How To Embed ZingSoft Charts & Grids In WordPress

Embed Sources · https://embedpress.com/docs/how-to-embed-zingsoft-charts-grids-in-wordpress/

ZingSoft is an online platform of grade charting and data handling solutions for modern JavaScript developers. It is the producer of ZingGrid and ZingChart and specializes in grids, charts, and JavaScript.

With the help of **EmbedPress**, you can now easily **embed ZingSoft charts** and grids using in your WordPress favorite editors - **Gutenberg Editor**, **Classic Editor,** or **Elementor Editor**. All you need is the data chart or grid URL you prefer and can instantly make your site more engaging with any ZingCharts or ZingGrids from this website.

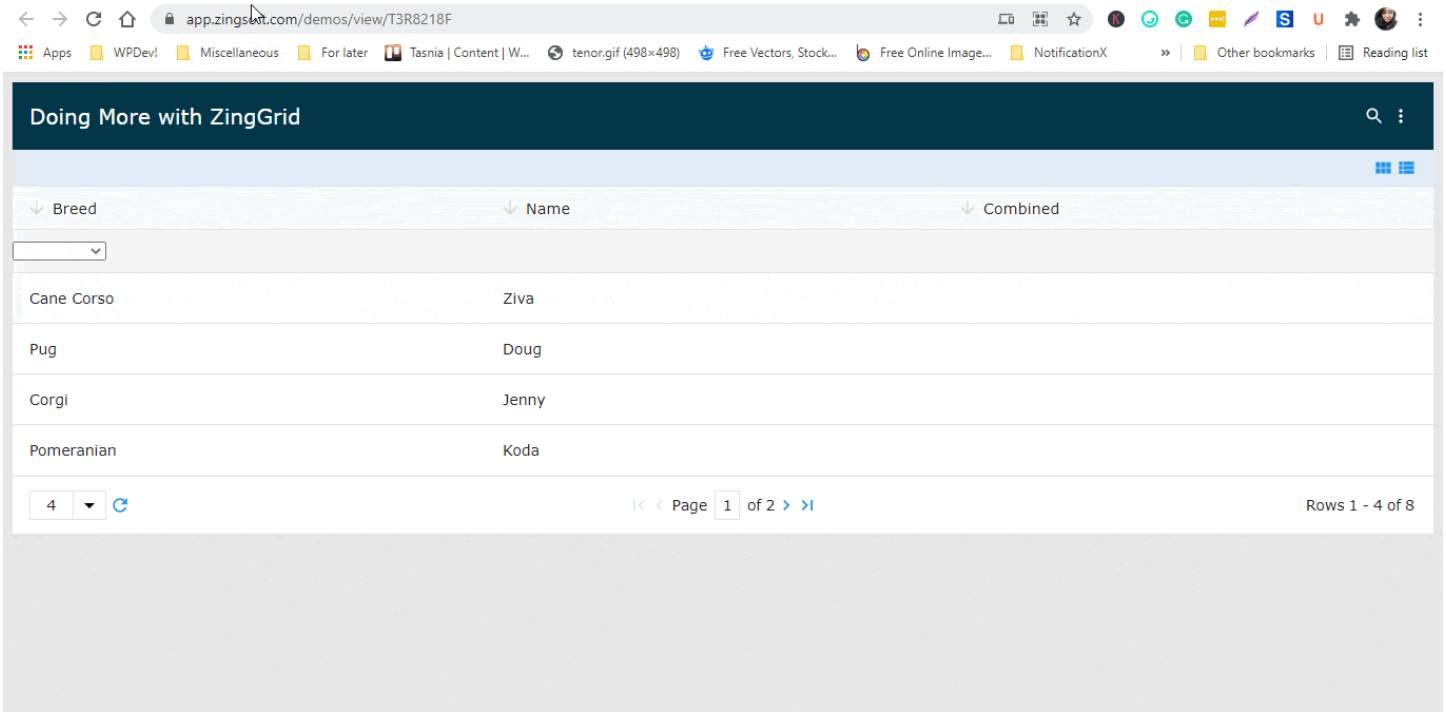

Here’s how to **embed ZingSoft charts** into your WordPress site preferred editor by using this **EmbedPress plugin** following the simple, easy steps below.

How To Collect Your ZingSoft Chart URL?

To collect the ZingSoft data chart URL, visit the **ZingSoft** website. Here, you can easily create, save and share your charts and grids.

Click on the ZingSoft data chart that you want to embed on your WordPress website and copy the URL **from the address bar**, as shown below.

