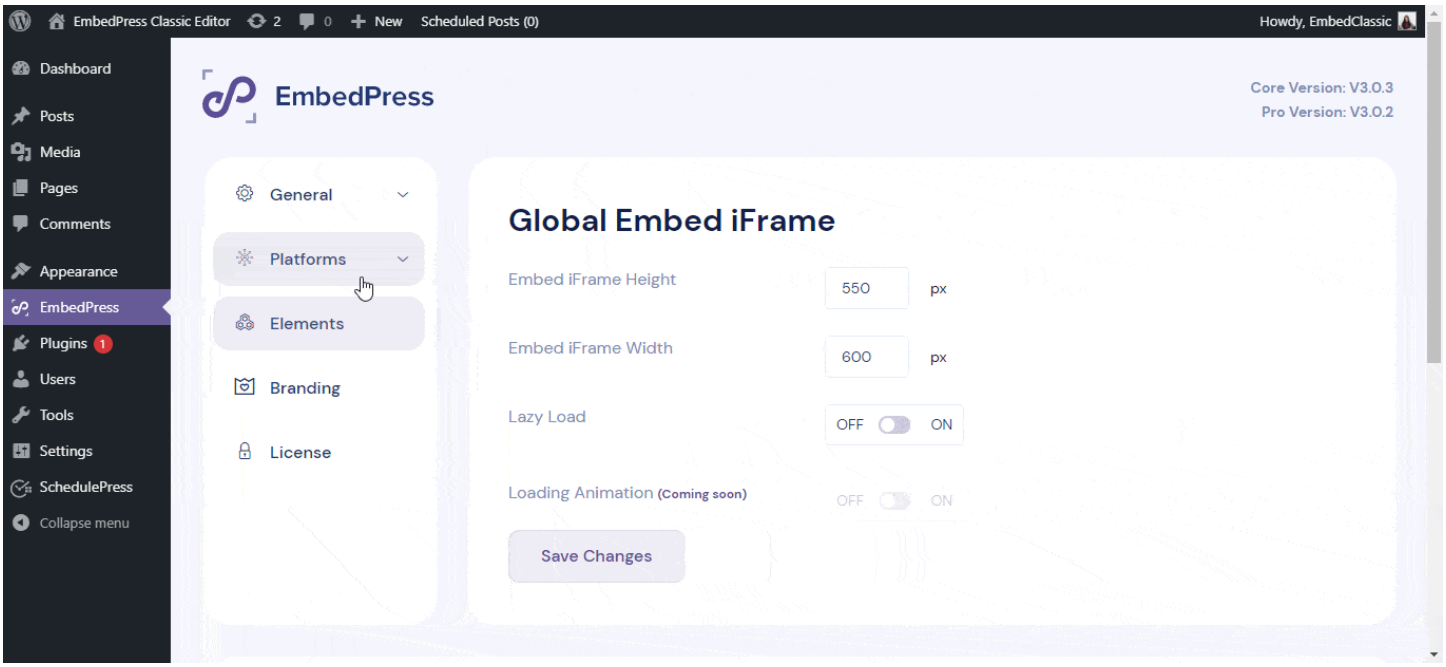

Step 1: Install EmbedPress PRO & Activate The License

To enable the premium feature 'Artist Follower Widget', you need to install the **EmbedPress PRO** and activate the license. You can **read this tutorial** to learn how to install the PRO version of EmbedPress and activate your license.

