How To Retrieve YouTube API Key To Embed YouTube Channel?

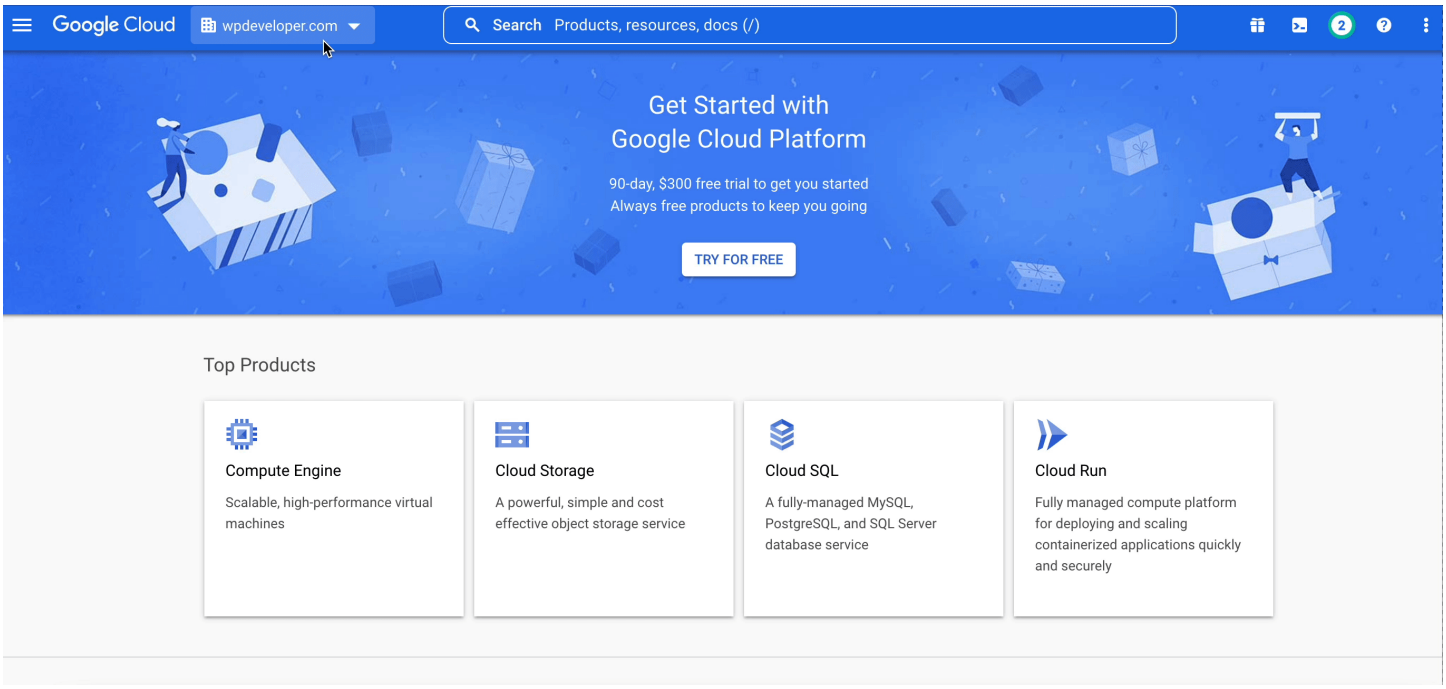

Collect API Keys · https://embedpress.com/docs/retrieve-youtube-api-key/

With **EmbedPress**, you can easily **embed YouTube channels** on your website. All you have to do is integrate YouTube channel API key. Follow this step-by-step guide to **retrieve YouTube API key** for YouTube channel embedding.