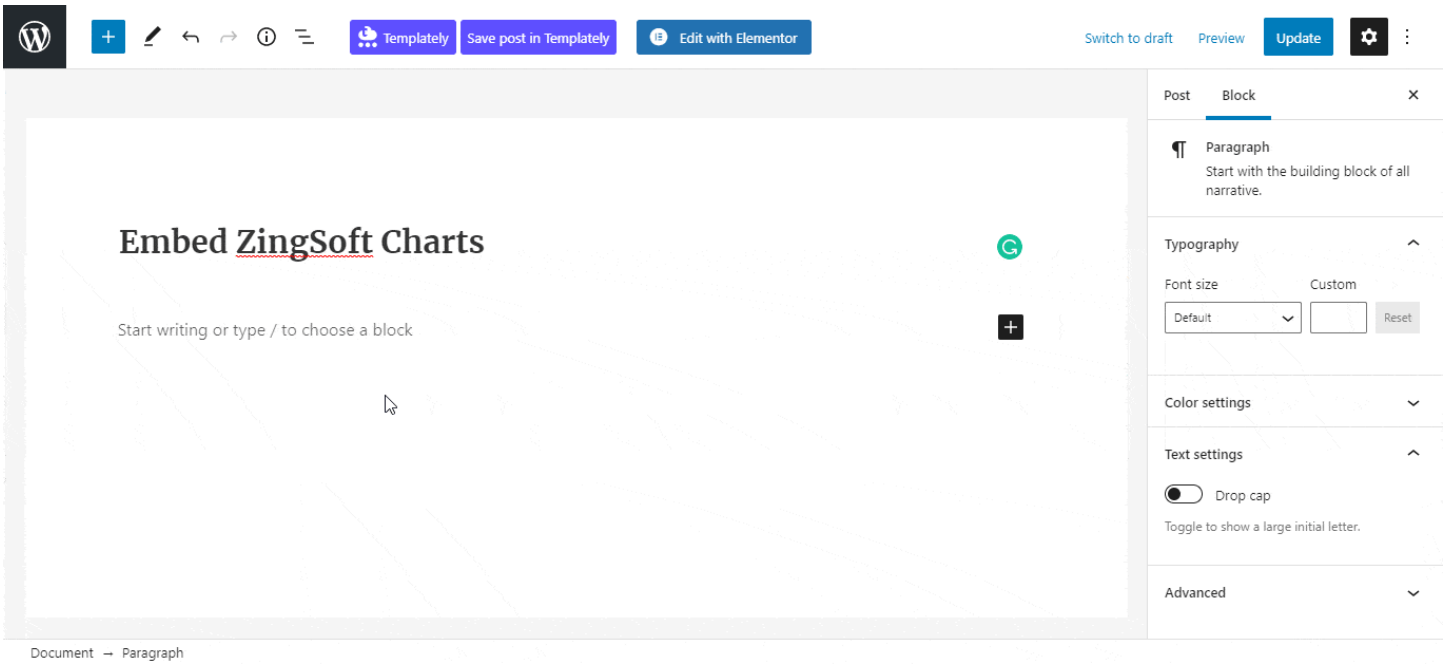

How To Embed ZingSoft Charts In Gutenberg Editor?

EmbedPress comes with its own block for embedding any type of content using the **Gutenberg editor**. To embed ZingSoft data charts using Gutenberg, follow the steps below.