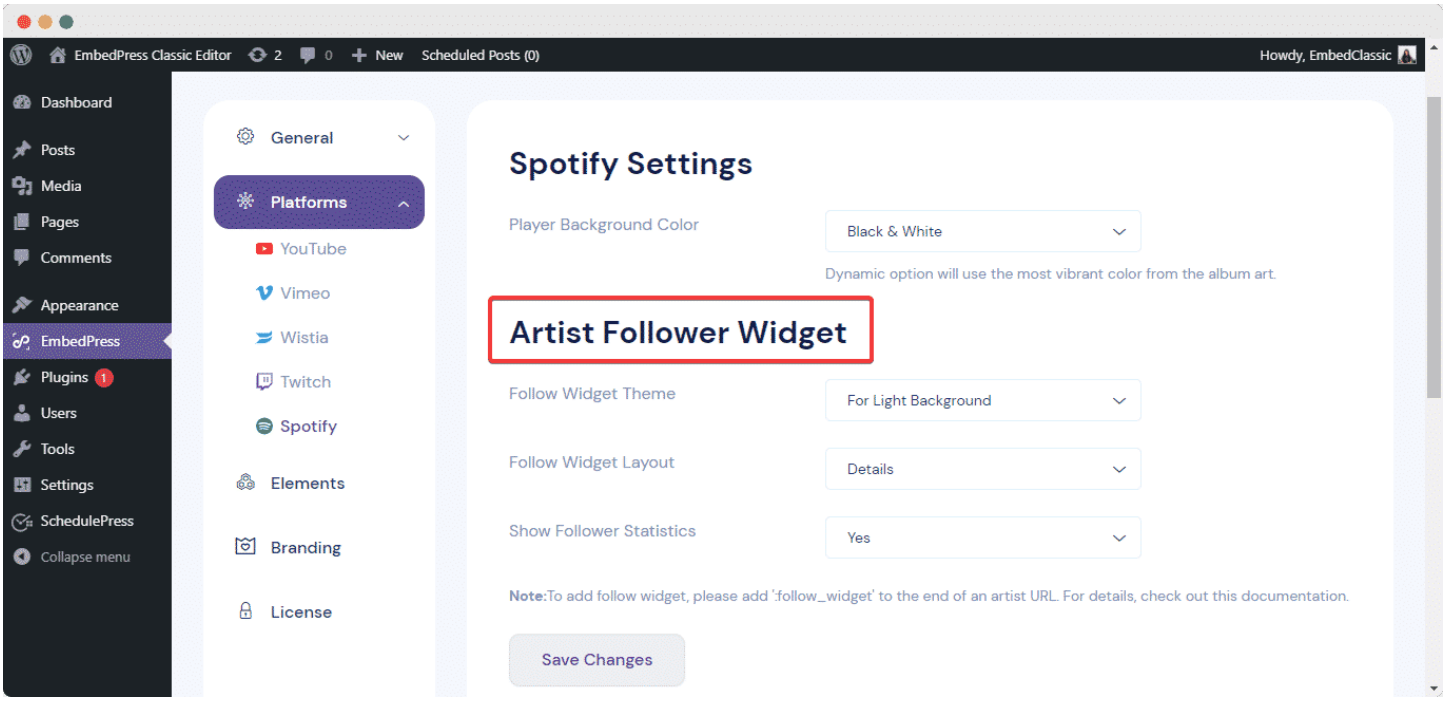

Step 2: Configure The Follower Widget Settings

Next, go to your EmbedPress plugin interface from the WordPress dashboard. Click on the '**Spotify**' option from the '**Platform**' drop-down menu, as shown below.

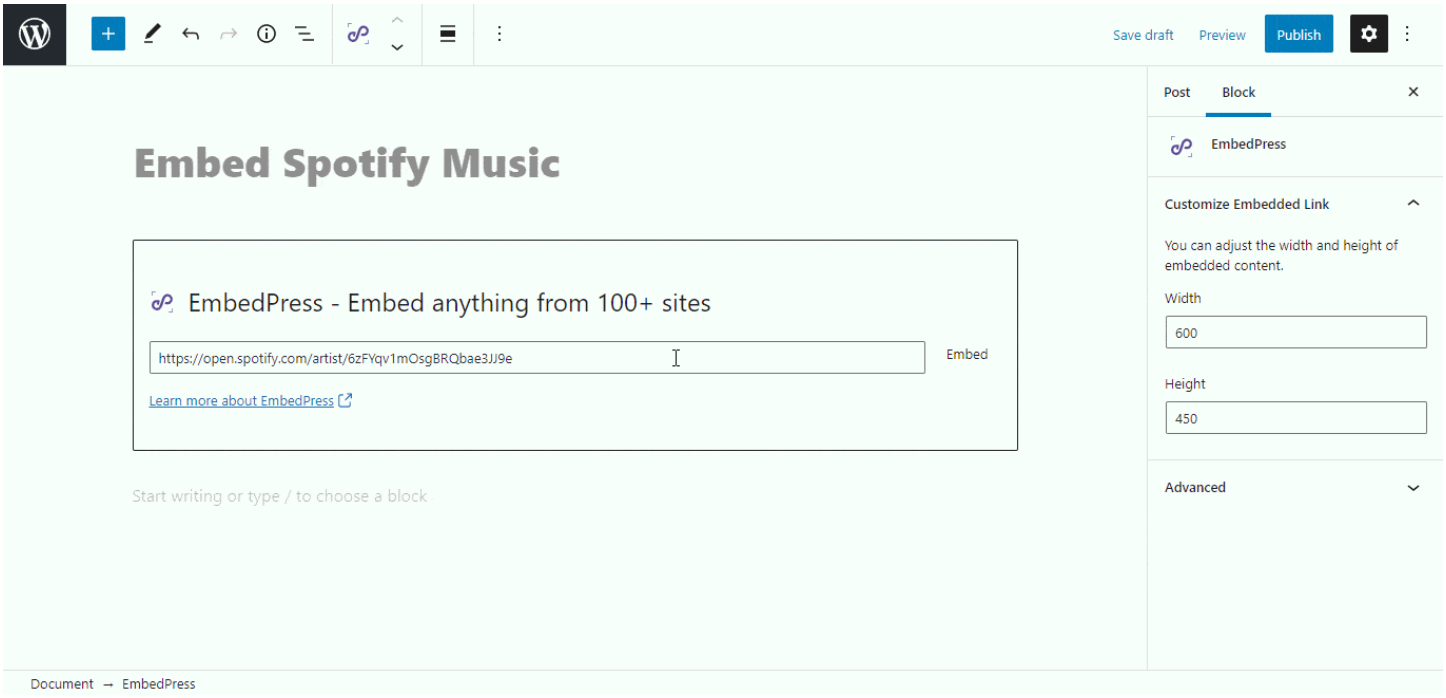

Afterward, configure the **'Artist Follower Widget' settings** and modify it the way you need with absolute ease. You can enable a theme for the embedded widget background, choose a layout for the follow button and show the artist's detailed follower statistics.

Step 3: Embed The Widget In WordPress

You can easily embed Spotify **'Artist follower widget'** in your WordPress website on any editor with the audio URL you have copied. To learn how to collect audio (single tracks, albums, and playlists) URLs, **check out this documentation.**

To embed this widget, you have to add the code '**:follow_widget**' after your Spotify audio URL as shown below.

Note: There should be no space between your original URL and this code.

With these simple steps, you can **embed Spotify Artist Follower Widget** instantly into your WordPress website with **EmbedPress** using any of Gutenberg Editor, Classic Editor, or Elementor Editor.
