Video Embeds · https://embedpress.com/docs/wistia-add-on/

Wistia with EmbedPress PRO provides many extra features for your Wistia videos. To access the features, you need the **EmbedPress PRO** installed and activated. **Read this tutorial** to know how to activate your EmbedPress PRO license.

- Login to your WordPress site's dashboard and go to the **EmbedPress menu.**
- Go to the **"General"** tab and select **"Wistia"** from the drop-down menu.

Here's an overview of all the features available in the Wistia add-on:

- **Fullscreen Button:** This indicates whether the fullscreen button is visible. Viewers can expand your videos to fill their entire screen.
- **Playbar:** This indicates whether the play bar is visible.

- **Small Play Button:** This indicates whether the small play button is visible on the bottom left.
- **Volume Control:** This indicates whether the volume control is visible.
- **Auto Play:** This feature allows you to automatically start playing video after it has loaded.
- **Volume:** You can start the video with a custom volume level. Set values between 0 and 100.
- **Color:** This feature allows to change the color of the video controls. Changing the color helps the videos fit more naturally with your site’s design.
- **Plugin: Resumable:** This feature is for users who return to watch a video again. Users will have the option to resume the video where they had been watching. or start again from the beginning.
- **Plugin: Captions:** Indicates whether the captions plugin is active. You will need closed captions on your Wistia video for this work.
- **Captions Enabled By Default:** Indicates whether closed captions are enabled by default.
- **Plugin: Focus:** Indicates whether the Focus plugin is active. This will darken the rest of the screen so viewers can focus on the video.
- **Plugin: Rewind:** Indicates whether the Rewind plugin is active. This allows users to rewind the video.
- **Rewind time (seconds):** The amount of time to rewind, in seconds.