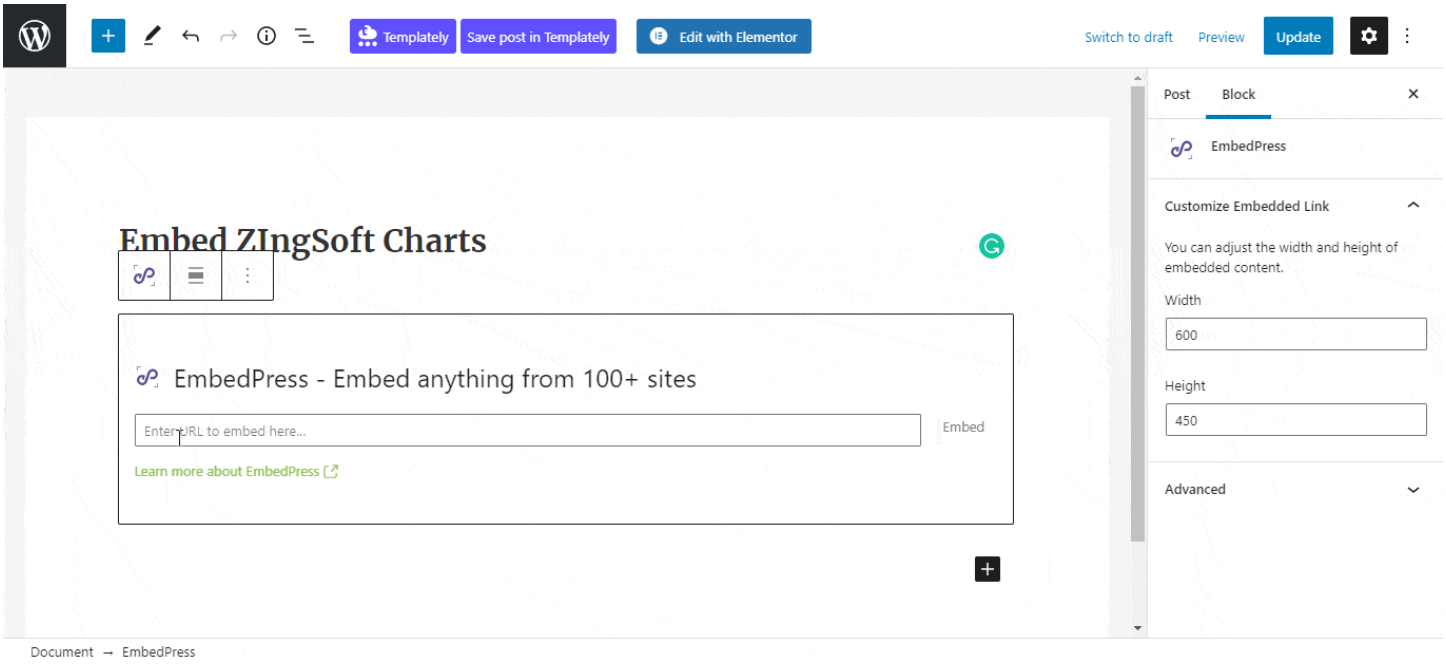

Step 1: Insert An EmbedPress Block

Click on the **'+'** icon on your post content area in the **Gutenberg editor** and select 'EmbedPress.' You can also insert EmbedPress from the '**Add Block**' button at the top of the page.

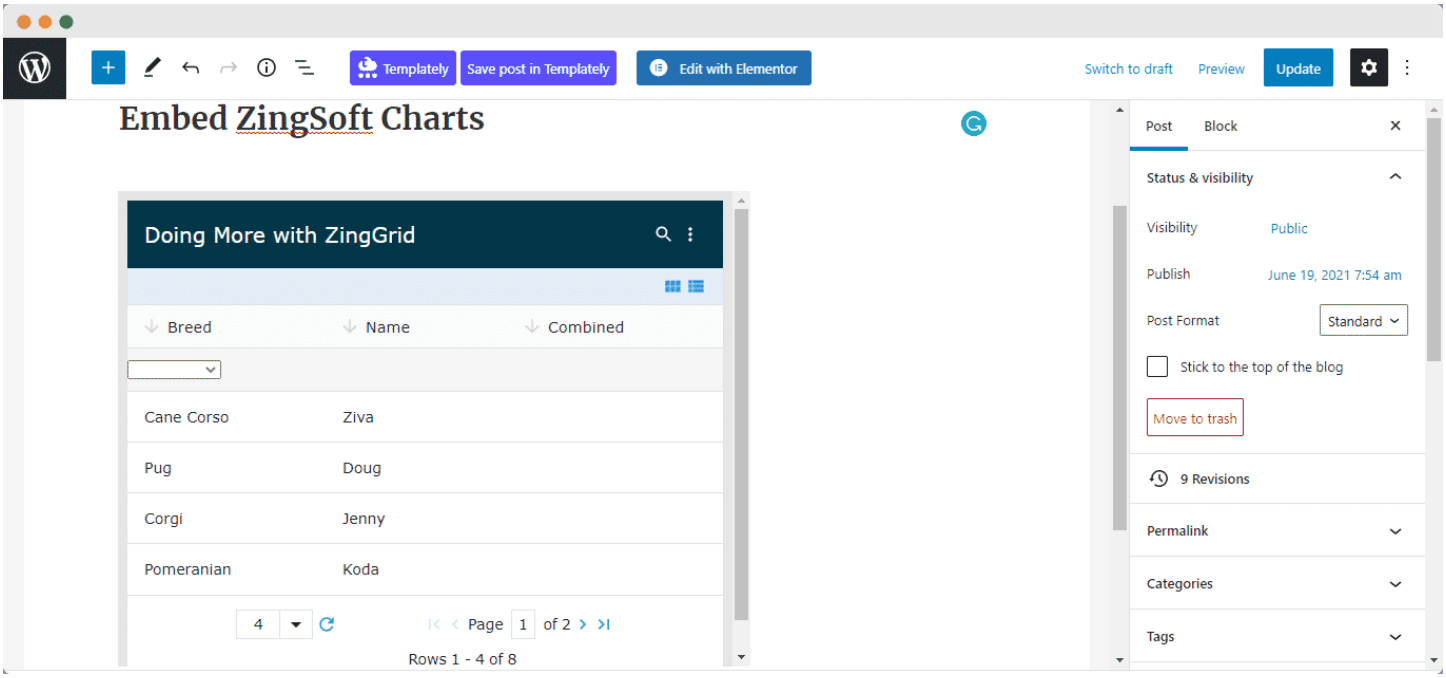

Step 2: Enter The URL Into The Block

Afterward, paste the collected ZingSoft chart URL on the input field and click on the '**Embed**' button. Your URL will automatically be transformed into an embed of your chart or grid.