Step 1: Create New Project On Google Cloud Platform

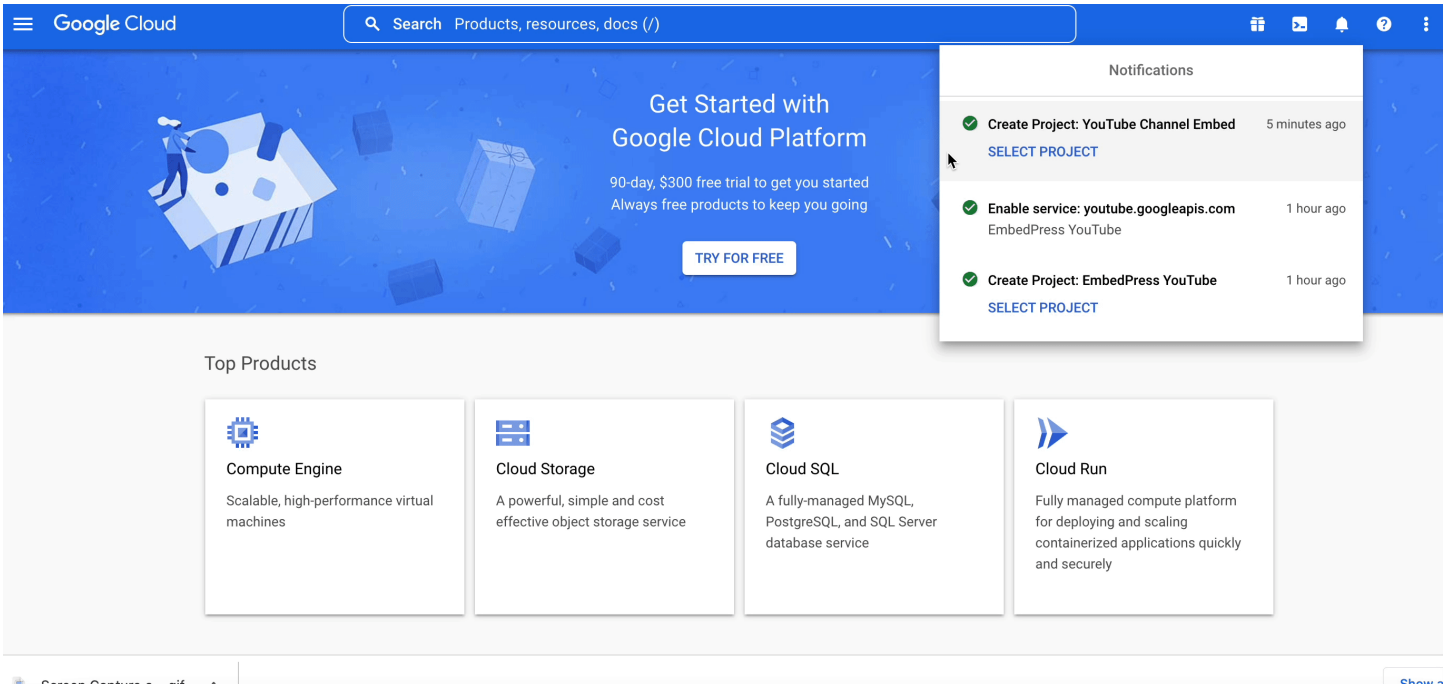

First, visit **Google Cloud Console** from your browser. If you are not already logged in, log in with your Google profile and create a new project with your website. Now you have to create a new project to retrieve YouTube API key for channel embedding.

Click on the **'Select a project'** from your Google Cloud Console dashboard. A popup will appear. From there click on the **'New Project'** button. It will take you to a new page. Provide your project name and click on the **'Create'** button. The project will be created instantly.