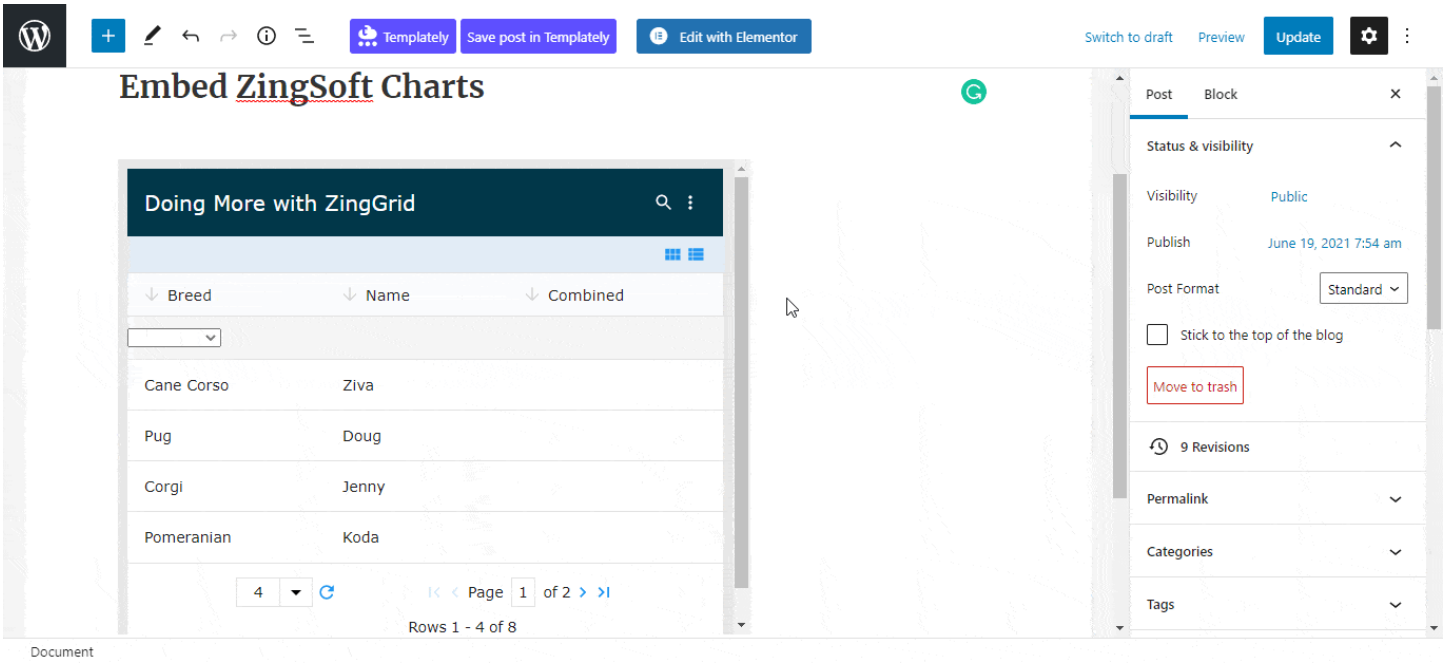

Publish your WordPress content, and the data chart will be embedded on the published page or post for your users to see.

Step 3: Edit The Embedded Chart Or Grid

While editing your WordPress content, you can also edit your embedded chart or grid with **EmbedPress**.

To edit the embed on the Gutenberg editor, click on the EmbedPress block on your editor. The block customizer will appear on the right-side panel of the editor.

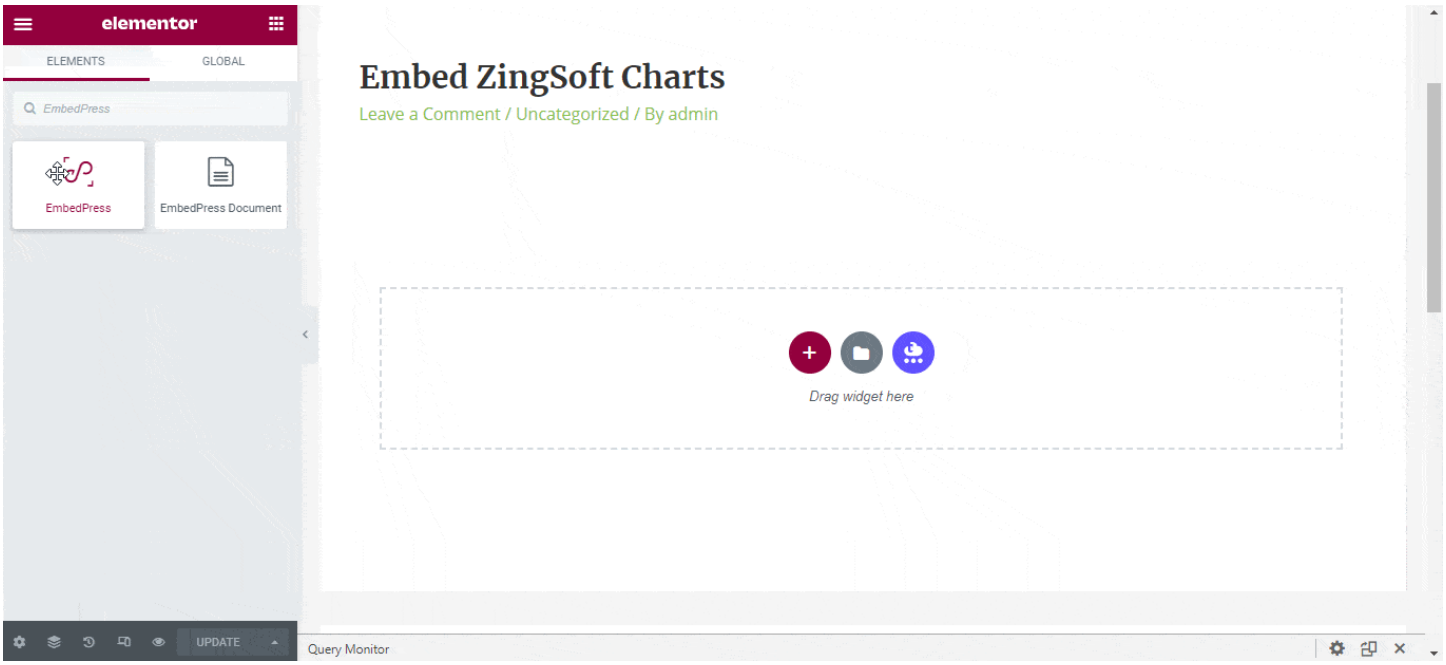

You can change the dimensions of the embedded data chart and modify it the way you need with absolute ease.

How To Embed ZingSoft Charts In Elementor Editor?

You can embed ZIngSoft charts by using EmbedPress on the **Elementor editor**. First, click on '**Edit with Elementor**' at the top of your page. It will take you to the Elementor editing panel.

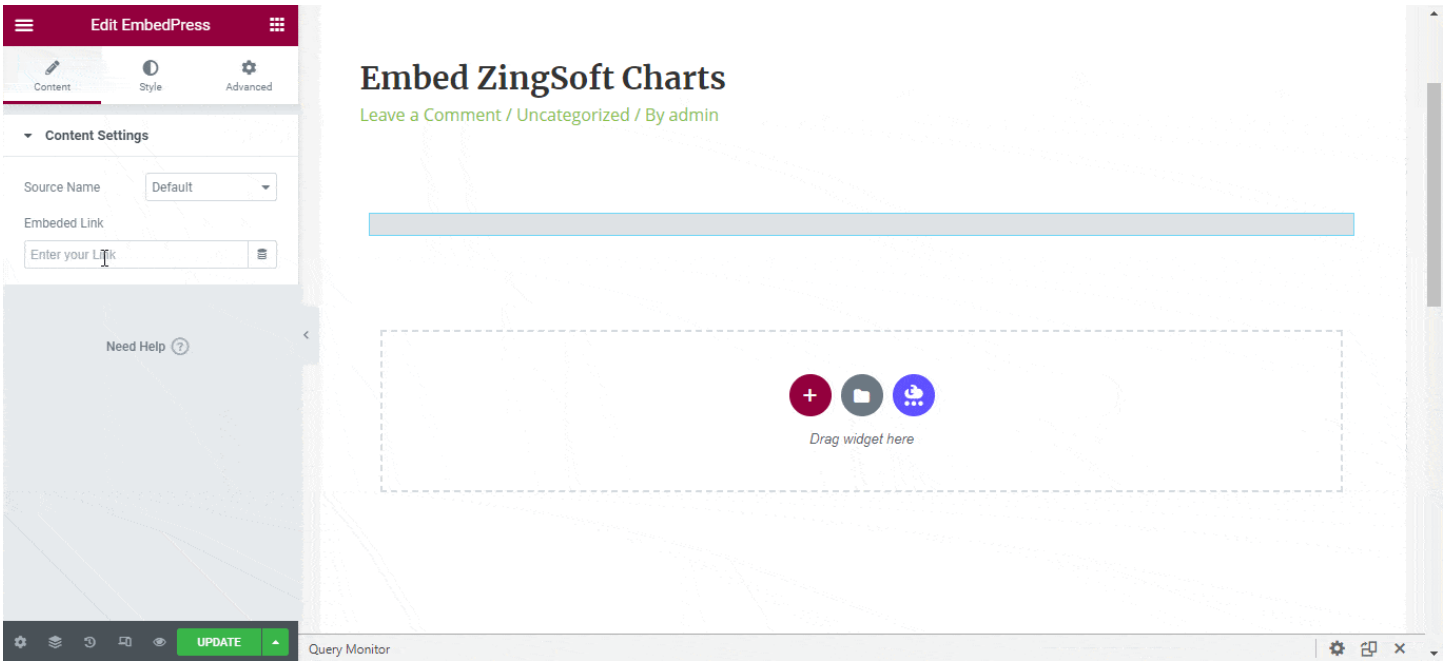

Step 1: Search & Insert The Widget

Search for the **EmbedPress** element on the widget panel and then drag & drop the '**EmbedPress**' widget onto the editor interface, as shown below.