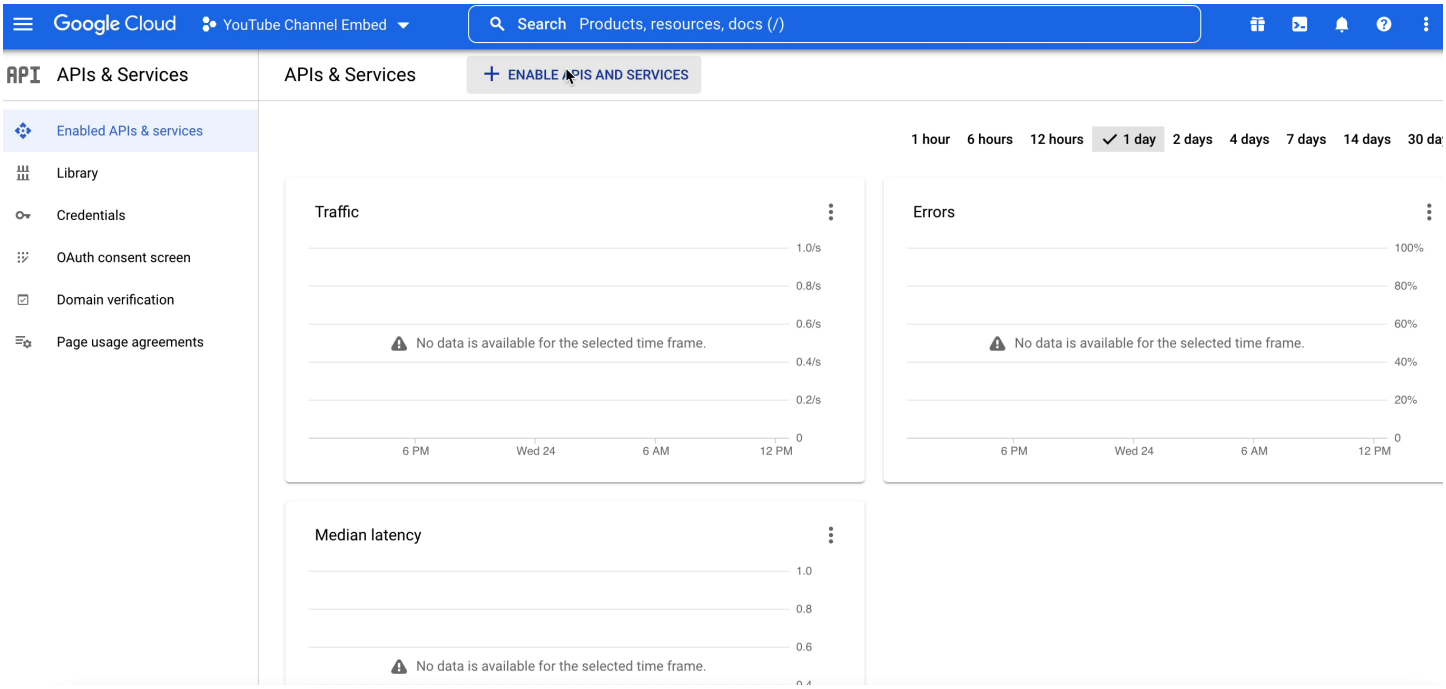

Step 2: Enable APIs & Services For YouTube Channel

Afterward, click on the **‘Select Project’** from the notification bar. It will take you to the project detail page. From there, navigate to the **‘APIs & Services’** tab to generate YouTube API key.

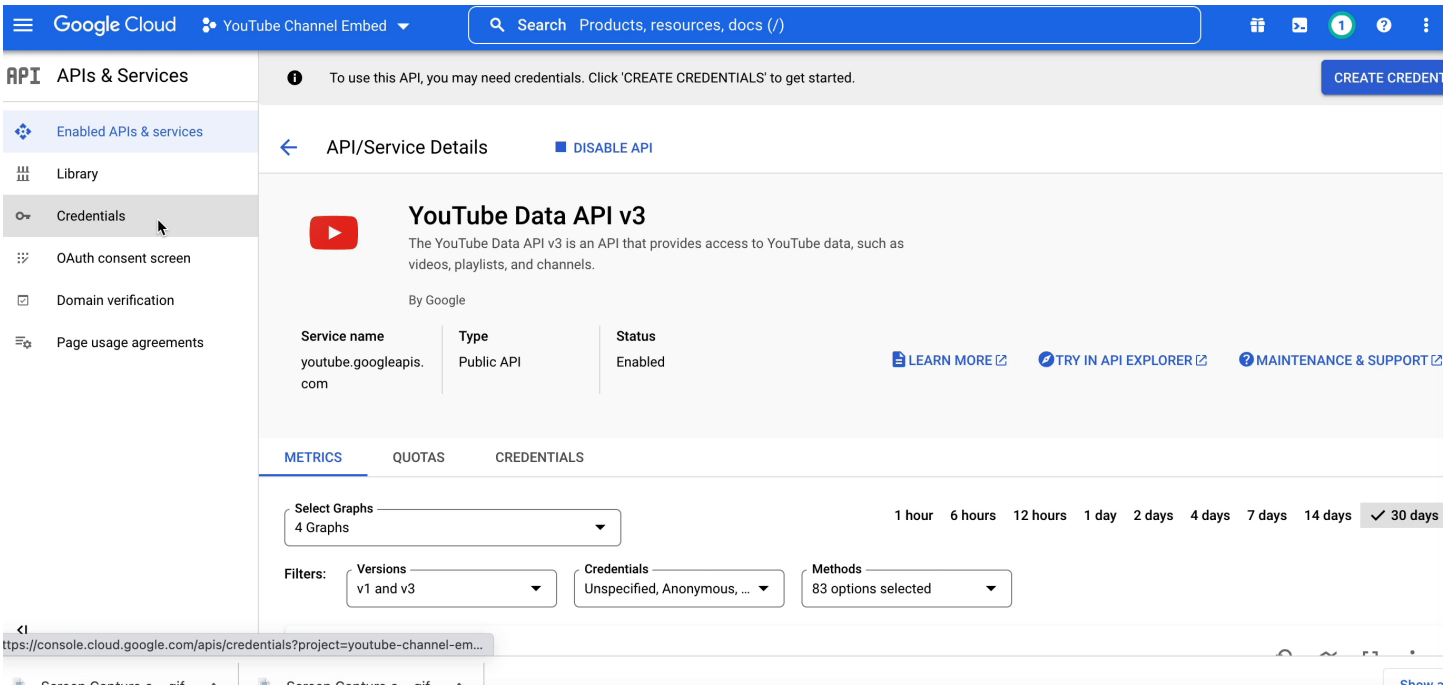

From the dashboard, hit the **‘Enable APIs & Services’** button. It will redirect you to the Google API Library. Search for **‘YouTube Data API v3’** and click on it.

On the next page, click on the **‘Enable’** button. As a result, YouTube channel embed permission will be enabled.

Step 3: Create Credential For YouTube API Key

From the left sidebar, go to the **‘Credentials’** tab from the dashboard. Choose the **‘CREATE CREDENTIALS’** button from the top bar and click on the **‘API Key’** from the drop-down. A popup will appear instantly containing your YouTube API key. That’s it.

This is how easily you can **retrieve YouTube API key credentials** to embed YouTube channels. Now paste the YouTube API key on your EmbedPress dashboard and embed channels instantly.