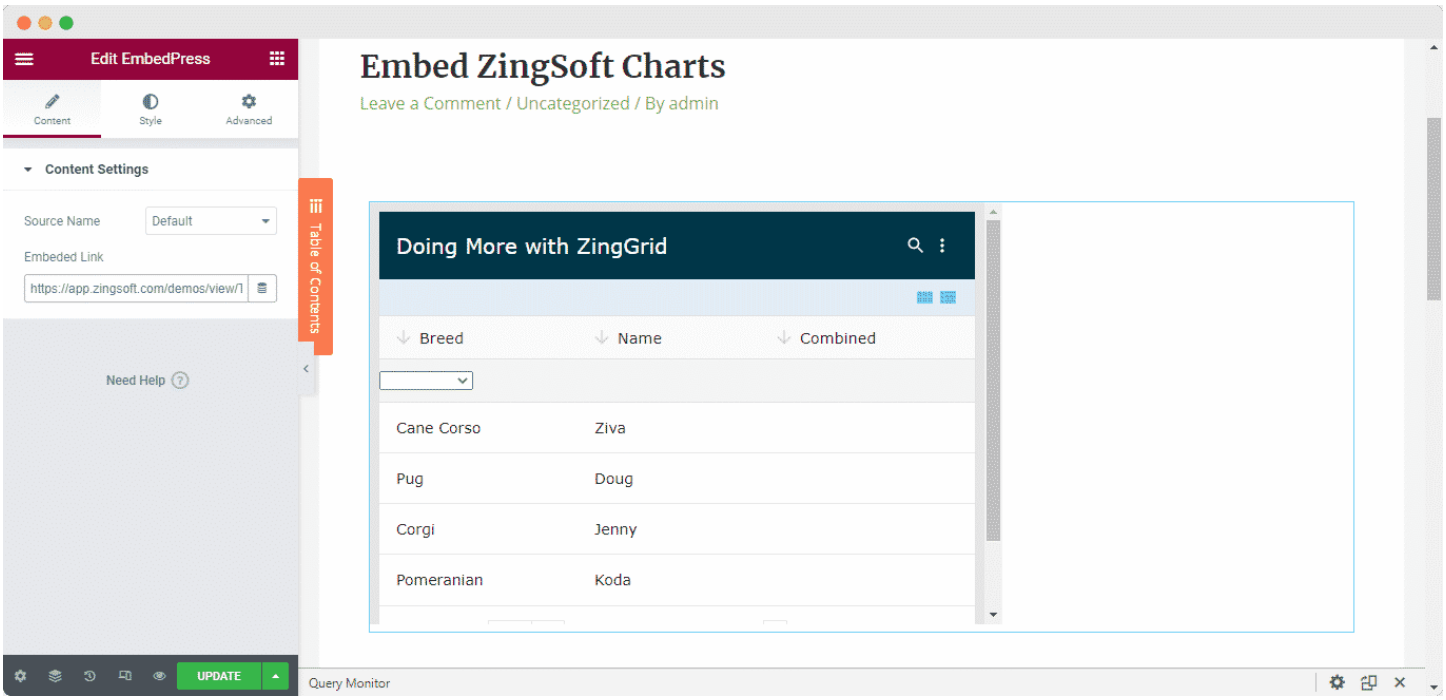

Step 2: Paste The URL In ‘Content Settings’

Afterward, paste the data chart link onto the ‘**Content Setting**’ input field. Your embedded chart or grid will automatically be uploaded onto your Elementor editor.

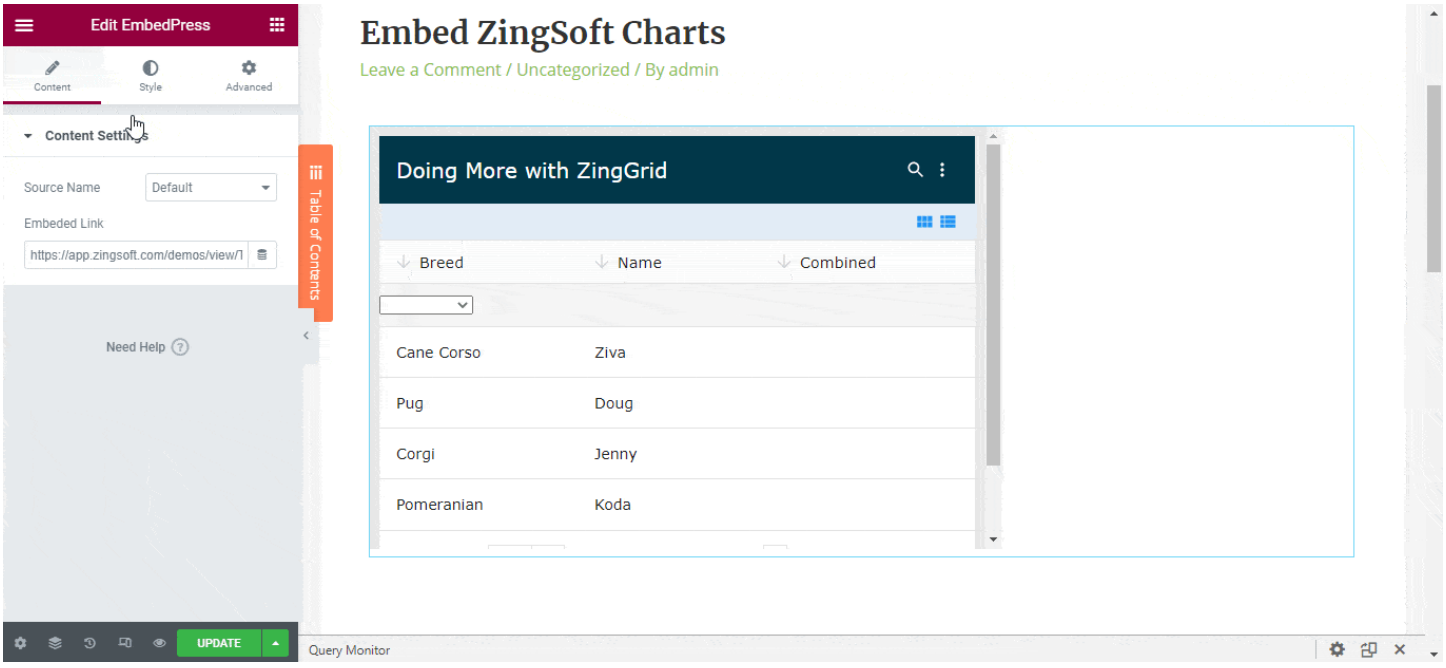

Publish your post or page, and your website users will be able to see the embedded content.

Step 3: Style Your Embedded Content

You can edit the embedded data chart on the Elementor editor with a few easy steps. First, go to the '**Style**' tab on the Elementor side panel.

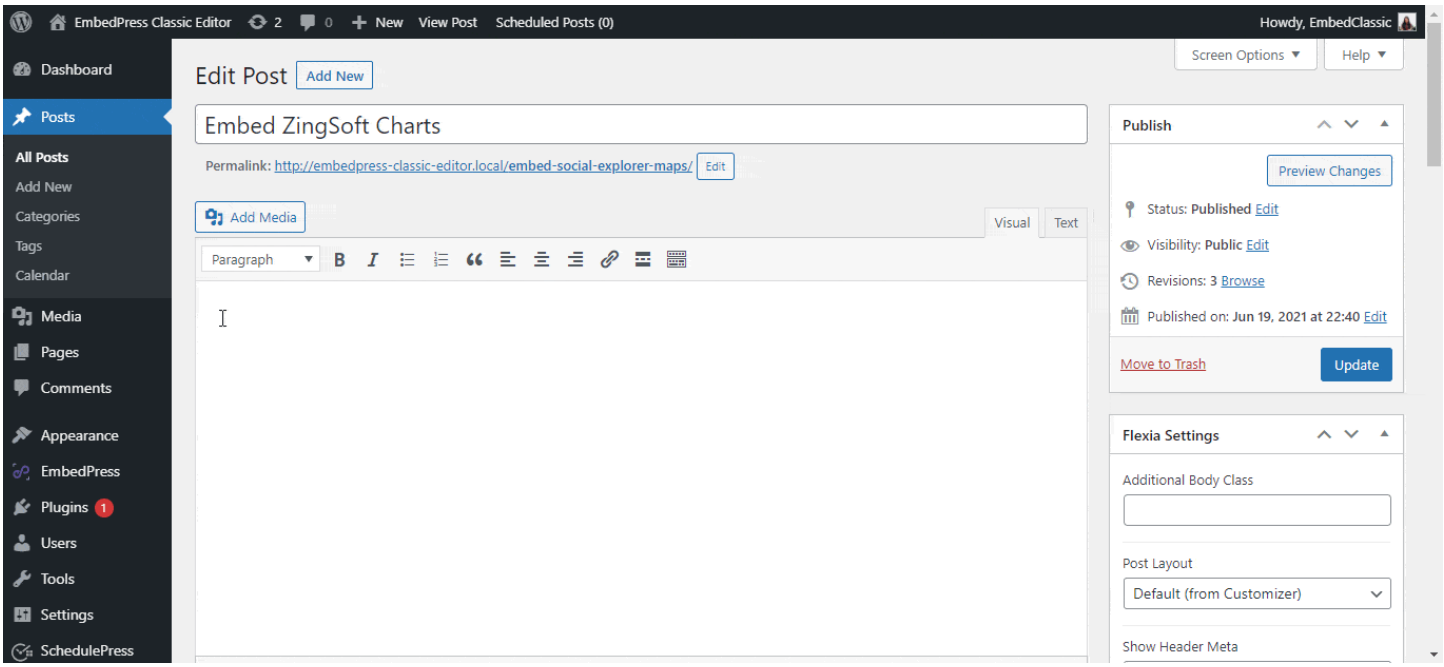

Here, you can change the dimensions, aspect ratios, and background color of the chart as necessary.

How To Embed ZingSoft Charts In Classic Editor?

You can effortlessly **embed ZIngSoft charts** onto your **Classic editor** with just a few clicks.

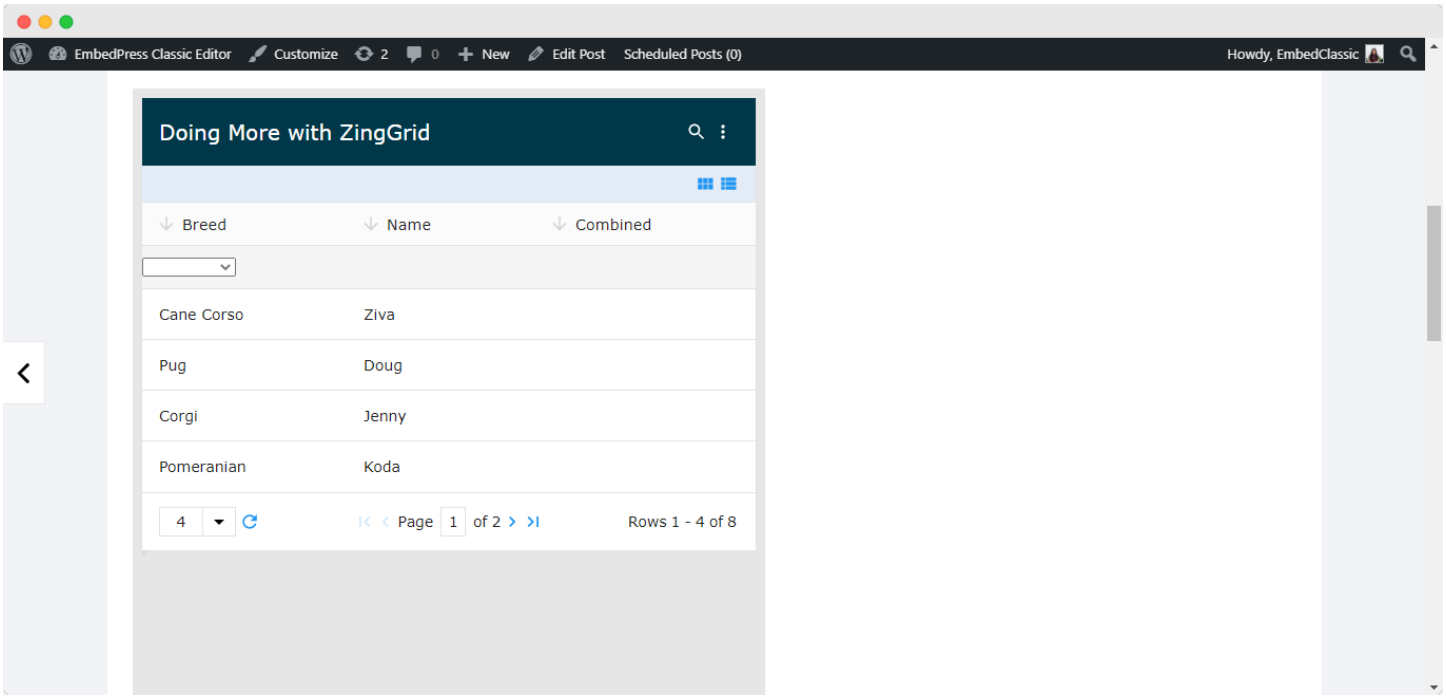

Step 1: Paste The Link On Classic Editor

Paste the URL directly onto the '**content area**' of your Classic editor interface, and make this link **'Publish'**.

Step 2: Check Embedded Post On WordPress Site

Afterward, hit the **'Preview' button** to check your embedded post on your website. You will then see the chart will automatically be embedded onto your WordPress website.

With these simple steps, you can **embed ZingSoft charts** instantly into your WordPress website with **EmbedPress** using any of Gutenberg Editor, Classic Editor, or Elementor Editor.
